From Gatt to the WTO: The Multilateral Trading System World Trade Organization, Edward McWhinney, World Trade Organization. Secretariat, WTO Secretariat, 2000-04-13 Om det nuværende og fremtidige verdenshandelsystem

Development at the WTO Sonia E. Rolland, 2012-02-23 With the Doha Round on the rocks the tension between the WTO's trade liberalization agenda and the development needs of many member states is more pronounced than ever This book looks at the position of developing countries at the WTO from an institutionalist perspective and presents a range of proposals for change

Redesigning the World Trade Organization for the Twenty-first Century Debra P. Steger, 2010-05-06 Two high level commissions the Sutherland report in 2004 and the Warwick Commission report in 2007 addressed the future of the World Trade Organization and made proposals for incremental reform This book goes further it explains why institutional reform of the WTO is needed at this critical juncture in world history and provides innovative practical proposals for modernizing the WTO to enable it to respond to the challenges of the twenty first century Contributors focus on five critical areas transparency decision and rule making procedures internal management structures participation by non governmental organizations and civil society and relationships with regional trade agreements Co published with the International Development Research Centre and the Centre for International Governance Innovation

The Oxford Handbook on The World Trade Organization Amrita Narlikar, Martin Daunton, Robert M. Stern, 2012-05-31 This handbook provides a holistic understanding of what the World Trade Organization does how it goes about fulfilling its tasks its achievements and problems and how it might contend with some critical challenges

Integrating the UN SDGs into WTO Law Xinyan Zhao, 2024-12-11 This is an open access book Sustainable development is so important that humanity must do its utmost to achieve these goals for the well being of the present and future generations WTO members have started to reform WTO rules since the WTO's Buenos Aires Ministerial Conference in 2017 The book describes a possible bright future for readers WTO members can integrate the UN SDGs into WTO law i.e. create sustainable trade rules by establishing a sustainable development club and constitutionalising the WTO

Globalization and Capitalist Geopolitics Daniel Woodley, 2017-11-27 Globalization and Capitalist Geopolitics is concerned with the nature of corporate power against the backdrop of the decline of the West and the struggle by non western states to challenge and overcome domination of the rest of the world by the West This book argues that although the US continues to preside over a quasi imperial system of power based on global military preponderance and financial statecraft and remains reluctant to recognize the realities global economic convergence the age of imperial state hegemony is giving way to a new international order characterized by capitalist sovereignty and competition between regional and transnational concentrations of economic power This title seeks to interrogate the structure of world order by examining leading approaches to globalization and political economy in international relations and international political economy Breaking with the classical school Woodley argues that geopolitics

should be understood as a transnational strategic practice employed by powerful state actors which mirrors predatory corporate rivalry for control over global resources and markets reproducing the structural conditions for corporate power through the transnational state form of capital In a period of increasing geopolitical insecurity and economic instability this title provides an authoritative yet accessible commentary on debates on capitalism and globalization in the wake of the financial crisis It is valuable resource for students and scholars seeking to develop a deeper understanding of the historical determinants of the changing dynamics of neoliberal capitalism and their implications for world order

The International Judge Daniel Terris, Cesare P. R. Romano, Leigh Swigart, 2007 An interdisciplinary introduction to international judges and their work

C. Fred Bergsten and the World Economy Michael Mussa, 2006 This engaging and informative book covers the range of issues on which C Fred Bergsten and the Peterson Institute have distinguished themselves over the last 25 years including trade liberalization exchange rate regimes international financial architecture debt economic sanctions and the impact of technology and globalization Most of the Institute's senior research staff have contributed chapters which are both retrospective and prescriptive

Trade Politics Brian Hocking, Steven McGuire, 2013-03-04 Leading experts provide a clear overview of the evolving environment of trade politics and the current issues surrounding its development

International Studies Primer(Paperback), 2005-01-01 *The Politics of Intellectual Property Rights and Access to Medicines* Valbona Muzaka, 2011-02-01 This book shows why contests over intellectual property rights and access to affordable medicines emerged in the 1990s and how they have been resolved so far It argues that the current arrangement mainly ensures wealth for some rather than health for all and points to broader concerns related to governing intellectual property solely as capital

United States: Importing into the United States: A Guide for Commercial Importers IBP, Inc., 2018-02 United States Importing into the United States A Guide for Commercial Importers

India, the European Union, and the WTO Rajendra Kumar Jain, Hartmut Elsenhans, 2006 From papers presented at the international seminar organized by the Jawaharlal Nehru University European Union Studies Programme on 16 17 October 2002 at the School of International Studies JNU

Non-market Economies in the Global Trading System James J. Nedumpara, Weihuan Zhou, 2018-09-20 This book provides one of the most comprehensive and compelling analysis of Non Market Economies NMEs and their treatment under the current world trading system In particular it examines the treatment of China as an NME in anti dumping investigations especially post December 2016 Central to this analysis is Section 15 of China's Protocol of Accession to the WTO which is the focal point of the controversy between China and other major WTO Members The book highlights multiple perspectives on the interpretation of Section 15 and the Second Ad Note to Article VI of the General Agreement on Tariffs and Trade GATT which form the legal basis for China's special treatment in anti dumping proceedings and provides unique approaches on interpreting the above treaty texts In addition the book explores recourses to trade remedy instruments other than anti dumping to identify and address state driven market distortions in the case of NMEs

