GONZALEZ-RIVERA,2025 **Forecasting Economic Time Series** Michael Clements,David F. Hendry,1998-10-08 This book provides a formal analysis of the models procedures and measures of economic forecasting with a view to improving forecasting practice David Hendry and Michael Clements base the analyses on assumptions pertinent to the economies to be forecast viz a non constant evolving economic system and econometric models whose form and structure are unknown a priori The authors find that conclusions which can be established formally for constant parameter stationary processes and correctly specified models often do not hold when unrealistic assumptions are relaxed Despite the difficulty of proceeding formally when models are mis specified in unknown ways for non stationary processes that are subject to structural breaks Hendry and Clements show that significant insights can be gleaned For example a formal taxonomy of forecasting errors can be developed the role of causal information clarified intercept corrections re established as a method for achieving robustness against forms of structural change and measures of forecast accuracy re interpreted **Forecasting Economic Time Series** Clive William John Granger,Paul Newbold,1977

This book has been updated to reflect developments in time series analysis and forecasting theory and practice particularly as applied to economics The second edition pays attention to such problems as how to evaluate and compare forecasts

**Econometric Models and Economic Forecasts** Robert S. Pindyck, Daniel L. Rubinfeld, 1981
