Goethe At 250 London Symposium Goethe Mit 250 Londoner Symposium:

The Very Late Goethe Charlotte Lee, 2017-07-05 Goethe's career was an unusually long and productive one he became a literary celebrity in the 1770s and remained so until his death in 1832 The distinguishing feature of his last works is their self-consciousness their preoccupation both with the business of writing and with personal development In the first cross genre study of this period of Goethe's work Charlotte Lee traces the theme in his last major poems and autobiographical writings before turning to the two giants Wilhelm Meisters Wanderjahre and Faust II All these works share a tendency to allude subtly to earlier moments from Goethe's own literary output but to fashion them into writing which is quite new even though or perhaps because he himself is old This book seeks to understand the unique perspective of one nearing the end of a long life

Performance and Performativity in German Cultural Studies Carolin Duttlinger, Lucia Ruprecht, Andrew Webber, 2003 This volume assembles the select proceedings of an international conference held at the University of Cambridge in March 2002 The conference took its cue from the performative turn which has put issues of performance and performativity at the centre of current academic debate in the humanities The volume aims to show the ways in which German Studies have been turning towards questions of the performative in recent years On the one hand this involves an increased interest in the performing arts in the scholarship and teaching of German Studies and a growing understanding of the literary text too as a performed process as much as a finished object on the other an incorporation of theories of performativity not least in the area of

gender and sexuality The essays cover a range of performance media theatre film performance art photography as well as the representation of turns or acts of performance in literary texts from Goethe to key contemporary writers Together they indicate exciting new ways forward for German Cultural Studies

Analytical Psychology and German Classical Aesthetics: Goethe, Schiller, and Jung Volume 2 Paul Bishop, 2008-07-16 The second volume of *Analytical Psychology and German Classical Aesthetics* builds on the previous volume to show how German classicism specifically the classical aesthetics associated with Goethe and Schiller known as Weimar classicism was a major influence on psychoanalysis and analytical psychology alike This volume examines such significant parallels between analytical psychology and Weimar classicism as the methodological similarities between Goethe's morphological and Jung's archetypal approaches which both seek to use synthesis as well as analysis in their attempt to understand the world It also focuses on the project of the construction of the self which it is argued is not only a personal but also a cultural activity This book like its previous volume aims to clarify the intellectual continuity between Weimar classicism and analytical psychology It will be of interest to both students and scholars in the fields of analytical psychology comparative literature and the history of ideas

Literature of the Sturm und Drang David Hill, 2003 Carefully focused essays on major aspects of one of the most significant German literary movements the Storm and Stress *Sturm und Drang* refers to a set of values and a style of writing that arose in Germany in the second half of the eighteenth century a particularly intense kind of pre Romanticism that has often been represented as marking the beginning of an independent modern German culture The circle of writers around the young Goethe including Herder Lenz Klinger and later Schiller felt frustrated by the Enlightenment world of reason balance and control and turned instead to nature as the source of authentic experience Inspired by Rousseau and Herder by Shakespeare and by folk culture they rebelled against propriety and experimented with new literary forms their creative energy bursting through conventions that seemed staid and artificial The *Sturm und Drang* has often been cited by those attempting to legitimate nationalism and irrationalism but scholars have more recently emphasized the diversity of the movement and the links between it and the Enlightenment This volume of essays by leading scholars from the UK the US and Germany illuminates the guiding ideas of the movement discussing its most important authors texts and ideas and taking account of the variety and complexity of the movement placing it more securely within late eighteenth century European history The main focus is on literature and in particular on the drama which was of special importance to the *Sturm und Drang* However the essays also outline the social conditions that gave rise to the movement and consideration is given to different currents of ideas that underlie the movement including areas of thought and bodies of work that traditional approaches have tended to marginalize Contributors Bruce Duncan Howard Gaskill Wulf Koepke Susanne Kord Frank Lampert Alan Leidner Matthias Luserke Michael Patterson Gerhard Sauder Margaret Stoljar Daniel Wilson Karin Wurst David Hill is a Senior Lecturer in the Department of German Studies at the University of Birmingham UK

Unconscious Angus Nicholls, Martin Liebscher, 2010-06-24 Since Freud's earliest psychoanalytic theorization around the beginning of the twentieth century the concept of the unconscious has exerted an enormous influence upon psychoanalysis and psychology and literary critical and social theory Yet prior to Freud the concept of the unconscious already possessed a complex genealogy in nineteenth century German philosophy and literature beginning with the aftermath of Kant's critical philosophy and the origins of German idealism and extending into the discourses of romanticism and beyond Despite the many key thinkers who contributed to the Germanic discourses on the unconscious the English speaking world remains comparatively unaware of this heritage and its influence upon the origins of psychoanalysis Bringing together a collection of experts in the fields of German Studies Continental Philosophy the History and Philosophy of Science and the History of Psychoanalysis this volume examines the various theorizations representations and transformations undergone by the concept of the unconscious in nineteenth century German thought

Pretexts for Writing Seán M. Williams, 2019-03 In this incisive original book S Williams reads prefaces to German literature and philosophy around 1800 as pretexts for writing examining three of the most remarkable preface writers of that era Goethe Jean Paul and Hegel in the contexts not only of German but also European print culture thought and literature

Shandean Humour in English and German Literature and Philosophy James Vigus, 2017-12-02 One of many writers inspired by Laurence Sterne's Tristram Shandy the German novelist Jean Paul Richter coined the term Shandean humour in his work of aesthetic theory The essays in this volume investigate how Sterne's humour functions the reasons for its enduring appeal and what role it played in identity construction and in the representation of melancholy In tracing its hitherto under recognised impact both on literary writers such as Jean Paul and Herman Melville and on philosophers including Hegel and Marx the collection reveals that Shandean humour is a Grenzgänger a point of commerce not only between Anglophone and German discourses but also between literature and philosophy Klaus Vieweg is Professor of Philosophy at the Friedrich Schiller University of Jena James Vigus is postdoctoral research fellow at the Department of English and American Studies Ludwig Maximilian University of Munich Kathleen M Wheeler is Reader in English Literature at the University of Cambridge
