The first volume of the New York Times bestselling author's monumental and unprecedented history. Consistently thought provoking. The New York Review of Books. The internationally celebrated author of *The Women's Room* Marilyn French spent over fifteen years with a team of researchers and prominent historians examining women's lives and activities in civilizations and societies spanning the ages. Beginning in prehistory, *Origins* moves on to examine women's lives in ancient Egypt, China, India, Peru, Mexico, Greece, and Rome. In her reconstruction of wars, laws, and other activities affecting both women and men, French also traces the worldviews underpinning them. She also depicts how women's relationship to Judaism, Christianity, and Islam changed for good and bad over the centuries. She backs up even her more controversial theories with an impressive accumulation of academically accepted historical, anthropological, and sociological sources. Written in concise, understated language, this is a significant addition to literature on women's studies and history. Publishers Weekly **What's Wrong**

**with Us?** Colin Feltham,2007-06-13 What's wrong with us? Professor Colin Feltham believes that the current crises of the human condition are symptoms of a chronic wayward tendency which he terms anthropathology. This interdisciplinary look at the zeitgeist of crisis traces the roots of human suffering, exploring the contemporary issues of human violence, deceit, patriarchy, abuse, irrationality, and greed. Our human anthropathology is placed at the heart of all such problems. Echoing the pessimism of Schopenhauer, Cioran, Beckett, Gray, and others, Feltham nevertheless insists that answers may be formulated through confrontation. Challenging and enlightening for professionals, academics, and students, *What's Wrong With Us* is also a fascinating read for anyone with a general interest in our current social state. **There Will Be a Thousand Years of**

**Peace and Prosperity, and They Will Be Ushered in by the Women - Version 1 & Version 2** Anne Wilson Schaef PhD DHL,2016-06-29 Anne Wilson Schaef builds on her former bestseller *Women's Reality*, her New York Times bestseller *When Society Becomes an Addict*, and her multi million copy bestseller *Meditations for Women Who Do Too Much* to bring us all up to date on the Women's Movement. She explores the potentially positive impact that women can and must harness to step forward for further development of the human race and for the planet as a whole. She explores the history of the waves of the Women's Movement and the personal, interpersonal, and cultural stoppers that have kept women from reaching their full potential. She demonstrates how women's special talents and assets are essential for dealing with the symptoms of what has become a dysfunctional society. This book not only offers hope and opportunity for women to step up and shape a society with their unique gifts, it offers hope for the planet itself. **In the Name of Friendship** Marilyn French,2008-02-01 Marilyn

French's seven million copy bestseller *The Women's Room* crystallized the issues that ignited the women's movement. Now the acclaimed author updates that classic with a new exploration of the truths and realities behind women's lives. In *The Name of Friendship*, she dares to investigate how the women's movement changed the lives of those it touched and what hurdles

it left to cross Set in the Berkshire Mountains of western Massachusetts this wise novel is a group portrait of four disparate women who forge life altering friendships despite personalities that vary as greatly as their vocations and ages The novel weaves together a series of family crises with the friendships that help the four women refashion their lives Maddy the seventy six year old real estate agent and matriarch of the group struggles with the gradual death of her angry and rebellious Vietnam marked son fifty year old Alicia fights to reconnect her gay son with her newly retired husband seventy year old musician Emily strives to bridge the gap with her estranged niece right at the moment her composition career starts to finally bloom and Jenny the thirty year old painter and baby of the group questions the life she has created with her successful painter husband and tries to decide if she wants more from life With this unusual group of multi generational ladies French tells a truly rare tale about four women who accidentally come into each other s lives and in the process form an enduring friendship It is a story of supporting one another of looking at the grim conflicts created by cultural expectations of women and realizing you are not alone truly a tale of continuing hope

