From Ibalon To Sorsogon A Historical Survey Of Sorsogon Province To 1905:

From Ibalon to Sorsogon Luis Camara Dery,1991 **From Ibalon to Sorsogon** Luis Camara Dery,1991 Iranun and Balangingi James Francis Warren,2002 The aim of this book is to explore ethnic cultural and material changes in the transformative history of oceans and seas commodities and populations mariners and ships and raiders and refugees in Southeast Asia with particular reference to the Sulu Mindanao region or the Sulu Zone Examining the profound changes that were taking place in the Sulu Mindanao region and elsewhere at the end of the eighteenth century this book the companion volume to *The Sulu Zone* published in 1981 establishes an ethnohistorical framework for understanding the emerging inter connected patterns of global commerce long distance maritime trading and the formation and maintenance of ethnic identity It also provides a new conceptual framework for understanding the problem of ethnic self definition and political processes and conflicts in the recent history of the Philippines Indonesia and Malaysia *Iranun and Balangingi* seeks to probe these themes through an inter disciplinary approach using archival sources and literature as well as period testimony interviews diaries and fieldwork observations from sites primarily located in the Philippines Indonesia and Malaysia **History from the People: Albay, Camarines Norte, Camarines Sur, Catanduanes, Masbate, and Sorsogon** ,1998 **Smallholders and Stockbreeders** P. Boomgaard,David E.F. Henley,2021-11-15 Historians of Southeast Asia have traditionally preferred to write about politics and culture rather than economics and ecology and where they have looked at the history of agriculture they have most often concentrated on cash crops like sugar coffee and rubber which figure prominently in colonial records *Smallholders and stockbreeders* by contrast provides a rare survey of the history of foodcrop farming and a unique look at the history of animal husbandry in the Southeast Asian region Thirteen contributions by an international selection of expert authors cover topics ranging from the agricultural economy of precolonial Java to the growth of rice production in the Mekong Delta since 1950 and from the breeding of horses on the northern borderlands of mainland Southeast Asia to the production and consumption of beef in the Philippines New light is shed on old questions regarding the directions in which Southeast Asian agriculture has evolved over the centuries and new questions raised regarding the cultural demographic economic and political determinants of farming practices While the geographical and chronological scales of analysis vary most chapters deal with relatively large areas and with developments over periods of 100 years or more Besides production for subsistence commercial aspects of livestock and foodcrop farming are also given due attention and prove to have been important in many parts of the region from very early periods *Smallholders and stockbreeders* is essential reading for anyone interested in the agricultural history of Southeast Asia whether for its own sake or in connection with other aspects of regional history or for purposes of comparison with other parts of the world **The Routledge Handbook of English Language Education in the Philippines** Julius C. Martinez,Isabel Pefianco Martin,2025-09-30 This handbook serves as a comprehensive resource on English language education in the Philippines addressing a wide range of issues including

ideologies multilingualism identities policies methodologies assessment teacher education and curriculum Chapters cover a range of educational contexts from Luzon to Mindanao islands from basic to higher education and from formal to non formal schooling This book upholds the think and do otherwise perspective by problematizing contemporary paradigms and practices that operate from naturalized ideas inherited from the American colonizers This includes repairing pedagogies that redress injustices experienced by historically marginalized groups and hoping for possibilities and approaches to teaching and learning English that are just equitable and inclusive The six sections in the Handbook bring up conditions for thinking and doing otherwise pointing to ways in which genuine changes can start to happen Scholars from diverse backgrounds come together in this handbook to take collective ownership of English language education in the Philippines This ownership does not mean ignoring and disposing of the country's colonial past but reclaiming English language education as an ongoing project instead This handbook likewise demonstrates that such a project makes it possible for wider audiences to see that Global South scholars from and in the Philippines also have much to teach the rest of the world about thinking and doing otherwise and by extension problematizing repairing and hoping Given its scope and breadth the handbook is an invaluable reference for students pre service and in service teachers teacher educators researchers and policymakers interested in English language language education TESOL sociolinguistics and applied linguistics

Elections and Democratization in the Philippines Jennifer Franco, 2020-03-24 First published in 2001 This study shows how legitimate elections held under centralized authoritarian conditions before 1986 though not democratic still contributed to democratization by creating the political space needed for democratic opposition to arise

Power and Intimacy in the Christian Philippines Fenella Cannell, 1999-03-18 What kind of reciprocity exists between unequal partners How can a culture which makes no attempt to defend unchanging traditions be understood as such In the Christian Philippines inequalities global and local are negotiated through idioms of persuasion reluctance and pity Fenella Cannell's study suggests that these are the idioms of a culture which does not need to represent itself as immutable Her account of Philippine spirit mediumship Catholicism transvestite beauty contests and marriage in Bicol calls for a reassessment of our understanding of South East Asian modernity Combining a strong theoretical interest in the anthropology of religion with a broader comparative attention to recent developments in South East Asian studies she offers a powerful alternative to existing interpretations of the relationship between culture and tradition in the region and beyond This book addresses not only South East Asianists but all those with an interest in the anthropology of religion and post colonial cultures Power and Intimacy in the Christian Philippines has won the Harry J Benda prize for 2001

Legitimizing Empire Faye Caronan, 2015-05-30 When the United States acquired the Philippines and Puerto Rico it reconciled its status as an empire with its anticolonial roots by claiming that it would altruistically establish democratic institutions in its new colonies Ever since Filipino and Puerto Rican artists have challenged promises of benevolent assimilation and portray U S imperialism as both self interested and unexceptional among empires

Faye Caronan's examination interprets the pivotal engagement of novels, films, performance, poetry, and other cultural productions as both symptoms of and resistance against American military, social, economic, and political incursions. Though the Philippines became an independent nation and Puerto Rico a U.S. commonwealth, both remain subordinate to the United States. Caronan's juxtaposition reveals two different yet simultaneous models of U.S. neocolonial power and contradicts American exceptionalism as a reluctant empire that only accepts colonies for the benefit of the colonized and global welfare. Her analysis meanwhile demonstrates how popular culture allows for alternative narratives of U.S. imperialism but also functions to contain those alternatives.

Wages and Currency Jan Lucassen, 2007. The basic hypothesis of this volume is that currency patterns may tell us something about the spread of wage payments in specific societies in history. The book discusses the relationship between wages and currency with reference to different countries and regions in Europe, Asia, and South America over more than 2000 years.
