Godschild Covenant:

Godschild Covenant Marshall Masters, 2003-08 *Godschild Covenant* is set against a global tribulation caused by the planet Nibiru Planet X in 2012 In the midst of this maelstrom the dubious characters who've lurked in the shadows of Anthony Jarman's life now come forward to propel the story at a breathtaking pace Likeable and gifted with psychic abilities Anthony enjoys political success until his enemies manage to conscript him into the hopeless role of a releaser In the midst of this dark passage destiny recasts his fate when he meets Tanya Beautiful and dynamic but sad she captures Anthony's interest at first sight The attraction is mutual but Tanya cannot yield as easily The loss of her family still pulls her soul towards lonely tears away from her pressing need for a new future As they struggle with their feelings the ghost of an old love from Anthony's past returns to bond them together in the service of a desperate cause The Science Behind *Godschild Covenant* *Godschild Covenant* Return of Nibiru is rooted in a realistic catastrophe scenario based on the impending flyby of a planet the Sumerians called Nibiru The Egyptians called it the Destroyer and the Mayans warn us that this Red Comet will return in 2012 In researching this book author Marshall Masters a former science feature producer for the Cable News Network first researched current solar system observations and then compared those findings with historical accounts in the ancient texts of the Egyptians and Sumerians Nibiru and the Ancients Founded in the area of modern day Iraq Sumer is the oldest known civilization and the Sumerians wrote extensively about Nibiru According to their accounts it orbits our sun every 3600 years Reddish in color it is approximately 5 times the size of Earth Further parallels to these accounts are also found in ancient Egyptian and Mayan records as well A similar object was also documented in the Egyptian Texts of the Bronze Age This 3600 year old work was penned by Egyptian academics following the Exodus They called it the Destroyer and say it caused the Biblical disasters of Noah's Flood and the Ten Plagues of Exodus They also warn that it will return in the near future The Mayans offered the same warning They called this object the Red Comet and told us its return will mark the beginning of the next Mayan Calendar on December 21 2012 Like the Egyptians they feared the natural disasters caused by this object and kept a constant vigil on the planet Venus for any sign of its return Nibiru and 2012 Today we not only observe Venus but the entire solar system as well and what we're seeing is troubling for some In the last 75 years the effective energy output of our sun has increased 0.4% causing the most violent solar activity in recorded history According to NASA the next solar cycle will reach its maximum in 2012 and it will be stronger than the last Meanwhile as the global warming debate continues here on Earth astronomers have observed significant surface warming on Mars and Pluto at levels that could cause an extinction event here on Earth Additionally there is a sharp increase in atmospheric perturbations and a host of new X-ray and radio emissions on the other planets in our solar system as well Indigo -- E. T. Connection Marshall Masters, 2004-12 Indigos are awaking in great numbers to the gentle call of a living universe Some are cherished and nurtured but most are forced to struggle with the emotional pain of misunderstanding Yet each will feel the same need to

explore their own Indigo ness and their own destiny of evolution and contact Indigos are here to help humanity achieve its oldest dream universal harmony They will do it by living in service to others in the hope of seeing humanity overcome its service to self failings When that happens our civilizations will no longer grow quickly erode slowly and then die suddenly Rather they will last and they will know love As we evolve off world races will freely contract us and Indigos will become our honest liaisons for they will instinctively know friend from foe All are born to this role but not all are destined to fulfill it This book is dedicated to those who do and it offers helpful suggestions for future encounters Are You an Indigo The term Indigo describes the hue of the aura life energy color that surrounds an Indigo according to psychic Nancy Ann Tappe but this is not the only measure An Indigo will also possess a high IQ an indomitable sense of self and a strong psychic intuition Born to a natural knowing of things they quickly sense goodness compassion evil intent and crisis in others How do true Indigos define themselves Through their feelings Do these questions sound familiar Am I a recent genetic freak of nature as the experts suggest Why am I so out of sync with this materialistic consumption driven society about me Why when all I crave is oneness with the universe do others subjugate me with emotional abuse and drugs Is there any purpose to my life that can possibly justify all this emotional pain The true Indigo instinctively knows that the answers to such questions are found within Only in this way can they resonate completely Regrettably the quest within is all too often marked by the loneliness and emotional pain caused by those who do not understand Indigos or worse yet fear them Still each Indigo must eventually accept the responsibility of his or her own knowledge quest as no two are exactly alike For this reason the author wrote this book in the hope of giving comfort to young Indigos by sharing knowledge gained through his own quest It is also to say to every Indigo Each of us follows a different quest but we all feel and understand your pain Put it aside and revel in your Indigo ness and know that you are not alone

Orange Blossom Marshall Masters, Your Own World, Incorporated, 2004-03-27 Just when a handsome young aerospace consultant thinks that his contract to document a sophisticated communications satellite system has been mysteriously cut short he is given an unexpected reprieve There is a glitch in the ground control system and the brilliant engineer who designed it holds all the answers to his questions if only he can penetrate her cold and reclusive nature Tasked to work with him she persists in keeping both him and his curiosity at arm s length Though his superiors push him for results it is the scent of orange blossoms that compel him to uncover the strange glitches in the satellite system as he is drawn towards a life changing surprise
