Viktor Frankl's Contribution to Spirituality and Aging Melvin A. Kimble, 2014-02-04 Use Frankl's insights and techniques to improve life for your aging clients or parishioners Viktor Frankl a holocaust survivor who experienced firsthand the horrors of Auschwitz saw man as a being who continuously decides what he is a being who equally harbors the potential to descend to the level of an animal or to ascend to the life of a saint Man is that being who after all invented the gas chambers but at the same time he is that being who entered into those same gas chambers with his head held high and with the Our Father or the Jewish prayer of the dying on his lips Dr Frankl's insights led him to found the therapeutic system of logotherapy which views man as a spiritual being rather than simply as a biological construct Logotherapy has come to be called the Third Viennese School of Psychotherapy after Freud's psychoanalysis and Adler's individual psychology He left a rich legacy of theory and insights especially relevant to the search for meaning in later life The tenets of logotherapy provide many clues and approaches to what an ever increasing body of evidence suggests regarding the crisis of aging as a crisis of meaning Frankl's insightful work increased man's understanding of the spiritual dimension of humanity and the dignity and worth of every person in the face of what he called the tragic trial of human existence pain guilt and death Viktor Frankl's Contribution to Spirituality and Aging presents an essential overview of logotherapy and explores the search for and the will to meaning in later life the connection between logotherapy and pastoral counseling bringing psychology and theology together to effectively counsel the aging the role of logotherapy in the treatment of adult major depression aspects of meaning and personhood in dementia the search for meaning in long term care settings Viktor Frankl's Contribution to Spirituality and Aging represents varying professional perspectives on the application of Frankl's logotherapy for ministry with older adults The chapter authors represent diverse professional backgrounds in medicine pastoral theology the behavioral sciences and pastoral ministry They address issues such as death and dying dementia and depression and the spiritual meaning of aging as well as Frankl's conception of the nature of humanity Everyone interested in the connection between theology and psychology in the context of the aging will want to own this book **Practical Theology for Aging**

Derrell R. Watkins, 2013-01-11 Learn new approaches for strengthening the religious bonds of our aging population Through Scripture studies and the personal experiences of religious leaders and congregants Practical Theology for Aging offers new concepts for ministering to our older population Each chapter looks at a different concern for the elderly and addresses it with the assurance that aging is part of God's great work From scientific models and case studies to passages from both the Old and New Testaments this volume illuminates the power of faith in keeping the elderly whole and well Practical Theology

for Aging reveals several barriers to the spiritual wellness of our elders. These include society's stereotypical views of frailty and incompetence in older people, the lack of common support by communities of faith, and the dissatisfaction of the elderly with outdated traditional answers to their concerns of aging, suffering, and death. Each barrier can be overcome by utilizing the practical theology you will find in this book. Restated throughout the volume is the message that the journey into old age does not have to be filled with dread and fear but can be seen as a path to spiritual maturity. This book has practical suggestions that address God's purpose for aging: why do we have to grow old, sexual health for senior citizens, the suffering and physical debilitation that sometimes accompany aging, afflictions like dementia and Alzheimer's disease, and how to minister to the unresponsive, the inclusion of spirituality in rehabilitation to heal the whole person after catastrophic illness or injury, preaching to senior citizens as opposed to preaching to a younger congregation, so much more. Practical Theology for Aging presents tips and strategies for spiritual advisement as well as traditional quotes and references reminding us to respect and honor our aging men and women. Whether you are a religious leader, caretaker, family member, or esteemed elder, this book is vital for strengthening spirituality in the elderly and promoting their inclusion into the religious community.

Dignity for Deeply Forgetful People Stephen G. Post, 2022-05-31 A new ethics guideline for caregivers of deeply forgetful people and a program on how to communicate and connect based on 30 years of community dialogues through Alzheimer's organizations across the globe.

