Gods Wisdom And Power Activity:

Activity and Participation in Late Antique and Early Christian Thought Torstein Tollefsen, 2012-01-12 An investigation into two basic concepts of ancient pagan and early Christian thought activity and participation through detailed discussion of the writings of Gregory of Nyssa Dionysius the Areopagite Maximus the Confessor and Gregory Palamas

Divine Simplicity in the Theology of Irenaeus Jonatán Simons, 2023-07-31 This book focuses on Irenaeus as key to the early Christian appropriation of divine simplicity as a philosophical principle since he is the first Christian source to explain his usage in relation to God Beyond providing limits for what a simple God can and cannot mean he also applies this principle to God's activity i.e. creating and to God's names and powers There is a growing interest in the early Christian appropriation of divine simplicity Simons study is timely as the first book to focus exclusively on the earliest explanation and application

Words About God Ian T. Ramsey, 2011-06-07 Ian T Ramsey 1915-1972 was former Bishop of Durham County Durham England and also served as Nolloth Professor of the Philosophy of the Christian Religion at Oxford University He was also the author of *Religious Language Models for Divine Activity and Words About God* **Cosmology, Ecology, and the Energy of God** Donna Bowman, Clayton Crockett, 2012 *Cosmology Ecology and the Energy of God* brings together process and postmodern theologians who reflect on the topic of energy Approaches include dark energy in terms of physics social and ecological aspects of the current energy use crisis and connections between human conceptions of energy and divine spiritual energy in theological terms *Book of principles* Joseph Albo, 1929 *The (Second Edition) Unchanging God of Love* Michael J Dodds, 2008 Much contemporary debate surrounds the traditional teaching that God is unchanging It is frequently argued that an immutable God must be cold remote indifferent and uncaring that an unchanging God cannot be the triune God of love revealed in Scripture Those who reject divine immutability often single out Thomas Aquinas as its most prominent proponent Unfortunately such critics of his theology frequently misunderstand the fundamentals of Aquinas's

actual teaching The Unchanging God of Love provides a clear and comprehensive account of what Aquinas really says about divine immutability presented in a way that allows his theology to address contemporary criticisms The book first reviews the various ways Aquinas applies the notion of immutability to creatures showing that he is well aware of both the positive and negative implications of the concept It then analyzes all of his arguments for divine immutability that are presented in his writings noting his care in determining which aspects of immutability are to be affirmed and which are to be denied of God It also demonstrates the distinctiveness of Aquinas s teaching by examining the biblical patristic and philosophical sources he employs Aquinas s unchanging God proves to be no static deity but the dynamic trinitarian plenitude of knowledge love and life to whom not only immutability but also motion may in some way be attributed A study of the motion of the motionless God reveals how the concepts of both motion and immutability function in Aquinas s understanding of the Trinity the Incarnation Creation and Providence Through this study it becomes clear that the unchanging God of Aquinas far from being indifferent or remote is truly the God of compassion and love revealed in Scripture who shares a most intimate friendship with the people he has created and redeemed ABOUT THE AUTHOR Michael J Dodds O P is professor of philosophy and theology at the Dominican School of Philosophy and Theology in Berkeley California He is coauthor of The Seeker s Guide to Seven Life Changing Virtues and Happily Ever After Begins Here and Now Living the Beatitudes Today PRAISE FOR THE BOOK In The Unchanging God of Love Dodds fearlessly asserts that an unchanging God can indeed be a God of love and that any contradiction of this is rooted in misrepresentation of Aquinas authentic theology Writing in a prose inviting and readable even for non theologian types Dodds offers an honest account of how this theology applies to both God and earthly creatures Maura Beth Pagano Seattle University Magazine
