Goethe As Woman The Undoing Of Literature:

Goethe as Woman Benjamin Bennett, 2001 Bennett reviews a number of Goethe's works offering a new interpretation of Werther fresh insights into *Die natürliche Tochter* and an assessment of *Die Wahlverwandtschaften* that reveals Goethe's feminine voice He establishes parallels between Goethe's position and that of modern radical feminism regarding the problem of literary revolution book jacket The Literature of Weimar Classicism Simon Richter, 2005 New essays providing an account of the shaping beliefs preoccupations motifs and values of Weimar Classicism In Germany Weimar Classicism roughly the period from Goethe's return to Germany from Italy in 1788 to the death of his friend and collaborator Schiller in 1805 is widely regarded as an apogee of literary art But outside of Germany Goethe is considered a Romantic and the notion of Weimar Classicism as a distinct period is viewed with skepticism This volume of new essays regards the question of literary period as a red herring Weimar Classicism is best understood as a project that involved the ambitious attempt not only to imagine but also to achieve a new quality of wholeness in human life and culture at a time when fragmentation division and alienation appeared to be the norm By not succumbing to the myth of Weimar and its literary giants but being willing to explore the phenomenon as a complex cultural system with a unique signature this book provides an account of its shaping beliefs preoccupations motifs and values Contributions from leading German British and North American scholars open up multiple interdisciplinary perspectives on the period Essays on the novel poetry drama and theater are joined by accounts of politics philosophy visual culture women writers and science The reader is introduced to the full panoply of cultural life in Weimar its accomplishments as well as its excesses and follies Emancipatory and doctrinaire by turns the project of Weimar Classicism is best approached as a complex whole Contributors Dieter Borchmeyer Charles Grair Gail Hart Thomas Saine Jane Brown Cyrus Hamlin Roger Stephenson Elisabeth Krimmer Helmut Pfotenhauer Benjamin Bennett Astrida Orle Tantilillo W Daniel Wilson Simon J Richter is Associate Professor of German at the University of Pennsylvania

The Erotics of War in German Romanticism Patricia Anne Simpson,2006 In The Erotics of War in German Romanticism Patricia Anne Simpson explores the ways early nineteenth century German philosophers poets and artists represent war and erotic desire The author argues that gender is connected to a larger debate about the construction of the self in relation to a community at a time that this definition is under revision She analyzes the culture of war as it shapes the bonds of fraternal familial and eventually national identity Simpson defines the erotics of war as discursive attempts to assert the priority of ethical identity and citizenship over individualized desire The seemingly ancillary problem of female desire emerges not as a marginal issue but as the focal point of a debate about identity

Culture in the Age of Goethe Elisabeth Krimmer, Patricia Anne Simpson, 2013 Investigates how culture in the Age of Goethe shaped and was shaped by a sustained and multifaceted debate about the place of religion in politics philosophy and culture The eighteenth century is usually considered to be a time of increasing secularization in which the primacy of theology was replaced by the authority of reason yet this lofty intellectual endeavor played itself out in a social and political reality that was heavily impacted by religious customs and institutions This duality is visible in the literature and culture of late eighteenth and early nineteenth century Germany On the one hand authors such as Goethe Schiller and Kleist are known for their distance from traditional Christianity On the other hand many canonical texts from the late eighteenth and early

nineteenth centuries from Goethe's *Faust* to Schiller's *Die Jungfrau von Orleans* to Kleist's *Michael Kohlhaas* are not only filled with references to the Bible but invoke religious frameworks Religion Reason and Culture in the Age of Goethe investigates how culture in the Age of Goethe shaped and was shaped by a sustained and multifaceted debate about the place of religion and religious difference in politics philosophy and culture enriching our understanding of the relationship between religion and culture during this foundational period in German history Contributors Frederick Amrine Claire Baldwin Lisa Beesley Jane K Brown Jeffrey L High Elisabeth Krimmer Helmut J Schneider Patricia Anne Simpson John H Smith Tom Spencer Elisabeth Krimmer is professor of German at the University of California Davis Patricia Anne Simpson is professor of German at Montana State University

The Self as Muse Alexander Mathas, 2011-04-22 While there are countless philosophical and psychological studies that focus on sources of the self narcissism has found relatively little attention in a pre Freudian context *The Self as Muse* fills this gap by examining various aspects of narcissism and their significance for the outpouring of creativity in late eighteenth and nineteenth century German literature In many Eighteenth century works of the period narcissism refers to the creation of an idealized image of the self and the desire to merge with this image It provided an impetus for poetic production as writers resorted to the Greek myth of Narcissus to express what they perceived as the inner workings of their soul Yet they were also acutely aware of the vain and therefore narcissistic motivations for their explorations of the self While those influenced by the Pietist tradition attempted to distinguish between an unselfish self scrutiny and self indulging vanity others like Goethe took advantage of narcissism's creative potential and integrated it into their aesthetic endeavors The abundance of confessional and autobiographical accounts the burgeoning of poetry drawing on personal experience the emergence of a type of drama that is based on empathy and the concern with an individual's ability to control one's senses and emotions in general testify to an unprecedented interest in notions of the self in German literature Math's explains the emergence of narcissism in the literature of the period as a sense inspired concept that aims to bring about a better comprehension of both the self and other human beings and how writers used narcissism to improve the moral behavior of their readers It examines eighteenth century representations of narcissism against the background of Freudian and post Freudian notions of the concept and explores narcissism as a creative process that engages both reader and writer in the production of meaning By showing narcissism's pervasive allure for a broad array of literary productions the vol

could conceivably subscribe The short answer is no and most people being tolerant would probably agree with this answer Yet most people precisely in being tolerant also subscribe to an idea of human rights which presupposes just such a universal ethics This basic question of ethics is similarly treacherous when approached on a higher technical level Specialists have long recognized that Kant's categorical imperative is neither theoretically nor practically tenable But efforts to revive and repair the Kantian project including especially the monumental work of Jürgen Habermas have all themselves been theoretically questionable while developing a complexity that makes them impractical Must we then simply do without ethics in the sense of a universal ethical method By way of a close study of literary and philosophical texts from Freud to Machiavelli Benjamin Bennett shows why the failure of a universal or propositional ethics is indeed unavoidable He uncovers a modern non propositional ethics that cannot be grasped in a single theoretical move but can only be approached as a collection of instances of a modern ethical we three key examples of which Bennett explores in this book The we of irony whose speakers share a strictly preter verbal knowledge which is concealed in their actual utterances The insistent exclusive we of a group that has neither its own physical locality nor even a clear intellectual identity comparable to the we of Jews in the diaspora The we of feminism a separate we from that embracing people who happen to have been born women
