Nesteruk,2023-10-27 The main objective of this book on cosmology and theology is to reassess the current approach to research in the field of interaction mediation and dialogue between modern cosmology and Christian theology Eastern Orthodox theology in particular This project was part of wide ranging cross disciplinary research undertaken by scientists philosophers and theologians across the world within the framework of Science Orthodoxy around the World run by the National Hellenic Research Foundation Athens from 2019 to 2023 The project and this publication contribute to the large scale academic activity in the field of science and religion or science and theology with a particular accent on the contribution of Eastern Orthodox theology to this dialogue as well as to the venues of advancement of this theology given the recent breakthroughs in cosmology physics and philosophy The book also underlines the importance of expressing cosmological ideas theologically symbolically and scientifically in the wide context of culture and humanity s sociopolitical and environmental predicaments **God and the Multiverse** Victor J. Stenger,2014-09-09 Cosmologists have reasons to

believe that the vast universe in which we live is just one of an endless number of other universes within a multiverse a mind boggling array that may extend indefinitely in space and endlessly in both the past and the future Victor Stenger reviews the key developments in the history of science that led to the current consensus view of astrophysicists taking pains to explain essential concepts and discoveries in accessible terminology The author shows that science s emerging understanding of the multiverse consisting of trillions upon trillions of galaxies is fully explicable in naturalistic terms with no need for supernatural forces to explain its origin or ongoing existence How can conceptions of God traditional or otherwise be squared with this new worldview The author shows how long held beliefs will need to undergo major revision or otherwise face eventual extinction **God, Humanity, and the Universe** Alexei V. edition Christopher Southgate, 2011-10-13 A systematic exploration of contemporary perspectives in physics evolutionary biology and psychology as they relate to theological descriptions of the universe humanity and consciousness Contributors examine such issues as theological responses to the ecological crisis how science is treated and valued in education and the development of the science and religion debate in the 21st century This is a comprehensive textbook for the student with periodic exercises to test understanding and encourage discussion of the different topics and suggestions for further reading

God's Action in Nature's World Nathan Hallanger, 2016-04-22 In 1981 Robert John Russell founded what would become the leading center of research at the interface of science and religion the Center for Theology and the Natural Sciences Throughout its twenty five year history CTNS under Russell s leadership has continued to guide and further the dialogue between science and theology Russell has been an articulate spokesperson in calling for creative mutual interaction between the two fields God s Action in Nature s World brings together sixteen internationally recognized scholars to assess Robert Russell s impact on the discipline of science and religion Focusing on three areas of Russell s work methodology cosmology and divine action in quantum physics this book celebrates Robert John Russell s contribution to the interdisciplinary engagement between the natural sciences and theology

Human Significance in Theology and the Natural Sciences Christopher L. Fisher, 2010-02-03 The medieval worldview that regarded human beings as at the center of God s plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity s place in the cosmos to be accidental peripheral and ultimately meaningless However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity s indelible Trinitarian and incarnational faith Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence Even ecological concerns take on a new poignancy with the realization that among material creatures only human beings are capable of addressing the world s situation This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty first century and it highlights

the very unique role of humanity in global and cosmic history **The Human Cosmos** Jo Marchant, 2021-09-07 A Best Book of 2020 NPR A Best Book of 2020 The Economist A Top Ten Best Science Book of 2020 Smithsonian A Best Science and Technology Book of 2020 Library Journal A Must Read Book to Escape the Chaos of 2020 Newsweek Starred review Booklist Starred review Publishers Weekly A historically unprecedented disconnect between humanity and the heavens has opened Jo Marchant's book can begin to heal it For at least 20 000 years we have led not just an earthly existence but a cosmic one Celestial cycles drove every aspect of our daily lives Our innate relationship with the stars shaped who we are our art religious beliefs social status scientific advances and even our biology But over the last few centuries we have separated ourselves from the universe that surrounds us It's a disconnect with a dire cost Our relationship to the stars and planets has moved from one of awe wonder and superstition to one where technology is king the cosmos is now explored through data on our screens not by the naked eye observing the natural world Indeed in most countries modern light pollution obscures much of the night sky from view Jo Marchant's spellbinding parade of the ways different cultures celebrated the majesty and mysteries of the night sky is a journey to the most awe inspiring view you can ever see looking up on a clear dark night That experience and the thoughts it has engendered have radically shaped human civilization across millennia The cosmos is the source of our greatest creativity in art in science in life To show us how Jo Marchant takes us to the Hall of the Bulls in the caves at Lascaux in France and to the summer solstice at a 5 000 year old tomb at Newgrange Ireland We discover Chumash cosmology and visit medieval monks grappling with the nature of time and Tahitian sailors navigating by the stars We discover how light reveals the chemical composition of the sun and we are with Einstein as he works out that space and time are one and the same A four billion year old meteor inspires a search for extraterrestrial life The cosmically liberating summary revelation is that star gazing made us human *Modern Christian Theology* Christopher Ben Simpson, 2020-01-09 Christopher Ben Simpson tells the story of modern Christian theology against the backdrop of the history of modernity itself The book tells the many ways that theology became modern while seeing how modernity arose in no small part from theology These intertwined stories progress through four parts In Part I Emerging Modernity Simpson goes from the beginnings of modernity in the late Middle Ages through the Protestant Reformation and Renaissance Humanism to the creative tension between Enlightenments and Awakenings of the eighteenth century Part II The Long Nineteenth Century presents the great movements and figures arising out of these creative tension from Romanticism and Schleiermacher to Ritschlianism and Vatican I Part III Twentieth Century Crisis and Modernity proceeds through the revolutionary theologies of period of the World Wars such as that of Karl Barth or nouvelle theologie this part includes a thorough section on modern Eastern Orthodox theology Finally Part IV The Late Modern Supernova lays out the diverse panoply of recent theologies from the various liberation theologies to the revisionist the secular the postliberal and the postsecular Designed for classroom use this volume includes the following features boxes chart diagrams visual organizations of the information presented included

