Beilein Jr.,2023-09 Few men of the Civil War era were as complicated or infamous as William Clarke Quantrill Most who know him recognize him as the architect of the Confederate raid on Lawrence Kansas in August 1863 that led to the murder of 180 mostly unarmed men and boys Before that though Quantrill led a transient life shifting from one masculine form to another He played the role of fastidious schoolmaster rough frontiersman and even confidence man developing certain notions and skills on his way to becoming a proslavery bushwhacker Quantrill remains impossible to categorize a man whose motivations

have been difficult to pin down Using new documents and old documents examined in new ways *A Man by Any Other Name* paints the most authentic portrait of Quantrill yet rendered The detailed study of this man not only explores a one of a kind enigmatic figure but also allows us entry into many representative experiences of the Civil War generation This picture brings to life a unique vision of antebellum life in the territories and a fresh view of guerrilla warfare on the border Of even greater consequence seeing Quantrill in this way allows us to examine the perceived essence of American manhood in the mid nineteenth century *Catalogue of the library of the State historical society of Wisconsin, by D.S. and I. Durrie* Daniel Steele Durrie,1878 *This Republic of Suffering* Drew Gilpin Faust,2009-01-06 NATIONAL BESTSELLER NATIONAL BOOK AWARD FINALIST An extraordinary profoundly moving history The New York Times Book Review of the American Civil War that reveals the ways that death on such a scale changed not only individual lives but the life of the nation An estimated 750 000 soldiers lost their lives in the American Civil War An equivalent proportion of today's population would be seven and a half million In *This Republic of Suffering* Drew Gilpin Faust describes how the survivors managed on a practical level and how a deeply religious culture struggled to reconcile the unprecedented carnage with its belief in a benevolent God Throughout the voices of soldiers and their families of statesmen generals preachers poets surgeons nurses northerners and southerners come together to give us a vivid understanding of the Civil War's most fundamental and widely shared reality With a new introduction by the author and a new foreword by Mike Mullen 17th Chairman of the Joint Chiefs of Staff *A Cultural History of Color in the Age of Industry* Alexandra Loske,2022-08-31 *A Cultural History of Color in the Age of Industry* covers the period 1800 to 1920 when the world embraced color like never before Inventions such as steam power lithography photography electricity motor cars aviation and cheaper color printing all contributed to a new exuberance about color Available pigments and colored products made possible by new technologies industrial manufacturing commercialization and urbanization also greatly increased as did illustrated printed literature for the mass market Color both literally and metaphorically was splashed around and became an expressive tool for artists designers and writers Color shapes an individual's experience of the world and also how society gives particular spaces objects and moments meaning The 6 volume set of the *Cultural History of Color* examines how color has been created traded used and interpreted over the last 5000 years The themes covered in each volume are color philosophy and science color technology and trade power and identity religion and ritual body and clothing language and psychology literature and the performing arts art architecture and interiors and artefacts Alexandra Loske is Curator at the Royal Pavilion and Museums Brighton UK Volume 5 in the *Cultural History of Color* set General Editors Carole P Biggam and Kirsten Wolf **The Palgrave Encyclopedia of Victorian Women's Writing** Lesa Scholl,Emily Morris,2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this

campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement

Home Front Peter John Brownlee, Sarah Burns, Diane Dillon, Daniel Greene, Scott Manning Stevens, 2013-09-03 More than one hundred and fifty years after Confederates fired on Fort Sumter the Civil War still occupies a prominent place in the national collective memory Paintings and photographs plays and movies novels poetry and songs portray the war as a battle over the future of slavery often focusing on Lincoln's determination to save the Union or highlighting the brutality of brother fighting brother Battles and battlefields occupy us too Bull Run Antietam and Gettysburg all conjure up images of desolate landscapes strewn with war dead Yet the frontlines were not the only landscapes of the war Countless civilians saw their daily lives upended while the entire nation suffered Home Front Daily Life in the Civil War North reveals this side of the war as it happened comprehensively examining the visual culture of the Northern home front Through contributions from leading scholars from across the humanities we discover how the war influenced household economies and the cotton economy how the absence of young men from the home changed daily life how war relief work linked home fronts and battle fronts why Indians on the frontier were pushed out of the riven nation's consciousness during the war years and how wartime landscape paintings illuminated the nation's past present and future A companion volume to a collaborative exhibition organized by the Newberry Library and the Terra Foundation for American Art Home Front is the first book to expose the visual culture of a world far removed from the horror of war yet intimately bound to it

