God's Own Crop Judith Lane, 2004-08 The right of a government to govern its citizens must be based on the consent of those citizens who will be governed Union is trying to preserve a unity of states and Confederate is trying to preserve its right to govern itself What the Underground Railroad is doing is right for the families who have stopped at our Station The LAW says what we did is wrong In our estimation slavery is totally wrong So believed my great grandparents who understood the Civil War was more than it has since become understood to be I pray that as a country we come to the point where we are truly all equal where the color of a man s skin is not even a consideration much less an issue Perhaps our great grandchildren will be able to overcome this war but I do not believe it will be in our lifetime Not in our children s children s lifetime

The Social Teachings of Rabbinic Judaism (3 vols) Jacob Neusner, 2021-10-11 The systematic and orderly presentation of the Halakhah normative law of Rabbinic Judaism in its formative age makes its principal statements in response to a program of social reconstruction it speaks through the details of norms of law about the community Israel Rabbinic Halakhah lays out a social philosophy of an coherent and encompassing character Part 1 Corporate Israel and the Individual Israelite In the first part of the project on Corporate Israel and the Individual Israelite we ask where and how the Halakhah sorts out the relationships of the individual and the community the realm of responsible action and particular responsibility assigned by the Halakhah to each Prophecy from Moses forward and the Halakhah from the Mishnah onward concur that the condition of all Israel dictates the standing of each individual within Israel and further concur that each Israelite bears responsibility for what he or she as a matter of deliberation and intention chooses to do If individuals were conceived as automatons always subordinated agencies of the community or if the community were contemplated as merely the sum total of individual participants a particular social teaching would hardly demand attention But Scripture continued in the Mishnah Tosefta the two Talmuds and Midrash insists that Israelites are individual responsible for what they do and further that corporate Israel on its own not only as the sum of individual actions forms a moral entity subject to judgment So these are the governing questions How to sort out these intersecting matters then the obligations of the community the responsibilities of individuals How does the social teaching of Rabbinic Judaism hold together doctrines of individual obligations to Heaven and mutual responsibilities on the one side with all Israel's commitments and public convictions on the other Part 2 Between Israelites Part 2 turns to relationships between Israelites with particular attention to those that require resolving conflict Once the law recognizes not only Israelites but the integrity of corporate Israel how does it regulate relationships within the framework of that corporate community By regulating relationships the sages will have understood relationships of competition contention and conflict Those of collaboration consensus and cooperation require no regulation on the part of constitutive law they regulate themselves by their nature people keep rules Then at issue are where the corporate community intervenes to protect its interests in relationships between and among individual Israelites and how it

does so The exposition then follows the laws presentation of those relationships as integral to the larger system of Rabbinic Judaism and its plan for its Israel s public life hence once more the focus on large constructions category formations that are integral to the main beams of the Halakhic system and structure Part 3 God s Presence in Israel Part 3 raises the third and final question of the social order God s role in society For Rabbinic Judaism to be Israel means to live in God s kingdom under God s rule in a very particular way That imperative addresses not individuals alone or mainly but rather corporate Israel that is the entire social order It encompasses not merely feelings or attitudes but registers in the here of tangible transactions and in the now of workaday engagements not only in some distant time The generative question of this third and concluding part of the study of the social t

India's Organic Farming Revolution Sapna E. Thottathil,2014-10-01 Should you buy organic food Is it just a status symbol or is it really better for us Is it really better for the environment What about organic produce grown thousands of miles from our kitchens or on massive corporately owned farms Is local or small scale better even if it s not organic A lot of consumers who would like to do the right thing for their health and the environment are asking such questions Sapna Thottathil calls on us to rethink the politics of organic food by focusing on what it means for the people who grow and sell it what it means for their health the health of their environment and also their economic and political well being Taking readers to the state of Kerala in southern India she shows us a place where the so called Green Revolution program of hybrid seeds synthetic fertilizers and rising pesticide use had failed to reduce hunger while it caused a cascade of economic medical and environmental problems Farmers burdened with huge debts from buying the new seeds and chemicals were committing suicide in troubling numbers Farm laborers suffered from pesticide poisoning and rising rates of birth defects A sharp fall in biodiversity worried environmental activists and everyone was anxious about declining yields of key export crops like black pepper and coffee In

their debates about how to solve these problems farmers environmentalists and policymakers drew on Kerala s history of and continuing commitment to grassroots democracy In 2010 they took the unprecedented step of enacting a policy that requires all Kerala growers to farm organically by 2020 How this policy came to be and its immediate economic political and physical effects on the state s residents offer lessons for everyone interested in agriculture the environment and what to eat for dinner Kerala s example shows that when done right this kind of agriculture can be good for everyone in our global food system
