*The Institutes of Biblical Law Vol. 1* R. J. Rushdoony, 2009-11-16 To attempt to study Scripture without studying its law is to deny it To attempt to understand Western civilization apart from the impact of Biblical law within it and upon it is to seek a fictitious history and to reject twenty centuries and their progress The Institutes of Biblical Law has as its purpose a reversal of the present trend it is called Institutes in the older meaning of the that word i e fundamental principles here of law because it is intended as a beginning as an instituting consideration of that law which must govern society and which shall govern society under God To understand Biblical law it is necessary to understand also certain basic characteristics of that law In it certain broad premises or principles are declared These are declarations of basic law The Ten Commandments give us such declarations A second characteristics of Biblical law is that the major portion of the law is case law i e the illustration of the basic principle in terms of specific cases These specific cases are often illustrations of the extent of the application of the law that is by citing a minimal type of case the necessary jurisdictions of the law are revealed The law then asserts principles and cites cases to develop the implications of those principles with its purpose and direction the restitution of God's order

*Ten Ways to Weave the World: Matter, Mind, and God, Volume 1* Ross Thompson, 2022-12-20 The idea of an ideological war between science and religion Thompson argues is founded on a mistake But this does not mean that there is nothing at stake For behind the ill conceived conflict lie complex issues about the nature of mind consciousness experience subjectivity quality value and the like all of which need to be disentangled and assessed in their own right Outgrowing Materialism leads the reader through a sequence of five Worlds each of which offers a distinct way of understanding or failing to understand these issues and where God might belong or not Writing accessibly but with a sharp eye for detail Thompson sheds new light on the familiar territory of materialism dualism and structural realism and evaluates the growing attraction of the multiverse He argues that dualism mechanized the material world then materialism exorcised the mental ghost from the machine and finally this machine is evaporating into pure mathematics Outgrowing Materialism is half of Ten Ways to Weave the World Matter Mind and God The sequel Embodying Mind discusses five Worlds that precede and follow those discussed here However Outgrowing Materialism stands in its own right as a critique of the modern science v religion dilemma
