**The Metaphysics of God** Eric v.d. Luft, 2025-09-29 This book has two purposes one philosophical the other polemical The philosophical purpose will reveal itself plainly in due course but the polemical purpose is sometimes implicit between the lines as it were The target of the polemic is religionism Religionists are those who are so bound up in whatever they believe that they will not change their minds about these beliefs even when presented with the most compelling evidence facts or even deductive proof against these beliefs Religionists believe that their very identity their very being or what some of them call their immortal soul is inseparable from and embodied in their beliefs to the extent that if these beliefs are ever undermined then they themselves will be psychologically or spiritually destroyed or at least lose their integrity Insofar as the typical pigheadedness of religionists stifles civilization creates unnecessary conflict negates logic and countermands reason an important goal of humanity should be to make the world safe from religionism Let me state clearly from the outset that my anti religionism is not atheism I am a philosophical theist in the tradition of Hegel I shall argue below that atheism is nonsense and that it is in effect a religion

**Thomas Szasz C. V.** Haldipur, James L. Knoll IV, Eric v. d. Who's Who in America Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works All translations are my own unless otherwise indicated *Ruminations: Selected Philosophical, Historical, and Ideological Papers: Volume 1, Part 1, The Infinite* Eric v.d. Luft, 2019-06-14 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers 1 philosopher writer teacher historian of the long nineteenth century 1789-1914 2 editor translator photographer publisher biographer encyclopedist 3 cataloging librarian rare books and special collections librarian historian of medicine Somehow these three vocations have garnered me some acclaim even an entry in Who's Who in America Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works *On the Duties of Philosophers* Eric v.d. Luft, 2020-09-13 Shows how and why philosophy is the most important and most practical of all human endeavors because its mission is to sit in judgment of everything including itself **Battle for the heart** Jan Albert van den Berg, Chris A. M. Hermans, 2021-09-24 The battle of the heart can be seen as the core problem of the Christian religion in modern culture According to Augustine the complex mixture of longings are the driving forces of human lives These longings are not an intellectual puzzle but rather a craving for sustenance The contributions locate the battle for the heart and transformation of society and church in the context of an ethnic multi religious socio economical divided Africa Where are the authentic voices of leaders who can change the heart How to mend a broken heart How to transform congregations towards inclusion of difference Can we embrace the dignity of difference as attitudes that enable transformation of church and society *Form, Content, and Power* Eric v.d. Luft, 2024-08-02 This book is meant to be disconcerting It asks many more questions than it answers but perhaps that is how philosophy should be especially if the questions posed are capable of rousing interest in a topic and stimulating individual thought It challenges sometimes attacks and even ridicules various traditions and theoretical positions in the history of the philosophy of art not for merely destructive or polemical purposes but rather to encourage insightful readers to proceed beyond these positions in their own minds Its arguments are not didactic and its conclusions are not dogmatic but evocative and provisional in the hope that its readers will confront them with a vigor at least equal to that with which these arguments and conclusions have already confronted the traditional opinions Its general aims are 1 to try to answer the basic questions What is art and What is good art and 2 to try to develop a unified theory of art i.e. a theory which would embrace and be

equally applicable to all types and media of art from architecture to rock songs from symphonies to sculpture from Shakespeare to street graffiti Toward this second aim it examines the traditional concept of beauty and finds it incoherent undefinable philosophically unsatisfactory and incapable of serving as the ground of any rigorous unified theory of art because it cannot without equivocation be made equally applicable to all sorts of art Thus instead of beauty it proposes the concept of power which can be clearly and precisely defined and which is not only universally and univocally applicable but also rich enough as a concept to be able to shed light on the whole idea of art It is not a difficult book It is written for people at all levels of erudition from college frosh to tenured professors It does not aim primarily toward any level and tries not to pander but presents interpretations within the philosophy of art which should be both sufficiently original to provide grist for the professors speculative mills and at the same time sufficiently lucid for beginning students to be able to grasp the main ideas In short the book aims to become both a course textbook and a work which will be discussed at scholarly conferences and written about in journal articles At least with regard to this twofold aim to be simultaneously intelligible to tyros and interesting to experts and its consequent claim to a broad audience it is akin to such works as John Dewey s *Art as Experience* Robin Collingwood s *The Principles of Art* or Susanne Langer s *Philosophy in a New Key*     On Hegel George L. Kline,2015-07-31 Fifteen important papers about Hegel covering forty five years of work by one of America s most prominent Hegel scholars 1 What Marx Could and Should Have Learned from Hegel 1974 2 Hegel and the Marxist Leninist Critique of Religion and Reply to Commentators 1970 3 Present Past and Future in the Writings of Alexander Herzen 1990 4 The Use and Abuse of Hegel by Nietzsche and Marx 1989 5 Hegel and Solovyov 1974 6 The Existentialist Rediscovery of Hegel and Marx 1971 7 Concept and Concrescence An Essay in Hegelian Whiteheadian Ontology 1986 8 Some Recent Reinterpretations of Hegel s Philosophy 1964 9 Gustav G Shpet as Interpreter of Hegel 1999 10 The Hegelian Roots of S L Frank s Ethics and Social Philosophy 1994 11 Luk cs s Use and Abuse of Hegel and Marx 1987 12 Pierre Macherey s Hegel ou Spinoza 1990 13 The Dialectic of Action and Passion in Hegel s Phenomenology of Spirit 1970 14 Life as Ontological Category A Whiteheadian Note on Hegel 1980 15 Shpet as Translator of Hegel s Ph nomenologie des Geistes 2009     *The Atheist's Primer* Malcolm Murray,2010-04-06 The Athiest s Primer is a concise but wide ranging introduction to a variety of arguments concepts and issues pertaining to belief in God In lucid and engaging prose Malcom Murray offers a penetrating yet fair minded critique of the traditional arguments for the existence of God He then explores a number of other important issues relevant to religious belief such as the problem of suffering and the relationship between religion and morality in each case arguing that atheism is preferable to theism The book will appeal to both students and professionals in the philosophy of religion as well as general audiences interested in the topic     *The Atheist's Primer* Michael Palmer,2012-10-08 Arguing that a new atheism driven largely by Darwinian objections to God s existence has limited debate to a scientific framework The Atheist s Primer reinstates the importance of philosophy in the debate about God s existence and in so doing recovers the distinguished

philosophical tradition of atheism which Dawkins and others have obscured Beginning with the Ancient Greeks and culminating with Hume Michael Palmer provides the philosophical framework on which scientific objections to theism are hung He explicates and comments on the thinking behind atheism discussing issues such as evil morality miracles and the motivations for belief Although delving deeply into epistemological concerns emphasising the disheartening limitations of man's capacity for knowledge and our materialist dependencies Palmer concludes on a positive note arguing alongside Nietzsche Marx and Freud and many others that happiness and personal fulfilment are to be found in the very materialism that religious belief rejects An eloquent abridgment of his previous work *The Atheist's Creed* which was aimed at the educational market *The Atheist's Primer* is written in fluent and concise prose making it an accessible introduction for the general reader
