## **God Rejected A Summary Of Atheistic Thought:**

**God Rejected** Maurice De Bona,1976      **An Analysis of Lucien Febvre's The Problem of Unbelief in the 16th Century** Joseph Tendler,2018-02-21 Febvre asked this core question in The Problem of Unbelief Could sixteenth century people hold religious views that were not those of official Church sanctioned Christianity or could they simply not believe at all The answer informed a wider debate on modern history particularly modern French history Did the religious attitudes of the Enlightenment and the twentieth century notably secularism and atheism first take root in the sixteenth century Could the spirit of scientific and rational inquiry of the twentieth century have begun with the rejection of God and Christianity by men such as Rabelais writing in his allegorical novel Gargantua and Pantagruel the work most often cited as a proto atheist text prior to Febvre s study The debate hinged on some key differences of interpretation Was Rabelais mocking the structures of the Christian Church in which case he might be anticlerical Was he mocking the Bible scriptures or Church doctrines in which case he might be anti Christian Or was he mocking the very idea of God s existence in which case he might be an atheist The other great contribution that Febvre made to the study of history can be found not so much in the fine detail of this work as in the additions that he made to the historian s toolkit In this sense Febvre was highly creative indeed it can be argued that he ranks among the most creative of all historians He sought to move the study of history itself beyond its traditional focus on documentary records arguing instead that close analysis of language could open up a gateway into the ways in which people actually thought and to their subconscious minds This concept the focus on mentalities is core to the hugely influential approach of the Annales group of historians and it enabled a switch in the focus of much historical inquiry away from the study of elites and their deeds and towards new forms of broader social history Febvre also used techniques and models drawn from anthropology and sociology to create new ways of framing and answering questions further extending the range of problems that could be addressed by historians Working together with colleagues such as Marc Bloch his understanding of what constituted evidence and of the meanings that could be attributed to it radically redefined what history is and what it should aspire to be      **Walter Kasper's Response to Modern Atheism** Ralph N. McMichael,2006 The development and pervasiveness of modern atheism as well as secularization poses an acute challenge to Christian theology Theologians have either ignored this challenge or have sought to meet it in a variety of ways Throughout his theological career Walter Kasper 1933 has maintained that theology has the mutual tasks of exposition of the Christian faith and of responding to contemporary challenges to this faith In his seminal work The God of Jesus Christ 1982 he argues that the proper Christian response to modern atheism is the confession of the Trinity In making this response Kasper begins to chart a course for all future Christian apologetics for all efforts to give an account of Christian hope 1 Peter 3 15

### **The False Dialectic Between Christians and Atheists**

Tom Donovan,2016 Could it be that atheism and belief in God are both forms of avoidance behavior It s easier to focus on belief than it is to take up a new practice of living Perhaps both are ideological distractions that mystify the nature of reality and what knowledge is What if we admit that we are neither believers nor atheists Does that mean we re nothing Philosophy aims to help us understand the world without appealing to something beyond It s considered to be rooted in the search for eternal truths and when the truth is unclear philosophy is expected to embrace modesty and have a willingness to say I don t know Rejecting the false dialectic of God atheism will help us recognize that the world is our construction and our responsibility so long as we are here Drawing on Georg Luk cs and Max Horkheimer the author argues that belief in God and atheism are both ideological distractions They are both forms of immaturity that can only be transcended through action The real good news is that we can do away with belief in the supernatural but it will take more than non belief it will take philosophical action He takes us on a journey through our philosophical practices to purge ourselves of mystified notions The journey is long but at least the path is strewn with the charm of Socrates Descartes Marx and Sartre In short Prof Donovan says Nothing exists but this world our world Nothing is beyond God and atheism Why not become nothing Make yourself and those who matter proud

The Problem of Atheism Augusto Del Noce,2022-01-05 In 1964 Augusto Del Noce assembled in a book some of his best works on Marxism atheism and the history of modern philosophy The result was Il problema dell ateismo which he always regarded as foundational to his way of thinking The book remains his best known work and is still in print in Italy almost sixty years later The Problem of Atheism offers the first English translation of this landmark book one of the earliest works to recognize the new secularizing trends in Western culture following World War II Del Noce situates atheism historically reconstructing its philosophical trajectory through European modernity Documenting the author s entire intellectual experience these essays explore the birth of modern philosophy reckon with the great European crisis of 1917 to 1945 and the Cold War that followed and mine the opposition between Marxism and the rise of the affluent society The result is rich with premonitions of the cultural landscape that would take shape throughout the 1960s and the decades that followed Proving its English translation to be long overdue The Problem of Atheism remains relevant to contemporary debates about secularization political theology and modernity

Chakraborty, Anway Mukhopadhyay, 2022-11-16 This book deals with the intricate issue of approaching atheism methodologically as well as conceptually from the perspective of cultural pluralism What does atheism mean in different cultural contexts Can this term be applied appropriately to different religious discourses which conceptualize God gods Goddess goddesses and also godlessness in hugely divergent ways Is my God the same as yours If not then how can your atheism be the same as mine In other words this volume raises the question Is it not high time that we proposed a comparative study of atheism s alongside that of religions rather than believing that atheism is centered in the Western experience Apart from answering these questions the book highlights the much needed focus on the philosophical negotiations between atheism theism and agnosticism The fine chapters collected here present pluralist negotiations with the notion of atheism and its ethical theological literary and scientific corollaries Previously published in Sophia Volume 60 issue 3 September 2021 Chapters Religious Conversion and Loss of Faith Cases of Personal Paradigm Shift and On Being an Infidel are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)
