God Gold And Civil Government:

God, Gold, and Civil Government Tom Rose, 2002 Basic economic principles viewed from a biblical perspective and the relationship and interaction between the economic political sphere Ethics of Money Production Jörg Guido Hülsmann, 2008 Pure Gold; Or, Truth in Its Native Loveliness David Holmes, 1855 **Between God and Gold** Robert A. Wauzzinski, 1993 The heart of Between God and Gold can be located in the survey of three representative nineteenth century Evangelical figures evangelist Charles Finney scholar Francis Wayland and philanthropist clergyman Russell Conwell The lives and thought of these notables are unfolded concretely thereby showing how the Evangelical Industrial synthesis occurred Wauzzinski concludes the book by suggesting theological and economic alternatives hoping to show in these examples that a third way between capitalism and socialism can be found These possibilities are drawn from theoretical and practical sources and thus provide opportunities for greater social revitalization An interdisciplinary methodology is employed throughout this work The author works from the assumption that various fields of study while analytically separated do manifest a fundamental coherence **Politics of Guilt & Pity** R. J. Rushdoony, 2019-07-17 From the foreword by Steve Schlissel Rushdoony sounds the clarion call of liberty for all who remain oppressed by Christian leaders who wrongfully lord it over the souls of God's righteous ones I pray that the entire book will not only instruct you in the method and content of a Biblical worldview but actually bring you further into the glorious freedom of the children of God Those who walk in wisdom's ways become immune to the politics of guilt and pity Man has trampled God's law under foot In doing so he has misused himself and trampled on the God-given rights of his fellowman He is conscious of his guilt and seeks self justification through self atonement The author makes it perfectly clear that there is only one way of escape from present slough and despair It is in turning in heartfelt repentance to God who has already provided atonement in the sacrifice of His Son And true repentance includes a return to the doing of God's will as revealed in God's Word the Bible **Gold from Ophir** J. E. Wolfe, 1889 *God's Gold* Sanford Fleming, 1949 Politics after Christendom David VanDrunen, 2020-04-21 For more than a millennium beginning in the early Middle Ages most Western Christians lived in societies that sought to be comprehensively Christian ecclesiastically economically legally and politically That is to say most Western Christians lived in Christendom But in a gradual process beginning a few hundred years ago Christendom weakened and finally crumbled Today most Christians in the world live in pluralistic political communities And Christians themselves have very different opinions about what to make of the demise of Christendom and how to understand their status and responsibilities in a post Christendom world Politics After Christendom argues that Scripture leaves Christians well equipped for living in a world such as this Scripture gives no indication that Christians should strive to establish some version of Christendom Instead it prepares them to live in societies that are indifferent or hostile to Christianity societies in which believers must live faithful lives as sojourners and exiles Politics After Christendom explains what Scripture teaches about political community and

about Christians responsibilities within their own communities As it pursues this task Politics After Christendom makes use of several important theological ideas that Christian thinkers have developed over the centuries These ideas include Augustine s Two Cities concept the Reformation Two Kingdoms category natural law and a theology of the biblical covenants Politics After Christendom brings these ideas together in a distinctive way to present a model for Christian political engagement In doing so it interacts with many important thinkers including older theologians e g Augustine Aquinas and Calvin recent secular political theorists e g Rawls Hayek and Dworkin contemporary political theologians e g Hauerwas O Donovan and Wolterstorff and contemporary Christian cultural commentators e g MacIntyre Hunter and Dreher Part 1 presents a political theology through a careful study of the biblical story giving special attention to the covenants God has established with his creation and how these covenants inform a proper view of political community Part 1 argues that civil governments are legitimate but penultimate and common but not neutral It concludes that Christians should understand themselves as sojourners and exiles in their political communities They ought to pursue justice peace and excellence in these communities but remember that these communities are temporary and thus not confuse them with the everlasting kingdom of the Lord Jesus Christ Christians ultimate citizenship is in this new creation kingdom Part 2 reflects on how the political theology developed in Part 1 provides Christians with a framework for thinking about perennial issues of political and legal theory Part 2 does not set out a detailed public policy or promote a particular political ideology Rather it suggests how Christians might think about important social issues in a wise and theologically sound way so that they might be better equipped to respond well to the specific controversies they face today These issues include race religious liberty family economics justice rights authority and civil resistance After considering these matters Part 2 concludes by reflecting on the classical liberal and conservative traditions as well as recent challenges to them by nationalist and progressivist movements