throughout e.g. lists of key points visual organizations of systematic ideas in a given thinker lists of significant works lists of significant dates brief outlines of the basic structure of some major theological works both a one page chapter title table of the contents and an expanded multipage table of contents chapter at a glance overview outline at the beginning of each chapter specific references to secondary works and key primary works in English translation at the end of chapters

Force and Understanding Howard Caygill, 2020-09-17 For the past thirty years Howard Caygill has been a distinctive and radical voice in continental philosophy For the first time this volume gathers together Caygill's most significant philosophical essays the majority of which are not freely available and many of which are previously unpublished Here a major philosopher is at work offering rich rigorous and politically engaged readings of canonical and lesser known figures and texts From Kant and Frantz Fanon to Herman Kahn founder of the Hudson Institute Caygill uncovers the untapped resources that the history of philosophy provides for contemporary thought whilst critically pushing beyond the limits of the tradition Divided into two parts the first part of the collection reveals the philosophical backdrop to Caygill's acclaimed study of political resistance *On Resistance A Philosophy of Defiance* 2015 whilst the second part sees Caygill further develop his account of resistance through wide ranging analyses of contemporary culture Exploring numerous subjects including Nietzsche metaphysics radical politics and digital resistance to name but a few *Force and Understanding* introduces readers to the orienting themes of Caygill's thought and provides the opportunity to engage with one of the most astute learned and critical philosophical minds around

Walter Benjamin and Theology Colby Dickinson, Stéphane Symons, 2016-05-19 In the *Arcades Project* Walter Benjamin writes that his work is related to theology as blotting pad is related to ink It is saturated with it For a thinker so decisive to critical literary cultural political and aesthetic writings over the past half century Benjamin's relationship to theological matters has been less observed than it should even despite a variety of attempts over the last four decades to illuminate the theological elements latent within his eclectic and occasional writings Such attempts though undeniably crucial to comprehending his thought remain in need of deepened systematic analysis In bringing together some of the most renowned experts from both sides of the Atlantic *Walter Benjamin and Theology* seeks to establish a new site from which to address both the issue of Benjamin's relationship with theology and all the crucial aspects that Benjamin himself grappled with when addressing the field and operations of theological inquiry

The Kingdom of God Is among You Gordon D. Fee, Cherith Fee Nordling, 2025-03-17 In this exciting volume a renowned New Testament scholar provides his lectures on New Testament theology and provides us a window on his approach on a variety of issues He describes the task as follows New Testament theology is the art of giving coherence to the collective witness of the twenty seven New Testament documents as they attest to the Christian faith while not sacrificing the historical particularity of any one text or author within the canon and to do this as clearly as possible and with as much consistency and unity as possible New Testament theology deals with all the New Testament We must resist the tendency to find a canon

within the canon or to neglect some lesser figures in the New Testament canon New Testament theology is first of all a descriptive task i e we must first try to describe what is there But given our stance toward Scripture what we describe also becomes prescriptive or normative We must never forget that the writings of the New Testament are ad hoc documents written in each and every case to speak to a specific need Thus rather than careful systematic presentations of theology such as in a book or a lecture the earliest Christian theology is worked out in the marketplace as it were Therefore we must be careful not to force the New Testament writers to answer all of our questions nor even to use our logic or thought forms excerpted from chapter 1 Apocalyptic and the Future of Theology Joshua B. Davis, Douglas Harink, 2012-11-07 Ernst Kasemann famously claimed that apocalyptic is the mother of Christian theology J Louis Martyn's radical interpretation of the overarching significance of apocalyptic in Paul's theology has pushed Kasemann's claim further and deeper Still despite the recognition that apocalyptic is at the core of New Testament and Pauline theology modern theology has often dismissed domesticated or demythologized early Christian apocalyptic A renewed interest in taking apocalyptic seriously is one of the most exciting developments in recent theology The essays in this volume taking their point of departure from the work of Martyn and Kasemann wrestle critically with the promise and possible peril of the apocalyptic transformation of Christian theology With original contributions from established scholars including Beverly Gaventa Stanley Hauerwas Robert Jenson Walter Lowe Joseph Mangina Christopher Morse and Fleming Rutledge as well as younger voices this volume makes a substantial contribution to the discussion of apocalyptic and theology today A unique feature of the book is a personal reflection on Ernst Kasemann by J Louis Martyn himself **The Monist** , 1904 Vols 2 and 5 include appendices
