Richard Strauss's Orchestral Music and the German Intellectual Tradition Charles Youmans, 2005-07-07 A study of Strauss's orchestral activity from the perspective of late 19th century German intellectual history Bennewitz, Goethe, 'Faust' David G. John, 2012-04-03 Fritz Bennewitz 1926 1995 was the director in chief of East Germany's Weimar National Theatre Extraordinary in his capacity for cultural and linguistic adjustment he directed productions in twelve countries always adapting shows to make them meaningful to local audiences Notably Bennewitz conducted stagings of Goethe's Faust in four different languages over a series of seven productions three in pre unification Weimar one in the reunited Germany and one each in New York Manila and Mumbai The first comprehensive account of Bennewitz's remarkable career Bennewitz Goethe Faust is also a pioneering study of intercultural interpretations of Faust David G John brings to light previously unknown archival materials including annotated playbooks correspondence translations videos and reception information as well as unpublished production photos from the stagings discussed in the book Bennewitz Goethe Faust makes a cogent argument for this director's place alongside the twentieth century's greatest theatre innovators **Germany's Conscience** Reinbert Krol, 2021-06-09 Questions of truth ethics state power and propaganda of how to render account of catastrophes and reconcile oneself with one's past are not only crucial to our time they were also central to the German historian Friedrich Meinecke 1862 1954 Probably no generation of historians before Meinecke had lived through more unsettling transformations during which these questions were most pressing Reinbert Krol's analysis of Meinecke's intellectual development does not only give us insight into his philosophy of history which turns out to be more conciliatory than previously assumed it can also be a source of inspiration for scholars of history today **Traveling between Worlds** Thomas Adam, Ruth Gross, 2006-05-12 In Traveling between Worlds six authors explore the connectedness between Germans and Americans in the nineteenth century and their mutual impact on transatlantic history Despite the ocean between them these two groups of people were linked not only by the emigration from one to the other but also by ongoing interactions especially among their intellectuals Christof Mauch's introduction examines the history of the German American exchange and of cultural exchanges in general Focusing on various aspects of the German American relationship Eberhard Bruning John T Walker Thomas Adam Gabriele Lingelbach Andrew P Yox and Christiane Harzig examine the cultural and communicative exchanges that occurred both between the two countries and within them Topics such as travel cultural interpretation ideological and intellectual transfer the immigrant experience and German American poetry are all considered Traveling between Worlds demonstrates that exchange was facilitated and maintained by ordinary individuals such as teachers and scholars immigrants and natives and held implications that last to this day **Remaking the World** Andrew Wilson, 2023-07-28 How 7 Transformational Events in 1776 Paved the Way for Today's Post Christian West With dizzying social transformations in everything from gender to social justice it may seem like there's never been a more tumultuous

period in history But a single year in the late 18th century saw a number of influential transformations or even revolutions that changed the social trajectory of the Western world By understanding how those events influenced today's cultural landscape Christians can more effectively bear witness to God's truth in a post-Christian age In *Remaking the World* Andrew Wilson highlights 7 major developments from the year 1776 globalization the Enlightenment the Industrial Revolution the Great Enrichment the American Revolution the rise of post-Christianity and the dawn of Romanticism and explains their relevance to social changes happening today Carefully examining key documents and historical figures Wilson demonstrates how a monumental number of political philosophical economical and industrial changes in the year of America's founding shaped the modern West into a WEIRDER society Western Educated Industrialized Rich Democratic Ex-Christian and Romantic This thoroughly researched yet accessible book offers a unique historical perspective on modern views of family government religion and morality giving Christians the historical lens they need to understand today's post-Christian trends and respond accordingly Relevant Cultural and Historical Analysis Skillfully connects key ideas and events from the past to the present Comprehensive Examines important developments from 1776 including the American Revolution Thomas Paine's *Common Sense* Edward Gibbon's *The History of the Decline and Fall of the Roman Empire* James Watt's steam engine Adam Smith's *Wealth of Nations* and Immanuel Kant's *Critique of Pure Reason* Informative Covers key historical figures including John Adams Edmund Burke and David Hume Biblical Equips and encourages readers to share the gospel in a post-Christian world A Great Resource for Pastors Scholars and Readers of Carl Trueman's *The Rise and Triumph of the Modern Self*

Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross-cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features *Romantic Prose Fiction* achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The *Romanticism* series in the *Comparative History of Literatures in European Languages* is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents *Romantic Irony* sets the

broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

Robinson Crusoe in Asia Steve Clark, Yukari Yoshihara, 2021-12-13 This collection of essays expands the study of that immensely widely read and much adapted novel beyond the first book *The Life and Strange Surprising Adventures of Robinson Crusoe* usually known simply as *Robinson Crusoe* to take in the far less well known *Farther Adventures* and the almost unread *Serious Reflections* beyond Defoe's texts to their re writing and adaptation and beyond the Atlantic and South American context to an Asian and Pacific context The essays consider both how Asia is represented in the books in terms of politics economics religion and how the book has been received adapted and taught particularly in Asian contexts *The Duality of Genius* Basil Markesinis, 2008 Mozart Goethe Bernini Talleyrand Jaques Louis David Henry Clay Frick Oliver Wendell Holmes and Mikhail Psellos here are some of the great achievers that most people have heard of But few know much about their extraordinary lives fewer still realize that alongside their grand public persona there was a darker less attractive one that is reflected in their work Why have such factors been ignored or underplayed Deliberate concealment Difficulty in discovering them Or a misguided belief that great achievers must be left standing shining on their pedestals Modern psychobiography doubts the last reason but accepts the difficulties and dangers that accompany the collation and assessment of relevant information This book attempts a candid narrative warts and all of the lives of some great figures from the worlds of painting sculpture politics philosophy law and business but does so also by placing their lives in the context of their times

The result a series of essayistic portraits built around themes close to the lives of those described and brought into greater relief by the inclusion of over ninety beautifully reproduced colour illustrations The aim is to allow the general educated reader to learn more about the genius of creation Those interested in history biography psycho biography and the arts and also believe in the need of a broader culture in times of excessive specialization will enjoy this candid and wide ranging book written by a widely travelled and acclaimed author *American Book Publishing Record Cumulative, 1876-1949: Non-Dewey decimal classified titles* R.R.
