*From Exiles to Immigrants* Ronald T. Takaki, 1995 Discusses southeast Asian immigrants and the difficulties they must overcome *From Gunboats to Diplomacy*, 1982 **Unsettling Exiles** Angelina Chin, 2023-04-25 The conventional story of Hong Kong celebrates the people who fled the mainland in the wake of the establishment of the People's Republic of China in 1949 In this telling migrants thrived under British colonial rule transforming Hong Kong into a cosmopolitan city and an industrial and financial hub *Unsettling Exiles* recasts identity formation in Hong Kong demonstrating that the complexities of crossing borders shaped the city's uneasy place in the Sinophone world Angelina Y Chin foregrounds the experiences of the many people who passed through Hong Kong without settling down or finding a sense of belonging including refugees deportees undesirable residents and members of sea communities She emphasizes that flows of people did not stop at Hong Kong's borders but also bled into neighboring territories such as Taiwan and Macau Chin develops the concept of the Southern Periphery the region along the southern frontier of the PRC outside its administrative control yet closely tied to its political space Both the PRC and governments in the Southern Periphery implemented strict migration and deportation policies in pursuit of border control with profound consequences for people in transit Chin argues that Hong Kong identity emerged from the collective trauma of exile and dislocation as well as a sense of being on the margins of both the Communist and Nationalist Chinese regimes during the Cold War Drawing on wide ranging research *Unsettling Exiles* sheds new light on Hong Kong's ambivalent relationship to the mainland its role in the global Cold War and the origins of today's political currents [Facts about American Immigration](#) David M. Brownstone, Irene M. Franck, 2001 The massive worldwide emigration to the United States has been a major feature of world history for more than five centuries and into the present day *Facts About American Immigration* explores this extraordinary saga focusing on who came to the U S and from where their reasons for coming the nature of their journey and where they settled starting with the earliest Americans who crossed the Bering Land Bridge into Alaska between 12 000 and 15 000 B C The volume is a practical resource for historians and sociologists as well as a boon to genealogical researchers The work opens with an overview including extensive statistical materials to place the process of immigration in a wide historical context This section also includes A survey of the efforts to restrict immigration A portrait of the immigrant journey over the centuries A discussion of Native Americans and immigration A chronology of immigration The main section of the book delves into immigration experiences numbers and motives by region of emigration Europe Africa Asia the Americas and Oceania Each section begins with a brief introduction to the region followed by a series of articles focusing on specific countries or groups of countries Articles include tables and graphs that summarise and portray statistical information relating to immigration as well as related Internet and print resources Each regional section ends with tables and graphs summarising the pattern of immigration from the region plus general Internet and print resources **In the Heart of Filipino America** Rebecca Steoff, Ronald T. *A Framework for Immigration* Uma A. Segal, 2002-08-14 Although stereotypically portrayed as academic and economic achievers Asian Americans often live in poverty underserved by human services undercompensated in the workforce and subject to discrimination Although often perceived as a single homogenous group there are significant differences between Asian American cultures that affect their experience Segal an Asian American immigrant herself analyzes Asian immigration to the U S including immigrants reasons for leaving their countries their attraction to the U S the issues they face in contemporary U S society and the history of public attitudes and policy toward them Segal observes that the profile of the Asian American is shaped not only by the immigrants and their descendents but by the nation s response to their presence

**Immigration in America Today** James Loucky, Jeanne M. Armstrong, Larry J. Estrada, 2006-08-30 America today is witnessing the largest and most sustained wave of immigrants its borders have ever seen Although factors like the Great Depression World War II and quota restrictions had slowed the massive influx of Europeans from the early part of the 20th century policies like the 1965 Immigration and Nationality Act have relaxed quotas and opened America s doors to hundreds of thousands of immigrants a year from both Eastern and Western hemispheres to reach a height of over 9 million immigrants in the 1990s Today immigrants and policy makers alike grapple with issues

regarding employment education refugee status and family reunification as well as illegal immigrants many from Mexico whose legal immigration alone accounts for more than 20% of immigrants in the US Despite this this comprehensive reference source allows a glimpse of the same motivating factors that drove earlier immigrants through Ellis Island s gates the promise of economic opportunity and the hope of a better life Over 70 A Z entries address topical and timely aspects of modern US immigration including bilingual education domestic work employer sanctions gangs gender homeland security migrant education posttraumatic stress disorder stereotypes

**Immigrant Politics and the Public Library** Susan Luevano-Molina,2001-09-30 This book explores the impact of the nativist movement on public library usage among Latino and Asian immigrants The activism of concerned librarians within the California Library Association to defend the rights of immigrant library users after the passage of Proposition 187 is documented In addition four original research studies suggest that public libraries that provided relevant multilingual collections and services multilingual staff and strong public services have remained vibrant and well used institutions despite widespread anti immigrant sentiments and heightened anxiety among library users The extensive qualitative studies that are reported in this volume are unique to the field of library science Three of the studies focus on the heavily Mexican Latino immigrant city of Santa Ana CA which is located in Orange County home to the most virulent anti immigrant forces including the Save Our State organizers who initiated the Proposition 187 legislation Two articles deal specifically with Asian American communities one ascertaining the negative effects of the elimination of affirmative action policies in public library hiring and promotion the other recounting the political nature and practice that characterizes dynamic community services to Asian immigrant communities
