God The Evidence The Reconciliation Of Faith And Reason In A Postsecular World:

God: The Evidence Patrick Glynn, 2010-06-09 In the modern age science has been winning its centuries old battle with religion for the mind of man The evidence has long seemed incontrovertible Life was merely a product of blind chance a cosmic roll of an infinite number of dice across an eternity of time Slowly methodically scientists supplied answers to mysteries insufficiently explained by theologians Reason pushed faith off into the shadows of mythology and superstition while atheism became a badge of wisdom Our culture freed from moral obligation explored the frontiers of secularism God was dead Glynn s arguments for the existence of God put the burden of disproof on those intellectuals who think that the question has long since been settled Andrew M Greeley But now in the twilight of the twentieth century a startling transformation is taking place in Western scientific and intellectual thought At its heart is the dawning realization that the universe far from being a sea of chaos appears instead to be an intricately tuned mechanism whose every molecule whose every physical law seems to have been design from the very first nanosecond of the big bang toward a single end the creation of life This intellectually and spiritually riveting book asks a provocative question Is science the long time nemesis of the Deity uncovering the face of God Patrick Glynn lays out the astonishing new evidence that caused him to turn away from the atheism he acquired as a student at Harvard and Cambridge The facts are fascinating Physicists are discovering an unexplainable order to the cosmos medical researchers are reporting the extraordinary healing powers of prayer and are documenting credible accounts of near death experiences psychologists who once considered belief in God to be a sign of neurosis are finding instead that religious faith is a powerful elixir for mental health and sociologists are now acknowledging the destructive consequences of a value free society *God The Evidence* argues that faith today is not grounded in ignorance It is where reason has been leading us all along *Does the Soul Survive?* Elie Kaplan Spitz, 2012-12-14 Near death

Introduction ***Does the Soul Survive? 2nd Edition*** Rabbi Elie Kaplan Spitz, 2015-02-05 Draws on Jewish texts to share that belief in near death experiences reincarnation past life memory and the work of mediums is in fact true to Jewish tradition Rabbi Spitz looks squarely at both sides of the issues in this updated second edition including the discrepancies in

Worldviews and the Problem of Evil Ronnie P. Campbell, Jr., 2019-08-14 How does the Christian response to the problem of evil contrast with that of other worldviews Most attempts at answering the problem of evil either present a straightforward account of the truth claims of Christianity or defend a minimalist concept of God This book is different Inside you'll examine four worldviews responses to the problem of evil Then you'll hear the author's argument that Christian theism makes better sense of the phenomenon of evil in the world equipping you to reach an informed conclusion This book's unique approach integrating worldviews with apologetics with theology will give you a better understanding of the debate surrounding the problem of evil in both philosophy and theology Learn to think cogently and theologically about the problem of evil and Christianity's ability to answer its challenges with *Worldviews and the Problem of Evil* as your guide **The Irrational Atheist** Vox Day, 2008-02-01 On one side of the argument is a collection of godless academics with doctorates from the finest universities in England France and the United States On the other is Irrational Atheist author Vox Day armed with nothing more than historical and statistical facts Presenting a compelling argument but not for the side one might expect Day strips away the pseudo scientific pretensions of New Atheism with his intelligent application of logic history military science political economy and well documented research The arguments of Richard Dawkins Sam Harris Christopher Hitchens Daniel Dennett and Michel Onfray are all methodically exposed and discredited as Day provides extensive evidence proving among other things that More than 93 percent of all the wars in human history had no relation to religion The Spanish Inquisition had no jurisdiction over professing Jews Muslims or atheists and executed fewer people on an annual basis than the state of Texas Atheists are 3.84 times more likely to be imprisoned than Christians Red state crime is primarily in blue counties Sexually abused girls are 55 times more likely to commit suicide than girls raised Catholic In the twentieth
