## **From Metaphysics To Rhetoric:**

From Metaphysics to Rhetoric Michel Meyer, 2012-12-06 by the question in its being an answer if only in a circumstantial i.e. inessential manner One indeed must question oneself in order to remember says Plato but the dialectic which would be scientific must be something else even if it remains a play of question and answer This contradiction did not escape Aristotle he split the scientific from the dialectic and logic from argumentation whose respective theories he was led to conceive in order to clearly define their boundaries and specificities As for Plato he found in the famous theory of Ideas what he sought in order to justify knowledge as that which is supposed to hold its truth only from itself What do Ideas mean within the framework of our approach In what consists the passage from rhetoric to ontology which leads to the denaturation of argumentation When Socrates asked for example What is virtue he thought one could not answer such a question because the answer refers to a single proposition a single truth whereas the formulation of the question itself does not indicate this unicity For any answer another can be given and thus continuously if necessary until eventually one will come across an incompatibility Now to a question as to what X Y or Z is one can answer in many ways and nothing in the question itself prohibits multiplicity Virtue is courage is justice and so on

*Metaphysics as Rhetoric* Joshua Parens, 2016-02-24 The most widely accepted view in the West today particularly among postmodernists is that Plato attempted to ground politics on a rational metaphysics and initiated the tradition of foundationalism that has given rise to systems of oppression ranging from racism sexism and ethnocentrism to the technological mastery of the earth Metaphysics as Rhetoric controverts this view arguing that Plato was not the originator of this metaphysical tradition Using as a basis the tenth century Muslim philosopher Alfarabi's interpretation of Plato especially his Summary of Plato's Laws Parens shows that what appears to be Plato's metaphysics was intended as a rhetorical defense of his politics Parens demonstrates that rather than seek to establish politics on the definitive metaphysical ground Alfarabi's Plato analyzes politics on its own terms phenomenologically

Rethinking the Rhetorical Tradition James L. Kastely, 1997-01-01 What is the role of rhetoric in a civil society In this thought provoking book James L. Kastely examines works by writers from Plato to Jane Austen and locates a line of thinking that values rhetoric but also raises questions about the viability of rhetorical practice While dealing principally with literary theory rhetoric and philosophy the author's arguments extend to practical concerns and open up the way to deeper thinking about individual responsibility for existing injustices for inadvertently injuring others and for silencing those without power

*Rhetoric, Sophistry, Pragmatism* Steven Mailloux, 1995-05-18 The anti-sceptical relativism and self-conscious rhetoric of the pragmatist tradition which began with the Older Sophists of Ancient Greece and developed through an American tradition including William James and John Dewey has attracted new attention in the context of late twentieth century postmodernist thought At the same time there has been a more general renewal of interest across a wide range of humanistic and social science disciplines in rhetoric itself language use writing and speaking persuasion figurative language and the

effect of texts This book written by leading scholars explores the various ways in which rhetoric sophistry and pragmatism overlap in their current theoretical and political implications and demonstrates how they contribute both to a rethinking of the human sciences within the academy and to larger debates over cultural politics Rhetorical Argumentation in Biblical Texts Anders Eriksson, Thomas H. Olbricht, Walter Übelacker, 2002-06-01 In the latest volume in the Emory Studies in Early Christianity series the contributors seek a better understanding of how various biblical authors present their arguments support their claims and attempt to persuade their readers A century ago the rhetorical analysis of texts focused on the study of rhetorical figures in texts elocutio In the mid twentieth century scholars such as James Muilenburg Hans Dieter Betz and Wilhelm Wuellner introduced biblical scholars to the illustrious tradition of rhetorical study These scholars tended to focus on the arrangement of the texts themselves dispositio During the last ten years however interpreters have increasingly studied the rhetorical argumentation in texts The authors in this volume examine rhetorical argumentation in the Hebrew Bible the Gospels the Pauline letters and the Book of Revelation offering striking new readings of these materials Contributors include J David Hester Amador Center for Rhetoric and Hermeneutics R Dean Anderson Valkenburg The Netherlands Harold W Attridge Yale Divinity School L Gregory Bloomquist St Paul University Ottawa Michael R Cosby Messiah College Rodney K Duke Appalachian State University Frans H van Eemeren University of Amsterdam Anders Eriksson Lund University Alan J Hauser Appalachian State University Roy R Jeal William and Catherine Booth College Manfred Kraus Eberhard Karls Universit t T bingen John W Marshall University of Toronto Roland Meynet Pontificia Universit Gregoriana Thomas H Olbricht Emeritus Pepperdine University Carol Poster Florida State University Rollin A Ramsaran Emmanuel School of Religion Vernon K Robbins Emory University and University of Stellenbosch Russell B Sisson Union College Jerry L Sumney Lexington Theological Seminary C Jan Swearingen Texas A Lauri Thur n Univeristy of Joensuu Johan S Vos Vrije Universiteit and Duane F Watson Malone College **Challenging Theory: Discipline After**