Where Two Worlds Touch Jade C. Angelica, 2014 Jade Angelica shares the wisdom and hope she gleaned from caring for her mother and from many years working closely with Alzheimer's patients and caregivers. Challenging the predominant belief that people with Alzheimer's no longer have purpose, potential, or the capacity for meaningful relationship, *Where Two Worlds Touch* is both a spiritual memoir and a pastoral guide for those who love someone with Alzheimer's. Readers will find here the reassuring words of a friend who has been there and can give advice on preserving connection, finding hope, self-care, and staying open to the possibility of grace.

Touching God Peter Kevern, 2025-05-27 The dread of dementia has a unique hold over us because dementia seems to eat away at what makes us human. If we lose our capacity to remember, to think, to act, and even to speak, what is left of us? And where is the God who promised to be with us? These are profound theological questions that go beyond a need for better pastoral care or more welcoming churches; they hold up a mirror to what we really believe about human beings, about God, and about dementia itself. The purpose of this book is to explore what these questions have to teach us by reflecting theologically on the faith journey of people who live with dementia. It is a personal theological pilgrimage digging down into the theological meaning of dementia itself, looking for hidden pearls of insight. But it is also an attempt to look past the details to see the big picture of God's grace and faithfulness embodied in the person and life of the crucified and risen Christ. It will speak not just to people who are challenged or troubled by dementia but to anybody seeking to grapple with their faith in challenging times.

Alzheimer's & Theology Thomas Liu D. Min, 2021-06-17 The fact that Americans are living longer, healthier lives, coupled with his own aging

motivated the author to write this book As Baby Boomers age more than one in five Americans will be over 65 years old This increase in the average age of Americans will have a widespread impact on every aspect of society and is already beginning to be felt This impact has inspired Dr Liu to write this book in an effort to relieve the sufferings of those who have been diagnosed with this dreaded brain disease and their caregivers who suffer along with them The author affirms that it is God s love through Christ which encourages him to provide reason of hope in God s remembrance hope that is from an informed theological perspective a sense of purpose in the face of this disease Because of the author s godly motive and desire to offer help for sufferers the author provides comfort through assurances that the sufferer s conditions are not leading to the end of their lives

Aging Together Susan H. McFadden, John T. McFadden, 2011-06-01 Never in human history have there been so many people entering old age roughly one third of whom will experience some form of neurodegeneration as they age This seismic demographic shift will force us all to rethink how we live and deal with our aging population Susan H McFadden and John T McFadden propose a radical reconstruction of our societal understanding of old age Rather than categorizing elders based on their cognitive consciousness the McFaddens contend that the only humanistic supportive and realistic approach is to find new ways to honor and recognize the dignity worth and personhood of those journeying into dementia Doing so they argue counters the common view of dementia as a personal tragedy shared only by close family members and replaces it with the understanding that we are all living with dementia as the baby boomers age particularly as early screening becomes more common and as a cure remains elusive The McFaddens inclusive vision calls for social institutions especially faith communities to build supportive ongoing friendships that offer hospitality to all persons regardless of cognitive status Drawing on medicine social science philosophy and religion to provide a broad perspective on aging *Aging Together* offers a vision of relationships filled with love joy and hope in the face of a condition that all too often elicits anxiety hopelessness and despair

Caresharing Marty Richards, MSW, LCSW, 2011-04-01 Rebalancing the Roles in Caregiving So All Involved Are Supported When you care for someone who is dealing with the complexities of aging illness or disability you share intense emotions and form deep bonds You each have the opportunity to recognize what is most deeply human and most deeply Divine in the other This sense of reciprocal sharing between the caregiver care receiver and with others around you is the essence of the dance in caresharing from the Prelude The word caregiver typically suggests someone doing all the giving for a frail physically or mentally challenged or aging person who is doing all the receiving Marty Richards proposes a rebalanced approach of caresharing From this perspective the cared for and the carer share a deep sense of connection Each has strengths and resources Each can teach the other Each can share in grief hope love and wisdom Richards shows you how to move from independent caregiving to interdependent caregiving by engaging the spiritual and emotional aspects of caring for a loved one Whether you are a daughter or son a husband or wife a sibling long term partner or good friend *Caresharing* offers a multilayered reciprocal process that will help you keep your spirit and your loved one s spirit alive in challenging
