Graduate Students' Research about Community Colleges Deborah L. Floyd, Cristobal Salinas Jr., Ethan C.

Swingle, María-Jose Zeledón-Pérez, Sim Barhoum, Gianna Ramdin, 2021-05-13 This book brings together a collection of chapters with different research designs that explore the research practice and policies of community colleges. The chapters in this book are the result of the graduate students and their faculty mentors' scholarly work and a rigorous special issue's peer review process. Furthermore, this book offers recommendations on how to mentor graduate students in the absence of research and mentorship on how to publish for graduate students and practitioner scholars as well as recognizing that graduate programs and professional associations are important on the socialization of practitioner scholars. Each book chapter addresses the implications for practice and future research policy for community colleges and recommendation for change indicated by the research results. Five broad research themes: higher education policy, leadership practices and roles, network community, student success, and technology emerged from the empirical articles and critical reviews. A final chapter shares advice and lessons learned from the 30 authors and mentors. With the exception of Chapter 14, the chapters in this book were originally published as a special issue of the Community College Journal of Research and Practice. **Helping**

**Your New Employee Succeed** Elwood F. Holton, Sharon S. Naquin, 2001-02-12 Helping Your New Employee Succeed Part Two of a three-part series of a series of practical guidebooks on work transitions. These new books guide new hires and their managers step by step through the breaking-in process that is absolutely essential for helping new employees thrive. It is relatively easy to get new hires to be competent to perform the basic tasks they were hired to do. But success on the job is due to much more than that. It comes from understanding how the organization really works, the unique aspects of how things get done in that particular organization. And it comes from learning how to fit in, knowing how to get accepted, get respected, and earn credibility. The three books in the series are: How to Succeed in Your First Job, Tips for New College Graduates, Helping Your New Employee Succeed, Tips for Managers of New College Graduates, So You're New Again, How to Succeed When You Change Jobs. Built around author Ed Holton's dynamic 12-step process, extensively field-tested and firmly grounded in research, these three volumes give new college graduates and their supervisors, as well as seasoned professionals who've changed jobs, essential insights and tools for mastering a variety of transition challenges. Given the high costs associated with new employee turnover, no organization can afford to leave the new employee assimilation process to chance. Corporate human resources directors, managers of new employees, individual employees making job transitions, and career counselors alike will find powerful and practical new ideas and tools in these essential handbooks. **College Success for Adults** C.M.