**Deconstruction** Catherine Burgass, 2019-01-04 First published in 1999 this volume perceives that English literature in under threat as an academic discipline In Challenging Theory Catherine Burgass warns against the recent trend towards the conflation of literature teaching with cultural studies in British and American universities Focusing on theory of deconstruction as developed by Jacques Derrida in the 1960s the book redresses some common mistinterpretations of Derrida's work relating to the status of metaphysical oppositions Part One discusses textual differences and the ways in which these may dissolve and reform according to different cultural contexts The practical issues associated with teaching literature and literary theory in universities are examined in Part Two while Part Three high lights some of the move invidious claims of literary theorists and questions the value of metaphysical analysis as a tool for political critique Challenging Theory tackles an important debate that lies at the heart of humanities teaching It illuminates the impact on academia of the work of critical theorists over the last thirty years and provides a platform for future reassessment of the

**A Ricoeurian Analysis of Identity Formation in Philippians**

Scott Ying Lam Yip, 2023-06-01 Winner of the Outstanding Theological Research Book Award 2024 Scott Ying Lam Yip presents the first specialized narrative study devoted to the identity formation processes in Philippians based on Paul Ricoeur's narrative theory Yip demonstrates that the Christian identity of the Philippian community is shaped amidst competing narratives with divergent comprehensions and suggests that it is within an intra Jewish contestation of testimonies that Paul updates his understanding of God and contends with a group of Jewish Christian leaders regarding the meaning of his suffering Yip argues that Paul faces a double contestation of narrative in which both the political authorities and a group of Jewish Christian leaders see his imprisonment as futile and unnecessary alerting him to an emerging crisis in which the Philippian community's conviction in suffering with him has begun to decline It is thus essential for Paul to synthesise and install a new paradigmatic story of Christ so that his suffering can be discerned as the defining mark of God's renewed manifestation in an era of Christ's eschatological Lordship Yip explores the means by which Paul in a contestation of authority for the re appropriation of God's past work contrasts the future oriented temporality of his testimony with the past oriented one of the Jewish Christian leaders He concludes that Paul affirms the value of his present suffering in truthfulness and installs his testimony to be the exemplary story for the Philippian community

**Deep Rhetoric** James

Crosswhite, 2024-05-31 Rhetoric is the counterpart of logic claimed Aristotle Rhetoric is the first part of logic rightly

understood Martin Heidegger concurred Rhetoric is the universal form of human communication opined Hans Georg Gadamer But in Deep Rhetoric James Crosswhite offers a groundbreaking new conception of rhetoric one that builds a definitive case for an understanding of the discipline as a philosophical enterprise beyond basic argumentation and is fully conversant with the advances of the New Rhetoric of Cha m Perelman and Lucie Olbrechts Tyteca Chapter by chapter Deep Rhetoric develops an understanding of rhetoric not only in its philosophical dimension but also as a means of guiding and conducting conflicts achieving justice and understanding the human condition Along the way Crosswhite restores the traditional dignity and importance of the discipline and illuminates the twentieth century resurgence of rhetoric among philosophers as well as the role that rhetoric can play in future discussions of ontology epistemology and ethics At a time when the fields of philosophy and rhetoric have diverged Crosswhite returns them to their common moorings and shows us an invigorating new way forward

**An Argument on Rhetorical Style** Marie Lund,2017-04-16 This book interprets rhetorical style within a theoretical frame and it aims to give a more unifying account than has been given in most publications on style The aim is to establish the concept of rhetorical style that will not only achieve a greater conceptual consensus but also help make it both powerful and useful in line with other concepts in the practical and critical disciplines of rhetoric The examination of rhetorical style is aimed at conceptual development based on theoretical reflection and rhetorical analysis The goal is to achieve a clearer understanding of some of the ways in which rhetorical style supplies the conceptual frameworks for reflecting perceiving arguing and gaining influence in practical life