### The World is Out of Joint Immanuel

Wallerstein,2015-11-17 The dominant view in social science has been that the modern world shows a pattern of linear development in which all positive social trends rise albeit at an uncertain speed toward a relatively homogenized world In the post 1945 period some analysts contested this linear model

arguing that the modern world was rather one of escalating polarization Their view was strengthened by the separate emergence within the natural sciences of complexity studies which suggested that natural systems inevitably moved away from equilibrium and at a certain point bifurcated radically This book based on a truly collaborative international research project evaluates the empirical evidence in this debate in order to 1 give an adequate portrayal of the historical realities of the world system 2 draw a nuanced assessment about this debate and 3 provide the basis on which we can not only envisage probable future trends but also draw conclusions about the policy and or political implications of past and future research The work of ten research clusters based on crucial topics of overlapping nodes of social activity provides a vantage point with which to assess the basic issue a clear picture emerges of world historical interpretations of continuing polarizations *The Rise and Fall of the Soviet Union* Martin McCauley, 2014-01-14 An expert in probing mafia type relationships in present day Russia Martin McCauley here offers a vigorously written scrutiny of Soviet politics and society since the days of Lenin and Stalin John Keep Professor Emeritus University of Toronto The birth of the Soviet Union surprised many its demise amazed the whole world How did imperial Russia give way to the Soviet Union in 1917 and why did the USSR collapse so quickly in 1991 Marxism promised paradise on earth but the Communist Party never had true power instead allowing Lenin and Stalin to become dictators who ruled in its name The failure of the planned economy to live up to expectations led to a boom in the unplanned economy in particular the black market In turn this led to the growth of organised crime and corruption within the government The Rise and Fall of the Soviet Union examines the strengths weaknesses and contradictions of the first Marxist state and reassesses the role of power authority and legitimacy in Soviet politics Including first person accounts anecdotes illustrations and diagrams to illustrate key concepts McCauley provides a seminal history of twentieth century Russia

Feminism: Advancing A Fourth Wave Dr. Nikhilesh Tiwari, 2023-08-12 This Book makes an effort to dissect the emergence of various feminist movements For many Feminism refers to a worldwide movement that women from all walks of life have launched to end the patriarchal system of power that benefits males There have been four major movements of feminism in history all of which have sought to end the mistreatment of women The first wave of feminism which emerged in the United States and Europe in the late 19th and early 20th centuries was primarily concerned with expanding women's access to the franchise and other areas of the law Beginning in the 1960s and lasting into the 1990s the second wave of feminism was started by women of all races and ethnicities in the West and the developing world It campaigns to end domestic violence marital rape sexual harassment and rape as well as for equal educational and career opportunities maternity leave birth control and abortion rights etc The third wave of feminism which spans from the 1990s to the 2000s is characterized by a vigorous criticism of earlier feminist political movements Women in this movement see themselves as powerful and defiant and they are not susceptible to sexist patriarchy in the workplace Around 2012 a new feminism emerged one that relies heavily on social networking sites like Facebook Twitter Instagram YouTube etc As a result of

feminist movements several nations have passed legislation encouraging women to take part in all aspects of public life This research makes an effort to elucidate some topics associated with feminism s four distinct phases In the past feminist movements have been too exclusive developing inside the narrow mind set of the Western upper class and focusing on the problems and demands of that group A new wave of feminism has emerged in the wake of the information technology revolution Feminist activist groups may benefit from the internet s inclusive environment and ease of use when it comes to organizing mass protests It also helps in highlighting shared structural disparities by connecting local tales with global ones However the internet can also be a place where bigotry and misogyny flourish This summary tries to examine the impact that digitization may have on women s mobility particularly in developing countries like India This is accomplished through analyzing current forms of cyberfeminism in the context of postcolonial and postmodern feminist theory The advantages and disadvantages of online advocacy are also highlighted in the summary This book is significant because it shifts the focus of gender study away from women and towards feminism in the context of leisure studies For anyone interested in diversity women s studies multiculturalism social justice gender leisure LGBTQQ studies or feminist research this book is a must read

kind of truth about human nature and how people really behave under observable social conditions The genres want to entertain us rather than just rub our noses in the daily grind 4 The distinction between fiction and journalism is important when discussing the future While no one can predict the future you can dip into the present and explore the seeds of what might become the future      **From Eve to Dawn: The masculine mystique** Marilyn French, 2008
