A journal of the life of that ancient servant of Christ J. G., ... with a collection of his books and manuscripts [Edited by J. Whiting.] John GRATTON, 1720 *The Site of Our Lives* James S. Hans, 1995-07-01 This book addresses the question of human uniqueness at a time when academic discourse has all but abandoned its long held commitment to the value of

individuality Through an appraisal of the works of Emerson Nietzsche Heidegger Derrida and Foucault the author establishes the ways in which the current critique of the self has grossly distorted the nature of the debate by reducing it to a simple choice between essential or constructed selves Hans argues that the tradition that emerges from Emerson's work is based on a relational sense of the individual as much as it is devoted to the premise that we all have a specific form of integrity Likewise even though Nietzsche's critique of the fictional nature of the subject is the origin of contemporary visions of the fabricated self Nietzsche is equally insistent that each of us is a productive uniqueness we are all principles of selection whose links to the world embrace more than the social circumstances around us Nietzsche's vision of our productive uniqueness is carried on in larger and smaller ways by Heidegger Derrida and Foucault each of whom entertains a far more complex vision of the individual than those which currently dominate our ways of talking about what it means to be human

Erlandson, 2004-09 Erlandson articulates the growing frustration that many people have with Christianity and shows how a church is not needed to create a challenging and life changing new path based on the simple call to love God and love one's neighbor **The Adornment of the Spiritual Marriage** Jan van Ruysbroeck, 1916 The Blessed Jan van Ruysbroeck was one of the Flemish mystics This edition contains his most important writings The Adornment of the Spiritual Marriage The Sparking Stone The Book of the Supreme Truth *From Metaphysical Representations to Aesthetic Life* Massimiliano Lacertosa, 2023-07-01 What is Chinese philosophy What is philosophy itself How can one understand unfamiliar philosophical stances How can comparison become a prominent philosophical tool In this book Massimiliano Lacertosa examines these questions by proposing an ethical understanding of the aesthetic encounter with the other and the world Through the analysis of the works of Laozi Zhuangzi Nietzsche and Heidegger among others this book explores the possibilities of stepping out of the anthropocentric standpoint and seeing the relation of objects in the world under a different light This implies a shift from the metaphysical representation of the world divided between the sensible and the supersensible to an aesthetic and undivided experience of the world in which one partakes in the constant transformation of the myriad things Approachable yet rigorous this book is essential reading for anyone interested in the most fundamental issues of philosophy and in the challenges of doing philosophy in a multicultural context *Friends' Intelligencer*, 1866 Genealogical and Personal Memoirs William Richard Cutter, 2000 The Gentleman's Magazine, 1898 **Tracts of the Anglican Fathers** Anglican Fathers, 1842
