Mass Media Education in Transition Thomas Dickson, 1999-08-01 Media educators have long been debating the nature and purpose of media education Issues relating to new technologies and the changing state of the media industry are ongoing concerns but some of the most difficult questions

go to the actual structure of media education itself Is it best represented as an integrated field Should it merge with other communication subfields or potentially split into several separate fields Media practitioners complicate matters further by questioning the necessity for media education at all The continued consideration of and reaction to these issues will have a significant effect on media related education and its associated practices In *Mass Media Education in Transition* Thomas Dickson gives careful consideration to the state of media education and its future directions He provides a history of mass media related education as well as an overview of the major issues affecting media education at the end of the 20th century He incorporates the visions of media education leaders as to the possible directions the field may take in the next century and includes in his discussion information that has been previously unknown or not readily available to media educators This volume provides a broad view of the major issues affecting all aspects of media education print and broadcast journalism advertising public relations and media studies It also offers detailed insights as to the possibilities that lie ahead as the field continues to develop a new professionalism or a return to a prior vision of media related education or possibly something quite different

Communications Research Resources Christopher H. Sterling, James K. Bracken, Susan B. Hill, 2016-05-06 This reference book is designed as a road map for researchers who need to find specific information about American mass communication as expeditiously as possible. Taking a topical approach, it integrates publications and organizations into subject-focused chapters for easy user reference. The editors define mass communication to include print journalism and electronic media and the processes by which they communicate messages to their audiences. Included are newspaper, magazine, radio, television, cable, and newer electronic media industries. Within that definition, this volume offers an indexed inventory of more than 1,400 resources on most aspects of American mass communication: history, technology, economics, content, audience, research, policy, and regulation. The material featured represents the carefully considered judgment of three experts: two of them librarians plus four contributors from different industry venues. The primary focus is on the domestic American print and electronic media industries. Although there is no claim to a complete census of all materials on print journalism and electronic media, what is available is now too vast for any single guide; the most important and useful items are here. The emphasis is on material published since 1980, though useful older resources are included as well. Each chapter is designed to stand alone, providing the most important and useful resources of a primary nature: organizations and documents as well as secondary books and reports. In addition, online resources and internet citations are included where possible. **Journalism for**

Cabin Harriet Beecher Stowe, 2009-09-03 Edited by Joseph Pearce. Contributors to this volume: Dedra McDonald, Birzer Mark, Canada, John J. Han, Mary R. Reichardt. Harriet Beecher Stowe was appalled by slavery, and she took one of the few options open to nineteenth-century women who wanted to affect public opinion: she wrote a novel, a huge enthralling narrative that claimed the heart, soul, and politics of millions of her contemporaries. *Uncle Tom's Cabin* paints pictures of three plantations, each worse than the other, where even the best plantation leaves a slave at the mercy of fate or debt. Her questions remain penetrating even today: Can man ever be trusted with wholly irresponsible power? First published more than 150 years ago, this monumental work is today being reexamined by critics, scholars, and students. Though *Uncle Tom's* has become a synonym

for a fawning black yes man Stowe's Tom is actually American literature's first black hero a man who suffers for refusing to obey his oppressors Uncle Tom's Cabin is a living relevant story passionate in its vivid depiction of the cruelest forms of injustice and inhumanity and the courage it takes to fight against them The Ignatius Critical Editions represent a tradition oriented alternative to popular textbook series such as the Norton Critical Editions or Oxford World Classics and are designed to concentrate on traditional readings of the Classics of world literature Whereas many modern critical editions have succumbed to the fads of modernism and post modernism this series will concentrate on tradition oriented criticism of these great works Edited by acclaimed literary biographer Joseph Pearce the Ignatius Critical Editions will ensure that traditional moral readings of the works are given prominence instead of the feminist or deconstructionist readings that often proliferate in other series of critical editions As such they represent a genuine extension of consumer choice enabling educators students and lovers of good literature to buy editions of classic literary works without having to buy into the ideologies of secular fundamentalism The series is particularly aimed at tradition minded literature professors offering them an alternative for their students The initial list will have about 15-20 titles The goal is to release three books a season or six in a year

Press Freedom as an International Human Right Wiebke Lamer, 2018-02-27 This book examines why press freedom has not become part of the established international human rights debate despite its centrality to democratic theory It argues that an unrestricted press is not just an important economic actor but also an influential power in the political process a status that interferes with government interests of sustaining their own power and influence Despite the popularity of ideational explanations in the field of human rights studies in the case of promoting press freedom considerations of power and strategic interests rather than ideas dominate state behavior The author makes the case that the current place of press freedom in the human rights debate needs to be rethought not only in developing countries but in liberal democracies as well
