God's Master Plan for Humanity Alpha, 2011-08 God's Master Plan for Humanity presents a collection of one woman's thoughts on being a born again Christian for over forty years Her life started simply she was the fifth child of eight children born to country folks She was raised in the beauty of nature and then married at the age of sixteen While she admits that neither she nor her husband was prepared for marriage it was during this time that she was born again and felt called to marriage When author Alpha was nineteen she and her sister rescued their brother from a suicide attempt through a miracle that she could only accept as God's divine intervention With Christ as her personal savior Alpha experienced the many benefits of knowing what the word of God can do if it is applied to everyday life She likens the word of God the Bible to a recipe because following His directions will make a person's life just like the picture on the box Many people don't take the time to read the Bible so Alpha has recounted through the stories included in God's Master Plan for Humanity the vital lessons of God's love The most important actions a person can take in life are accepting and understanding God's plan

Jonathan Edwards's Philosophy of History Avihu Zakai, 2009-07-26 Avihu Zakai analyzes Jonathan Edwards's redemptive mode of historical thought in the context of the Enlightenment As theologian and

philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards s intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards s historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards s insistence that the process of history depends solely on God s redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency Edwards strove to re establish God s preeminence within the order of time Against the de Christianization of history and removal of divine power from the historical process he sought to re enthrone God as the author and lord of history and thus to re enchant the historical world Placing Edwards s historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America

A Match Made in Heaven Wendy Widder,2003 Singles and the church may seem to go together like a grilled steak at a vegetarian party but God has a radically different plan one where everyone truly belongs in the family of God

Time, Eternity, and the Trinity Eunsoo Kim,2010-03-01 One of the vital issues in contemporary Christian theology is the problem of a renewed understanding of God s eternity and its relation to time This is not merely a peripheral doctrinal issue but lies at the heart of our understanding of God and humanity and contributes to our entire worldview This study focuses on a long standing debate between two competing views on God s eternity one focused on God s absolute timelessness in classical theism and the other on God s temporal everlastingness in contemporary panentheism In contrast to both of these well worn options this book presents an alternative Trinitarian analogical understanding of God s eternity and its relation to time especially through a critical reflection on Karl Barth s and Hans Urs von Balthasar s engagement of the issue This analogical approach based on the dynamic and dramatic concepts of God s being in relation and of the Triune God s communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration
