God In A Box:

You Can't Put God in a Box Kelly Besecke, 2014 The advent of modernity brought with it a crisis of faith Science had upended the religious certainties of earlier eras and believers in the West were cast adrift Some turned to a strident fundamentalism while more recently growing numbers have shunned religion altogether In *You Can't Put God In a Box* Kelly Besecke offers a fascinating examination of people who have found a middle way what is known as reflexive spirituality Those who practice reflexive spirituality Besecke shows draw equally on religious traditions and traditions of reason in the pursuit of transcendent meaning They prefer metaphor to literalism spiritual experience to doctrinal belief religious pluralism to religious exclusivism or inclusivism and ongoing inquiry to final answers They find inspiration in liberal theologies of any number of faiths and allies among the spiritual but not religious Besecke draws on original qualitative data to describe how people practiced reflexive spirituality in an urban United Methodist church an interfaith adult education center and a variety of secular settings By doing so she provides a window into the theological thinking of educated spiritual seekers and religious liberals and shows how they have come up with a unique way of addressing the problem of modern meaninglessness

Blowing the Lid Off the God-Box Anne Robertson, 2005 What's in your God box Each of us says author Anne Robertson builds our own way of understanding God our God box and fills it up with bits of scripture wisdom and our experiences of God at work in our lives It's a perfectly good way to puzzle out what God means to us Encountering God through our human limitations we learn something about the meaning of Incarnation But to say that our experience of God is the only valid one is to put a lid on the box and create an idol This book is about examining our God boxes and bursting them wide open *Blowing the Lid Off the God Box* starts with the ministry of Jesus who blew the lid off everyone's God box by constantly challenging his followers with the unexpected Subsequent chapters examine the God boxes we create with scripture worship and political and social agendas

Where Once We Feared Enemies Nibs Stroupe, 2005 Whether we are conscious of it or not we fear difference That often unwarranted fear leads us to create enemies in our hearts and minds Growing out of the experience of a multi cultural congregation in which diversity is both valued and feared *Where Once We Feared Enemies* offers an uncompromising prophetic vision of the American church's identity and mission Stroupe firmly grounds a liberal social viewpoint within the biblical and theological traditions of the church and he calls us to hear God's claim on us in our place and in our time Underlying his powerful messages is the fundamental conviction that the barriers which separate us from our neighbors have been brought down in Jesus Christ This book will be an indispensable addition to any pastor's library It is also inspiring and enlightening reading for anyone interested in the future of the American church as well as its role in the continuing stories of race relations civil rights and peace and justice issues

Scripture Versus Science : Reconciling God's Ancient Wisdom with a Modern World View Robert D. Harter, PhD,2015-07-12 With trepidation Dr Robert D Harter approached the subject of Earth origins and human development from the position of a lifelong Christian who is also a scientist He grew up in a rural Ohio Christian family and

thoroughly understands the position of those who believe the Earth and everything in it was created a few thousand years ago At the same time he is a university professor who understands the basis upon which the Earth is claimed to be millions of years old Both positions cannot be correct and it is probable that neither is completely wrong Using a scientist s analytical approach Dr Harter evaluated and compared biblical anthropological and geological records In Scripture Versus Science he proposes a resolution to the increasingly heated argument about evolution While unlikely to provide a clear and definitive answer this book begins to thin the fog that has developed around it He states There has been a lot of fog associated with whether God created the universe and everything in it or whether it just happened by chance In writing this book I attempt to show that the ideas supporting the two views are not necessarily mutually exclusive In other words I hope I have allowed a bit of sun to shine through the fog