Clothing and Fashion José Blanco F., Patricia Kay Hunt-Hurst, Heather Vaughan Lee, Mary Doering, 2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends revealing the social and cultural connections of clothing from the precolonial times to the present day This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels Through four detailed volumes this work delves into what people wore in various periods in our country's past and why from hand crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century More than 100 fashion experts and clothing historians pay tribute to the most notable garments accessories and people comprising design and fashion The four volumes contain more than 800 alphabetical entries with each volume representing a different era Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England what is known about the clothing of enslaved African Americans and that there were regulations placed on clothing design during World War II The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras

Plants in the Civil War Judith Sumner, 2022-11-10 Slavery was at the heart of the South's agrarian economy before and during the Civil War Agriculture provided products essential to the war effort from dietary rations to antimalarial drugs to raw materials for

military uniforms and engineering Drawing on a range of primary sources this history examines the botany and ethnobotany of America s defining conflict The author describes the diverse roles of cash crops herbal medicine subsistence agriculture and the diet and cookery of enslaved people **Class Lists of the Woburn Public Library** Woburn Public Library (Mass.),1879 William G. Brownlow E. Merton Coulter,1999 Parson Brownlow was a circuit riding Methodist minister upstart journalist and political activist who wielded a vitriolic tongue and pen in defense of both slavery and the Union This 1937 biography traces his religious journalistic and political career Although his interpretations were biased by racism Brownlow s vision of the American South included Appalachians and African Americans at a time when his contemporaries ignored these groups Coulter taught history at the University of Georgia The Scars We Carve Allison M. Johnson,2019-04-10 In *The Scars We Carve Bodies and Wounds in Civil War Print Culture* Allison M Johnson considers the ubiquitous images of bodies white and black male and female soldier and civilian that appear throughout newspapers lithographs poems and other texts circulated during and in the decades immediately following the Civil War Rather than dwelling on the work of well known authors *The Scars We Carve* uncovers a powerful archive of Civil War era print culture in which the individual body and its component parts marked by violence or imbued with rhetorical power testify to the horrors of war and the lasting impact of the internecine conflict The Civil War brought about vast changes to the nation s political social racial and gender identities and Johnson argues that print culture conveyed these changes to readers through depictions of nonnormative bodies She focuses on images portrayed in the pages of newspapers and journals in the left handed writing of recent amputees who participated in penmanship contests and in the accounts of anonymous poets and storytellers Johnson reveals how allegories of the feminine body as a representation of liberty and the nation carved out a place for women in public and political realms while depictions of slaves and black soldiers justified black manhood and citizenship in the midst of sectional crisis By highlighting the extent to which the violence of the conflict marked the physical experience of American citizens as well as the geographic and symbolic bodies of the republic *The Scars We Carve* diverges from narratives of the Civil War that stress ideological abstraction showing instead that the era s print culture contains a literary and visual record of the war that is embodied and individualized *Women's Shoes in America, 1795-1930* ,2000 In an engaging narrative history the beautifully illustrated *Women s Shoes in America* investigates an aspect of American material culture and provides a detailed reference for dating women s footwear **Emily Dickinson and the Labor of Clothing** Daneen Wardrop,2009 A history of nineteenth century fashion through the works of Emily Dickinson *Battle Hymns* Christian McWhirter,2012-03-19 Music was everywhere during the Civil War Tunes could be heard ringing out from parlor pianos thundering at political rallies and setting the rhythms of military and domestic life With literacy still limited music was an important vehicle for communicating ideas about the war and it had a lasting impact in the decades that followed Drawing on an array of published and archival sources Christian McWhirter analyzes the myriad ways music

influenced popular culture in the years surrounding the war and discusses its deep resonance for both whites and blacks South and North Though published songs of the time have long been catalogued and appreciated McWhirter is the first to explore what Americans actually said and did with these pieces By gauging the popularity of the most prominent songs and examining how Americans used them McWhirter returns music to its central place in American life during the nation s greatest crisis The result is a portrait of a war fought to music