Authored by leading practitioners and scholars the chapters offer a detailed commentary and rich insights into the diverse approaches and methods used by anti dumping investigation agencies of leading users This book serves as an all inclusive resource for discerning all facets of this issue magnitude of the consequences and potential threats to the delicate trading system It is of particular relevance to economies in transition and newly acceding countries to the WTO This book generates special interest among legal practitioners exporters trading firms think tanks academicians policy makers and the entire community engaged in international trade disputes with China **Liberalising Trade in the EU and the WTO** Sanford E. Gaines, Birgitte Egelund Olsen, Karsten Engsig Sørensen, 2012-08-02 This comparison of EU and WTO approaches to common trade liberalisation challenges brings together eighteen authors from Europe and America Together they explore fundamental legal issues such as the role of general principles of law the role of the judiciary in the development of law the effect of the principle of non discrimination and the elimination of non discriminatory barriers to trade The contributions also examine the most recent developments in trade law across a full range of trade issues including TBT and SPS services intellectual property customs rules safeguards anti dumping and government procurement Adopting a comparative perspective throughout this volume sheds light on today s trade law and suggests paths forward for each system through the perennial tensions between open non discriminatory trade and strongly held national values and objectives The Development Century Stephen J. Macekura, Erez Manela, 2018-09-06 Offers cutting edge perspectives on how international development has shaped the global history of the modern world *The Making of International Trade Policy* Hannah Murphy, 2010-01-01 This book investigates the contributions of Non Governmental Organizations NGOs to policymaking at the WTO challenging the idea that NGOs can be narrowly understood as potential democratic antidotes to the imperfections of Inter Governmental Organizations IGOs The book highlights the significance of interactions between states NGOs and IGOs in order to understand their contributions to international trade governance Based on case studies in the areas of labour standards intellectual property and investment rules the author finds that NGO activities serve an agenda setting function they publicize neglected traderelated issues persuade others to support their positions enhance the resources of less developed member states and highlight normative rationales for policy change In evaluating NGO campaign tactics and emphasizing relations between NGOs and WTO member states this book advances understandings of the parameters of NGO agency in global governance *The Making of International Trade Policy* will appeal to scholars and students with an interest in NGOs research institutes and think tanks as well as policymakers national trade negotiators government departments and the trade policy community NGO personnel active on WTO and trade policy issues both researchers and activists will also find this book thought provoking The Multilateralization of International Investment Law Stephan W. Schill, 2009-08-20 The book argues that international investment law is a structured body of law based on uniform principles of investment protection *WTO Jurisprudence* Wenwei Guan, 2020-06-04 This book offers a critical examination of the jurisprudence of

the World Trade Organization WTO as an emancipatory international social contract on trade The book suggests that the WTO is an international organization built and operating on member states attribution of authority through consent with legislative administrative and adjudicative functions three functions in one triune personality With a solid constitutional continuity building on GATT experiences the WTO has successfully made governments accountable to foreign individuals in various capacities either as traders of goods providers of services or holders of intellectual property rights within the global marketplace With a triune personality the WTO operates within the reign of state primacy the force ultimately for the benefits of individuals the ends in the global marketplace and gains a soul of its own in the institutional evolution the means of the global trading regime Although the tripartite dynamics between states international institutions and individuals in the global marketplace are unprecedentedly complex the WTO s ends of benefiting individuals in the global marketplace has no end Beyond the critical analysis of WTO s decision making by consensus the book critically examines GATT s common intention treaty interpretation Antidumping s NME methodology TRIPS public health concerns and IP competition trade policy dynamics A unified WTO jurisprudence looking at the WTO as an international social contract on trade is therefore proposed to allow a fresh look at the force the means and the ends of the constitutional evolution of the global trading regime

Integrative Governance: Generating Sustainable Responses to Global Crises Margaret Stout, Jeannine M.

Love, 2018-07-20 Dominant governance theories are drawn primarily from Euro American sources including emergent theories of network and collaborative governance The authors contest this narrow view and seek a more globally inclusive and transdisciplinary perspective arguing such an approach is more fruitful in addressing the wicked problems of sustainability including social economic and environmental crises This book thus offers and affirms an innovative governance approach that may hold more promise as a universal framework that is not colonizing in nature due to its grounding in relational process assumptions and practices Using a comprehensive Governance Typology that encompasses ontological assumptions psychosocial theory epistemological concepts belief systems ethical concepts political theory economic theory and administrative theory the authors delve deeply into underlying philosophical commitments and carry them into practice through an approach they call Integrative Governance The authors consider ways this approach to radical self governance is already being implemented in the prefigurative politics of contemporary social movements and they invite scholars and activists to imagine governance in contexts of social economic and environmental interconnectedness to use the ideal type as an evaluative tool against which to measure practice and to pursue paradigmatic change through collaborative praxis
