You have no financial or medical concerns and you get to be Head of State one day but you got to hand over your kids to their grandparents when they are one year old How would you like to live in such a paradise son Decades after his godfather told him this bizarre story the author a businessman and professor of management with no interest whatsoever in metaphysics felt he could no longer keep to himself such visions of future heaven or hell To write and publish a book is an uphill battle rarely leading to success But to con somebody else to write and publish a book surely would deserve the Nobel Prize in perseverance Such a prize is now posthumously awarded to the author s godfather Anthony It took him a total of 64 years in life and death to make his unstoppable resolve to get this book written and published a reality In 1931 it seemed that Anthony had made it The owner of two thriving businesses he now had time to indulge in his passion in the form of a hobby cars He chanced upon the decaying carcass of a 1918 one ton Ford Model TT truck that a farmer used as a chicken coop The master auto mechanic in him urged him to restore it to its former glory He rented a large garage near the center of town and with a true collector s detachment began scavenging the area for parts Without warning Anthony s happy life started unraveling the following year At first he acted as if absent minded Slowly he started losing interest in his work including his love for cars He started going to work late and leaving early Much to the worry of relatives and close friends he slept every night in the garage while his visits to his fiance s house all but stopped By early 1933 his businesses started sliding into the red Too honest not to pay his workers he defaulted on payments to creditors who soon forced him into bankruptcy As one might expect his would be father in law gave him a royal dressing down and much to his daughters chagrin broke off the engagement When asked what was wrong Anthony would reply vaguely that he was visiting another planet where he saw wondrous things that put life on Earth to shame He began to criticize living and working conditions on Earth both as he knew them by experience and as he learned about them in those days media the press movies theater radio and stories of travelers to other countries At the same time he changed his appearance and behavior to conform to the standards in force on what he called that other planet Needless to say his antics soon earned him the status of the neighborhood idiot His friends even some of his relatives avoided him like the plague while some openly ridiculed him Though far from being convinced about the merits of Anthony s tale the author confessed that as he gained more education and experience he began to notice the conviction with which his godfather talked about his improbable experience No doubt to him it was the real thing There must be some merit in his godfather s tale for two rock solid reasons he concluded First no man with an eighth grade education

could dream up sophisticated socio political systems such as those he described as existing on that other planet And second even if he could he would not have been consistent in his storytelling Convinced that his godfather s tale should somehow be preserved though at that time he had no clear reason in mind the author decided to take a week s vacation and debrief Anthony in a comprehensive systematic way much like a research project Long after Anthony s death and with the encouragement of business associates unwittingly the process started that enabled the author to finally deliver the promise he gave his grossly misunderstood godfather on the latter s death bed to write and p

**Extraction Ecologies and the Literature of the Long Exhaustion** Elizabeth Carolyn Miller,2021-10-12 How literature of the British imperial world contended with the social and environmental consequences of industrial mining The 1830s to the 1930s saw the rise of large scale industrial mining in the British imperial world Elizabeth Carolyn Miller examines how literature of this era reckoned with a new vision of civilization where humans are dependent on finite nonrenewable stores of earthly resources and traces how the threatening horizon of resource exhaustion worked its way into narrative form Britain was the first nation to transition to industry based on fossil fuels which put its novelists and other writers in the remarkable position of mediating the emergence of extraction based life Miller looks at works like *Hard Times* *The Mill on the Floss* and *Sons and Lovers* showing how the provincial realist novel s longstanding reliance on marriage and inheritance plots transforms against the backdrop of exhaustion to withhold the promise of reproductive futurity She explores how adventure stories like *Treasure Island* and *Heart of Darkness* reorient fictional space toward the resource frontier And she shows how utopian and fantasy works like *Sultana s Dream* *The Time Machine* and *The Hobbit* offer imaginative ways of envisioning energy beyond extractivism This illuminating book reveals how an era marked by violent mineral resource rushes gave rise to literary forms and genres that extend extractivism as a mode of environmental understanding