**Being Moved by Moving Words** Joseph Bessler,2025-02-14 There are many fine philosophical and theological engagements with the works of John Caputo He is one of our most serious philosophical theologians But he s also hilariously funny To read Caputo is to encounter someone who wants to move you to grasp your attention your humor your creativity because what he s looking for is not another philosophical couch potato He s looking for someone who s open to being moved to put down the book even his book especially his book and risk reaching out to help another one who is other one at the margins of this culture He s interested in the kind of courage that there is far too little of and conventional religion he suggests has more than its share of the blame The more familiar one becomes with his work the more one wonders why Caputo in all his emphasis upon hermeneutics and responsiveness to the call of the other seemed not to see or perhaps want to claim the many rhetorical gifts in his possession the many rhetorical gifts at work in his writing Even as Caputo is a master of all things hermeneutical he claims ignorance on all things rhetorical viewing the word itself through an old lens of adding mere ornamentation what he calls rouge to beautify the basic claim Bringing the last forty years of work in rhetorical studies to bear on Caputo s texts the author has written this book in hopes of convincing Caputo and his many students that he made whether he sees it or not what can only be called the Rhetorical Turn in philosophy and theology

**Rhetorical Interaction in 1 Corinthians 8 and 10** Yeo,2021-09-06 Rhetorical Interaction in 1 Corinthians 8 and 10 is a formal analysis of Paul s rhetorical interaction with the Corinthians over

the issues of participation in the cultic meal 1 Cor 10 1 22 and the eating of idol food 1 Cor 8 1 13 10 23 11 1 The thesis is that Paul's theology and rhetoric are predicated on knowledge and love Major portions of the book employ rhetorical sociological archaeological and historical critical approaches to examine the triangular interaction between Paul the Corinthians and the biblical texts paying particular attention to the complex configuration of the Corinthian congregation including the influence of proto Gnosticism as well as the ways Paul responded to the shifting situation and different issues The two chapters on rhetorical hermeneutical theory and criticism are especially creative as the author suggests a Chinese hermeneutic for cross cultural dialogues the issue of ancestor worship being a specific example

**Selected Essays on Rhetoric** Thomas De Quincey, 2010-03-19 The five essays presented here Rhetoric Style Language Conversation and Greek Literature were published together for the first time in The Collected Writings of Thomas De Quincey in 1889 1890 Frederick Burwick brings the essays together again in this volume introducing them by tracing the sources and development of a belletristic theory of rhetoric which he says is one of the most original and for a few critics the most puzzling of the nineteenth century Burwick makes the edition complete with a comprehensive index and a selected bibliography

*Michel Meyer's*

*Problematology* Nick Turnbull, 2014-04-10 In today's society everything is in question. The reflexive questioning of modernity has fundamentally problematized society, including philosophy, which has experienced a crisis of metaphysics. Michel Meyer's problematology answers this crisis by questioning questioning, unfolding a new way of doing philosophy with special relevance for the study of society. In this first ever extended treatment of Meyer's work, Nick Turnbull examines the main features of problematology, including the principle of questioning and the deduction of an original conception of difference based on the question-answer relationship. Turnbull shows how these concepts produce new perspectives in the philosophy of the emotions, history, meaning, politics, rhetoric, and science. He applies Meyer's ideas to key questions in the philosophy of social science, showing how problematology offers important insights for understanding contemporary society. The book compares problematology with the work of well-known thinkers, including Bourdieu, Castoriadis, Collingwood, Derrida, Dewey, Gadamer, Heidegger, and Lyotard. Turnbull uses problematology and rhetoric to explain how meaning is constructed through practice in the negotiation of social distance.

### **Rhetoric in an Antifoundational World**

Professor Michael F. Bernard-Donals, Michael F. Bernard-Donals, Richard R. Glejzer, 1998-01-01 In this brilliant collection, literary scholars, philosophers, and teachers inquire into the connections between antifoundational philosophy and the rhetorical tradition. What happens to literary studies and theory when traditional philosophical foundations are disavowed? What happens to the study of teaching and writing when antifoundationalism is accepted? What strategies for human understanding are possible when the weaknesses of antifoundationalism are identified? This volume offers answers in classic essays by such thinkers as Richard Rorty, Terry Eagleton, and Stanley Fish, and in many new essays never published before. The contributors to this book explore the nexus of antifoundationalism and rhetoric, critique that nexus, and suggest a number of pedagogical and theoretical alternatives. The editors place these statements into a context that is both critical and evaluative, and they provide for voices that dissent from the antifoundational perspective and that connect specific practical pedagogies to the broader philosophical statements. For those with an interest in rhetoric, philosophy, comparative literature, or the teaching of composition, this book sets forth a wealth of thought-provoking ideas. I have nothing but praise for this work, a masterful treatment of the question: What positive intellectual projects are possible within a world that radically questions the existence of philosophical foundations? Steven Mailloux, University of California, Irvine
