others and songs by Nico the Beach Boys Neu and Popol Vuh again among others Since the author is now 70 and most of the poems are written in a fairly traditional style they might appeal most to fellow Boomers Many of the poems deal with coming to terms with getting old looking back at one's life and preparing to face death This sounds grim but the mood of the poems varies a lot As well as the poems the book also has two other sections featuring short stories and essays The eight short stories follow the modern trend of being really short by past standards often around 1000 1500 words There is no flash fiction though With two exceptions they are basically realistic in style and are mostly about relationships The eleven essays focus on Art predominantly painting and poetry exploring the following range of topics in terms of their relationship to Art authenticity materiality the canon success and failure rhyme originality ekphrasis science logic beauty and mystification
