Thompson,1997-02-13 About seventy years after the death of Jesus John of Patmos sent visionary messages to Christians in seven cities of western Asia Minor These messages would eventually become part of the New Testament canon as The Book of Revelation What was John s message What was its literary form Did he write to a persecuted minority or to Christians enjoying the social and material benefits of the Roman Empire In search of answers to these penetrating questions Thompson critically examines the language literature history and social setting of the Book of the Apocalypse Following a discussion of the importance of the genre apocalypse he closely analyzes the form and structure of the Revelation its narrative and metaphoric unity the world created through John s visions and the social conditions of the empire in which John wrote He offers an unprecedented interpretation of the role of boundaries in Revelation a reassessment of the reign of the Emperor Domitian and a view of tribulation that integrates the literary vision of Revelation with the reality of the lives of ordinary people in a Roman province Throughout his study Thompson argues that the language of Revelation joins the ordinary to the extra ordinary earth to heaven and local conditions to supra human processes **From Heaven to Earth - from Earth to Heaven** Ruth Stull, **The New Yam Festival** Deborah Mboya,2016-08-20 There is a proverb in Iboland that says When the harvest season ends it is the time of the year when everybody is at home The Yam Festival has come to an end and The New Yam Festival has begun It is an extraordinary celebration of the harvest season the culture and oral traditions of the people who live in the village of Uwaoma It is also an occasion for giving thanks to all the gods of the land for making the harvest possible Achuwanike was the first yam farmer in his village to win a yam title at The Yam Festival Now that the harvest season is over he is in close communion with his family relatives neighbors friends and the spirits of the ancestors of the past present and future for the next harvest season **The Works of the Right Rev. The Gods of Nibiru in the Ancient Near East Ryan Moorhen, No direct explanation is given for the origin and nature of the luminous bodies the sun the planets and the stars Because as far back as our written sources go the Sumerians regarded the moon god who went by the names Sin and Nanna as the son of the air god Enlil it does not seem unreasonable to suggest that they saw the moon as a bright air like body fashioned from the atmosphere As the sun god Utu and the Venus goddess Inanna are always referred to in the texts as children of the moon god these luminous bodies were probably imagined as having come from the moon after the latter had been formed from the atmosphere The big ones walk around the moon like wild oxen and the little ones that are scattered around the moon like grain are considered the rest of the planets and stars
