We Want Bama Joseph Goodman,2021-11-09 A lively chronicle of how the 2020 Crimson Tide became Nick Saban s ultimate team Was Alabama s Crimson Tide in 2020 the greatest team of all time The squad went 13 0 in a pandemic year scored a combined 107 points against SEC powerhouses LSU and Florida crushed Ohio State in a National Championship Game 52 24 in a contest that wasn t even that close and followed it up with another top rated signing class Nick Saban called his boys the ultimate team but it wasn t just because they kicked the ever living hell out of everyone on the football field It was because the team leveraged a power and influence born of Southern pride to push back against a hateful legacy of racism that a populist president was exploiting to divide the nation At a time when Americans needed real leaders in the face of so much hate the sports world answered the call and fought back for the soul of the country In the summer of 2020 the Tide players left their training facility and led by their celebrated coach marched to a campus doorway made infamous sixty years earlier by another political demagogue and showed what people can accomplish when they fight together for a just cause in the name of unity The most powerful force in a state crazy for college football had chosen to make a stand and replace George Wallace s Segregation forever with a different message written by one of the players All lives can t matter until Black lives matter There have been some great football teams through the years and they all deserve respect But here s what we know for sure They all would have been appreciative of what this Alabama team represented and proud of what it accomplished The Crimson Tide in 2020 captured something special that moved it beyond the conversation of best ever and into the place reserved for most important of all time

Presentations of the 29th Annual SW/Texas Regional Meeting of the Popular Culture and American Culture Association Gypsey Elaine Teague, 2008-12-18 Gender is an often misunderstood subject area even within the discipline even to those who teach and write about it One of my presenters when she first approached me to present at the conference asked What does my paper really have to do with gender To me the answer was obvious everything has to do with gender Gender is everywhere from the cradle to the grave What color blanket are we given at birth What clothes are we laid out in at death We are bombarded with advertisements specifically targeted at our gender either male female or somewhere in between We are judged by our gender which is often synonymous with our sex although in many of the presentations through the years it is becoming evident that more and more people understand the difference Our clothing food entertainment and reading material are all tied to gender in one form or another Gender is like the air It is all around us seldom thought of but always present In an area that spans literature politics sex religion and personal choices it is hard to get finite and clear cut delineations The contributors are the main focus here and I have just been the ringmaster of this incredible circus of ideas Without them this could never have gone to press and it is all our hopes that you enjoy the volume and take something away from it that you did not anticipate
