Clarks reach extends to all corners of the globe and yet it remains a family owned business firmly rooted in its Quaker origins unlike other well known Quaker firms like Cadburys now part of US giant Kraft Founded in 1825 by two brothers Cyrus and James Clark the company began as a rug making operation in the then tiny village of Street Somerset One day James Clark began making slippers from off cuts of rugs and found that people wanted to buy them Slippers became shoes and boots and a business was born Over the years it has had its ups and downs but it has always strived to remain true to its Quaker values

in its commitment to the well being of its workforce and the local community Schools libraries and recreation halls were built and trade unions banned As the sun set on the British Empire Clarks opened up new frontiers across the world Clarks brand logo became one of the most famous in the world Every parent in the 1950s swore by Clarks shoes for their children as well as buying them for themselves But increased competition from within the UK and overseas saw concerns for the future heightened during the 1980s A hostile bid for the company in the early 1990s saw the board and the family split Eventually shareholders voted to reject the bid The company was reorganised with all its lines made outside the country This resulted in the closure of all its UK factories and the laying off of hundreds of Clarks employees But the outcome has been a transformation in the company s fortunes In 2010 its profits were over 100 million and its retro desert boots and other styles have become the height of fashion especially in China and America **A Short History of American Shoemaking** Fred A.

Governance of Cons Passion A. Hunt,1996-10-01 This book explores the sumptuary laws that regulated conspicuous consumption in respect to dress ornaments and food that were widespread in late medieval and early modern Europe It argues that sumptuary laws were attempts to stabilize social recognizability in the urban world of strangers and in the governance of cities The gendered character of sumptuary laws are viewed as components of gender wars These laws are explored as projects directed at the reform of popular culture and in their links to the governance of vagrancy and of popular recreation This study challenges the view that the sumptuary actually died and develops an argument that in the modern world the regulation of consumption persists but becomes dispersed throughout a range of both public and private forms of governance The conclusions stresses the persistence of projects of governance of personal appearance and of private consumption *Library of Congress Catalog* Library of Congress,1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955
