From Bacon To Now The Outsider In British Figuration:

The Making of Modern Art Michael Peppiatt, 2020-05-05 A new collection of key texts from a leading critic of modern art The critic Michael Peppiatt has been described by Art Newspaper as the best art writer of his generation For more than 50 years he has written trenchant and lively dispatches from the center of the international art world In this new volume of key works Peppiatt gives his unique insight into the making collection display and interpretation of modern art Covering the whole spectrum of modern art from pioneers such as Gustav Klimt and Chaim Soutine to collectors and dealers who played a pivotal role in the modern art world to artists such as Francis Bacon Bill Jacklin and Frank Auerbach with whom he had close relationships Peppiatt interweaves personal anecdote with critical judgment Each text is accompanied by a new short introduction written in Peppiatt's signature vivid and jargon free style in which he contextualizes his writings and reflects on significant moments in a lifetime of artistic engagement This volume will provide readers with an exhilarating tour of 20th century art

Paula Rego Fiona Bradley, 2002 After a career spanning nearly half a century Paula Rego is acknowledged to be one of the leading figurative artists at work today Drawing on literature fairy tales myths religious stories and the cartoons of Walt Disney among other sources she creates strongly narrative works imbued with a sense of subversive mystery Writer and curator Fiona Bradley provides a key to understanding Rego's imagery through her searching account of the artist's life and working practices

Jock McFadyen David Cohen, 2001 This is the first survey of the work of painter Jock McFadyen McFadyen describes himself as a realist and his intense paintings describe the urban backdrop Human figures used to be central to these works but having made pictures about London New York Berlin and Belfast the locations have in many ways become the subject In these monumental paintings the central characters of his early work are replaced by commercial buildings walkways vomitories and the natural landscape Although never part of any group or movement McFadyen sees his main precedent as the line of British realism which includes Sickert L S Lowry the so called School of London and younger contemporaries such as Richard Billingham He is close to the debate about painting and its relationship to contemporary art practice He is also interested in those who have parallel concerns in other media This book places the artist not simply within the recent history of British art but also within the wider context of realism in film the contemporary novel and music from Hogarth to Punk and beyond
