Educated Lady:

Luxuriantly Literate Jean Long, 2003-10 A girl in China in the 1920 s Margaret is not worth educating and certainly not worth the price of a steamship ticket to America Begging her father not to abandon her Margaret hopes to immigrate from China to the USA with the rest of her family Descended from families that broke away from tradition in extreme ways Margaret faces a life none of her ancestors could possibly have imagined Her mother with unbound feet constantly defies tradition Margaret s journey takes her from riding in jinrickshas to being a foreign student at the University of California She contends with a series of Asian American issues in rapidly changing times and increasingly lives in two worlds She is confronted with issues that her very Chinese parents face as well as her own identity as a Chinese national in an American setting rife with anti Asian sentiment

The British World Carl Bridge, Kent Fedorowich, 2004-11-23 This collection of essays is based upon the assumption that the British Empire was held together not merely by ties of trade and defence but by a shared sense of British identity that linked British communities around the globe Focusing on the themes of migration identity and the media this book is an exploration of these and other interconnected themes that help define the British World of the late 19th and 20th centuries

The Women's Movements in the United States and Britain from the 1790s to the 1920s Christine Bolt, 1993 This book offers a comprehensive history of the women s movements in the United States and Britain from the late eighteenth century through the 1920s detailing both similarities and differences In each country organized feminism developed from similar social conditions a shared heritage of Enlightenment ideas a relative expansion of political rights the spread of industrialization and urbanization the growth of an influential middle class and the presence of a predominantly Protestant culture In addition women of both nations pursued similar objectives and experienced similar obstacles in their pursuit of equality As Christine Bolt shows however there were important distinctions Americans were inspired by their own perception of the superiority of their social circumstances the greater strength and boldness of their

movement and the greater freedom and respect accorded them In contrast the cause of British feminism was vastly complicated by issues of class and British women often used different means to achieve reform

In many Western societies there has been a tremendous increase in family diversity over the course of the past few decades resulting in a considerable prevalence of non traditional family forms The increased instability of marital and non marital unions entails new challenges for both parents and children In this special issue family studies scholars from different disciplines examine from a life course perspective how re partnering processes work and how family relationships are rearranged in order to adapt to the altered needs and requirements of post separation family life

This book explores the representation of the first generations of women who studied at Oxford and Cambridge in popular fiction of the late nineteenth and early twentieth century Familarly termed Girton Girls these women were depicted as intent on overthrowing the ancient universities and by extension English society This study argues that the powerful and influential vision of the Oxbridge woman was both exploited and expanded in novels of the time It shows that this fiction offers not only an informed critical view of this simultaneously anxiety ridden and intermittently hopeful period of English life between 1880 and 1914 but also reveals popular fiction s underexplored contribution to the move towards Modernist themes and literary techniques The book posits that the Girton Girl was not simply a bit part in the sub genre of the university novel or even within the confines of the New Woman fiction but rather her character was rich and malleable enough to animate a variety of plots that respond to readers burgeoning demands for the women who would inhabit their fiction
