A History of Solitude David Vincent, 2020-05-06 Solitude has always had an ambivalent status the capacity to enjoy being alone can make sociability bearable but those predisposed to solitude are often viewed with suspicion or pity Drawing on a wide array of literary and historical sources David Vincent explores how people have conducted themselves in the absence of company over the last three centuries He argues that the ambivalent nature of solitude became a prominent concern in the modern era For intellectuals in the romantic age solitude gave respite to citizens living in ever more complex modern societies But while the search for solitude was seen as a symptom of modern life it was also viewed as a dangerous pathology a perceived renunciation of the world which could lead to psychological disorder and anti-social behaviour Vincent explores the successive attempts of religious authorities and political institutions to manage solitude taking readers from the monastery to the prisoner's cell and explains how western society's increasing secularism urbanization and prosperity led to the development of new solitary pastimes at the same time as it made traditional forms of solitary communion with God and with a pristine nature impossible At the dawn of the digital age solitude has taken on new meanings as physical isolation and intense sociability have become possible as never before With the advent of a so-called loneliness epidemic a proper historical understanding of the natural human desire to disengage from the world is more important than ever The first full length account of its subject *A History of Solitude* will appeal to a wide general readership

Edgar Allan Poe,Bram Stoker,Mary Shelley,Joseph Sheridan Le Fanu,Robert Louis Stevenson,H.P. Lovecraft,Algernon

Blackwood, Francis Marion Crawford, Robert W. Chambers, 2021-11-29 Horror intends to create an eerie and frightening atmosphere for the reader. Prevalent elements include ghosts, demons, vampires, werewolves, ghouls, the Devil, witches, monsters, dystopian and apocalyptic worlds, serial killers, cannibalism, psychopaths, cults, dark magic, Satanism, the macabre, gore, and torture. The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown. These facts few psychologists will dispute, and their admitted truth must establish for all time the genuineness and dignity of the weirdly horrible tale as a literary form. As may naturally be expected of a form so closely connected with primal emotion, the horror tale is as old as human thought and speech themselves.
