## God The State:

*God and the State* Michael Bakunin, 2012-09-19 A founder of modern philosophical anarchism presents a clear introduction to anarchist thought and a manifesto of atheism This influential work offers a mind opening experience for even the most skeptical readers

**The Modernist God State** Michael Lackey, 2012-03-15 The Modernist God State seeks to overturn the traditional secularization approach to intellectual and political history and to replace it with a fuller understanding of the religious basis of modernist political movements Lackey demonstrates that Christianity instead of fading after the Enlightenment actually increased its power by becoming embedded within the concept of what was considered the legitimate nation state thus determining the political agendas of prominent political leaders from King Leopold II to Hitler Lackey first argues that novelists can represent intellectual and political history in a way that no other intellectual can Specifically they can picture a subconscious ideology which often conflicts with consciously held systems of belief short circuiting straight into political action an idea articulated by E M Forster Second in contrast to many literary scholars who discuss Hitler and the Nazis without studying and quoting their texts Lackey draws his conclusions from close readings of their writings In doing so he shows that one cannot understand the Nazis without taking into account the specific version of Christianity underwriting their political agenda

*Sovereignty* Jean Bethke Elshtain, 2008-06-10 Throughout the history of human intellectual endeavor sovereignty has cut across the diverse realms of theology political thought and psychology From earliest Christian worship to the revolutionary ideas of Thomas Jefferson and Karl Marx the debates about sovereignty complete independence and self government have dominated our history In this seminal work of political history and political theory leading scholar and public intellectual Jean Bethke Elshtain examines the origins and meanings of as it relates to all the ways we attempt to explain our world God state and self Examining the early modern ideas of God which formed the basis for the modern sovereign state Elshtain carries her research from theology and philosophy into psychology showing that political theories of state sovereignty fuel contemporary understandings of sovereignty of the self As the basis of sovereign power shifts from God to the state to the self Elshtain uncovers startling realities often hidden from view Her thesis consists in nothing less than a thorough going rethinking of our intellectual history through its keystone concept The culmination of over thirty years of critically applauded work in feminism international relations political thought and religion *Sovereignty* opens new ground for our understanding of our own culture its past present and future

**In the name of god state** Patrizia Barrera, 2023-08-25 Allowing a ruler to decide unilaterally on an individual s health and reproductive capacity is tantamount to putting his life in his hands It means authorising him to determine the length and quality of the existence of individuals groups social classes ethnic groups entire peoples And to let him style on the basis of personal and arbitrary convictions categories of more or less deserving individuals to be allowed to work express themselves and live according to fixed rules of behaviour and thought In short it means helping him to play the part of God How does one carry out a massacre

How does one eliminate an entire ethnic group How do you affect the individual s basic freedoms And how do you annul their rights Well the most obvious way is persecution war martyrdom On closer inspection extremely effective but also very unpopular methods capable of generating violent reactions Especially when as has already happened in the not too distant past one oversteps the mark Since the dawn of time human beings have used war to achieve such results In more cunning eras religious power of any religion has done even worse Then the modern era arrived and these crude and bloody methods became obsolete A certain evil section of humanity devised more devious and effective expedients to achieve the same ends of destruction preventing those peoples individuals ethnic groups deemed undesirable from reproducing This allowed them not only to eliminate the problem at its root but also to break down the door of human rights arrogate to themselves indiscriminate powers of control over individual freedoms and finally act undisturbed over the management of human life With the approval of the very masses who abhor wars and massacres Forced sterilisation was and is a formidable and inexpensive method of achieving all this Allowing a ruler to decide unilaterally on an individual s health and reproductive capacity is tantamount to putting his life in his hands It means authorising him to determine the length and quality of the existence of individuals groups social classes ethnic groups entire peoples And to let him style on the basis of personal and arbitrary convictions categories of more or less deserving individuals to be allowed to work express themselves and live according to fixed rules of behaviour and thought In short it means helping him to play the part of God hoping never to fall into the category of undesirables that he will one day think of annihilating in order to correct an inherent error of nature and for the very good of society Forced sterilisation is only the beginning of this It is the first step in the destruction of our sense of humanity of our ability to penetrate into the misery of others without judging them but accepting them for what they are an enrichment of our existence If life is formed in the womb it is in the womb that it must be destroyed And this is not just a symbolism Translator Alberto Fuggetta PUBLISHER TEKTIME      **God and the State ...** Mikhail Aleksandrovich Bakunin,1921      **God and the State** Mikhail Aleksandrovich Bakunin,1970      *The Foreign church chronicle and review* ,1877      *The Christian Life and Virtues, Considered in the Religious State* Charles Gay (Bishop of Anthedon.),1878      God and the State Mikhail Aleksandrovich Bakunin,2020-03-29 God and the State is an unfinished manuscript by the Russian anarchist philosopher Mikhail Bakunin published posthumously in 1882 The work criticises Christianity and the then burgeoning technocracy movement from a materialist anarchist and individualist perspective      *Documents of the Senate of the State of New York* New York (State). The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
