Gods Word In Mans Language:

God's Word in Man's Language Eugene Albert Nida,1952 *The Word of God and the Languages of Man* James Joseph Bono,1995 Argues that pre modern societies placed authority in the text of sacred books and that when Europeans underwent the scientific revolution in the 17th century the underlying assumptions and approaches did not alter only the nature and location of the text where authority was to be sought Also argues that the change was not generated by factors external to science such as the advent of the printing press or social changes but by a continual negotiation by scientists themselves for meaning in which the narratives of the Book and the Word vied for authority Also available in paper 14794 0 at 22 95 Annotation copyright by Book News Inc Portland OR God's Word in Man's Language Robert Branson,1980-02-01
