For Love And Profit:

Time Travel for Love and Profit Sarah Lariviere, 2021-01-26 When Nephele has a terrible freshman year she does the only logical thing for a math prodigy like herself she invents a time travel app so she can go back and do it again and again and again in this funny love story Groundhog Day for the iPhone generation Fourteen year old Nephele used to have friends Well she had a friend That friend made the adjustment to high school easily leaving Nephele behind in the process And as Nephele looks ahead all she can see is three very lonely years Nephele is also a whip smart lover of math and science so she makes a plan Step one invent time travel Step two go back in time have a do over of 9th grade crack the code on making friends and become beloved and popular Does it work Sort of Nephele does travel through time but not the way she planned she s created a time loop and she s the only one looping And she keeps looping for ten years always alone Now facing ninth grade for the tenth time Nephele knows what to expect Or so she thinks She didn t anticipate that her new teacher would be a boy from her long ago ninth grade class now a grown man that she would finally make a new friend after ten years And she couldn t have pictured someone like Jazz with his deep violet eyes goofy magic tricks and the quietly intense way he sees her After ten freshman years she still has a lot more to learn But now that she s finally figured out how to go back has she found something worth staying for
