Educational Policy And The Just Society

Educational Policy And The Just Society:

Educational Policy and the Just Society Kenneth A. Strike, 1982 Cultural Politics and Irish Education Since the 1950s Denis O'Sullivan, 2005 **Philosophy of Education: Society and education** Hirst, Paul Heywood Hirst, Patricia White, 1998 **A Just Society** Michael Boylan, 2004-07-13 A Just Society represents a complete account of Boylan's original worldview theory of ethics and social philosophy. The author sets out the foundation and application of the personal worldview imperative for ethics and the shared community worldview imperative for social philosophy. These form the structure for a rights-based deontological theory that is holistic and underscored by an understanding of the good will that incorporates novel depictions of the sincere and authentic agent who displays sympathy, care, openness, and love. In the end, A Just Society strikes a balance between extreme liberalism, libertarianism, and those advocating the rule of the general will, utilitarianism. As such, the book makes an important contribution to ethical and political theory as well as grounding an original approach to public philosophy.

U.S. Educational Policy Interest Groups Gregory S. Butler, James D. Slack, 1994-08-16 Analyzes and surveys how 182 nongovernmental organizations affect the development of federal U.S. educational policy. The alphabetically arranged profiles describe the purposes, origins, and development, structure, and budget, policy concerns, and tactics, political activities, and publications of key citizen interest groups in the field of education. Appendices give information about the survey questionnaire, important governmental bodies, and legislative hearings, and list the organizations under study. A short bibliography points to important recent books and articles on educational groups in general. The index makes the guide easily accessible to students, teachers, policymakers, and professionals in education, public policy, and government.

Disrupting Program Evaluation and Mixed Methods Research for a More Just Society Jori N. Hall, Ayesha Boyce, Rodney Hopson, 2023-01-01 While women have influenced the fields of program evaluation and mixed methods research, their contributions are rarely acknowledged. In this edited volume, we recognize the contributions Jennifer C. Greene made to evaluation and mixed methods, focusing on how she disrupted traditional ways methods are conceptualized and implemented. We aim to provide a range of perspectives on how Greene disrupted social science theory, methodology, and training through her commitment to the values of democracy, diversity, and dialogue. Accordingly, the volume makes explicit how Greene democratized social science inquiry and training by emphasizing inclusive, culturally responsive, and educative theories, methods, and pedagogical practices. Second, it clarifies how her commitment to diversity supported scholars from diverse disciplinary backgrounds and cultures within and beyond the United States and validated often ignored perspectives on phenomena or experiences. And third, it showcases how her commitment to dialogue opened spaces for non-traditional methodological approaches that engage, communicate, and disseminate program evaluation and mixed methods work. Taken together, the first-hand accounts presented in this volume offer a historical perspective and practical guidance on program evaluation and mixed methods conceptualization, implementation, and training. Endorsements: The theme of disruption in this

book is a powerful look at the breadth and significance of Jennifer C Greene's distinguished contributions both theoretical and practical in evaluation for over 30 years. In essence these chapters reveal the sustaining power of her scholarship and influence today and likely in years to come. Her recognition that no single method can solve the complex problems faced in evaluation is revealed in the ontological, epistemological and methodological work she developed on mixed methods which led to a genre of study that recast the debate about the hegemony of quantitative over qualitative methods and vice versa. She has foregrounded values, the quintessential character of evaluation by recognizing the multiplicity of perspectives that guide our theories, roles, questions, designs and perceptions of quality. Jennifer Greene's generativity is exemplified in her egalitarian, dialogic stance, inclusion of voices and context and commitment to equity. The chapters reflect the impact of her work on scholars who continue to advance evaluation for a more just society. Valerie J. Caracelli, U.S. Government Accountability Office.

It is not possible to convey in a few words my strongest endorsement for this volume that begins scratching the surface of Jennifer C Greene's many contributions to evaluation theory, methods and practice. I have worked with and learned from her on many occasions over the years as I grappled with refining my understanding and practice of culturally responsive evaluation. I commend the editors and authors for this first substantive collection providing a more in-depth understanding and appreciation of Jennifer Greene's body of work for some while providing others the opportunity to revisit the lessons we have learned from her work. Spirit and commitment to make a difference. Stafford Hood, Center for Culturally Responsive Evaluation Assessment, CREA and Professor Emeritus, University of Illinois at Urbana-Champaign.

Education Policy in Ireland Since 1922 Brendan Walsh, 2022-04-18. This book examines educational policy at primary, secondary and university level in Ireland from the foundation of the State to the present day. Primarily an attempt to set policy within a historical context, the book draws together compelling research on the evolution of key changes in topics as diverse as the use of corporal punishment, the evolution of skills policy in post-primary settings and the development of the universities in the post-1922 period. The book includes detailed analysis of more recent policy initiatives and changes in initial teacher education, curriculum change and special and inclusive education and will be of interest to those working in the various fields, students and the general public. It presents detailed discussions of change in the Irish education system, demonstrating how policy initiatives, particularly since the early 1990s, have brought about significant transformation at all levels. In doing so, the book also demonstrates that the origin of change often lay in earlier developments, particularly those of the mid-1960s. Policy development is closely linked to external factors and influences and chapters on academic selection and teachers.

Inclusive Education in Low-Income Countries McConkey, Roy, 2014-04-03. The history of people with disabilities has been dominated by their isolation and exclusion. The long fight towards inclusion and inclusive education in particular started not many years ago. Most were powerless to control their own destiny. Their participation in society has been the object of others' actions. In many countries their disability policies have a substantial element of protection and charity but not the right to equalisation of opportunities. This book highlights the process of change that is underway internationally. The equalisation of opportunities requires new processes through which the various systems of society such as health services and education are delivered. It means the right for people with disabilities to remain in their communities and to receive the schooling and social supports they need within the ordinary structures available in local communities. Strong advocacy is needed for this to happen. In particular parents need to be empowered, communities mobilised and professionals trained in new ways of working hence this book. Drawing on experiences in Africa the book describes the issues to be considered when it comes to implementing inclusive strategies, the processes to be followed and the roles of different sectors such as people with disabilities, parents, policy makers, educationalists, health and community development professionals and crucially society at large.
