### *Capitalizing on Culture* Shane Gunster,2004-01-01

Building on the work of Theodor Adorno and Walter Benjamin Capitalizing on Culture presents an innovative accessible and timely exploration of critical theory in a cultural landscape dominated by capital Despite the increasing prevalence of commodification as a dominant factor in the production promotion and consumption of most forms of mass culture many in the cultural studies field have failed to engage

systematically either with culture as commodity or with critical theory Shane Gunster corrects that oversight providing attentive readings of Adorno and Benjamin's work in order to generate a complex non reductive theory of human experience that attends to the opportunities and dangers arising from the confluence of culture and economics Gunster juxtaposes Benjamin's thoughts on memory experience and capitalism with Adorno's critique of mass culture and modern aesthetics to illuminate the key position that the commodity form plays in each thinker's work and to invigorate the dialectical complexity their writings acquire when considered together This blending of perspectives is subsequently used to ground a theoretical interrogation of the comparative failure of cultural studies to engage substantively with the effect of commodification upon cultural practices As a result Capitalizing on Culture offers a fresh examination of critical theory that will be valuable to scholars studying the intersection of culture and capitalism     **Architecture Theory** Andrew Ballantyne,2005-03-01

Meador,2002-12-12

In recent years a movement stressing a causal relationship between spirituality and good health has captured the public imagination Told that research demonstrates that people of strong faith are healthier physicians and clergy alike urge us to become more religious The religion and health movement as it has become known has attracted its fair share of skeptics While most root their criticism in science or secularism the authors of Heal Thyself one a theological ethicist the other a physician instead challenge the basic precepts of the movement from the standpoint of Christian theology Heal Thyself argues that popular culture's fascination with the health benefits of religion reflects not the renaissance of religious tradition but the powerful combination of consumer capitalism and self interested individualism A faith for health exchange misrepresents and devalues the true meaning of faith For Christians being religious does not mean enlisting faith as a vehicle to get what we want be it

health or wealth but rather learning by faith to want the right things at the right time and to live with a spirit of gratitude and hope     *Intending the World* Ralph Pettman,2008 How we look at the world is informed mainly by our assumptions and the ways in which we rationalise them Seldom do we rely or allow ourselves to rely on gut thinking or intuition Intending the World shows how rationalism which is our primary approach in thinking about world affairs is in crisis By studying the world rationalistically we objectify it and we look at it as detached from ourselves But in doing so we cease to see that we are using a perspective that limits as well as enlightens In a disciplinary first Ralph Pettman provides an account of twenty first century international relations in terms of phenomenology one of the main philosophical attempts to compensate for these limits He explores how this re embedded use of reason can successfully describe and explain world affairs in ways unused by rationalists Intending the World follows the lead of the German philosopher Edmund Husserl It looks at the world not only in terms of things in themselves but also in terms of why it is we keep willing the world the way we do

### I Died a Million Times

brighter than bright myth of the American Dream as a backdrop Miklitsch examines the style and history and the production and cultural politics of classic pictures from *The Big Heat* and *The Asphalt Jungle* to lesser known gems like *711 Ocean Drive* and post Fifties movies like *Ocean's Eleven* Miklitsch pays particular attention to trademark leitmotifs including the individual versus the collective the family as a locus of dissension and rapport the real world roots of the heist picture and the syndicate as an octopus with its tentacles deep into law enforcement corporate America and government If the memes of gangster noir remain prototypically dark the look of the films becomes lighter and flatter reflecting the influence of television and the realization that under the cover of respectability crime had moved from the underworld into the mainstream of contemporary everyday life
