GIZA LEGACY Rico Paganini, 2021-08-11 Will humans overcome their technical material worldview and find their way back to the freedom of the spiritual world This can only succeed if we can realign with the lost legacies of ancient times and can decipher that wisdom Scientists and spiritual explorers alike are striving to penetrate the hidden worlds of Giza The discoveries they have made are nothing short of breathtaking Some may suspect it while others already know Here both in and below the pyramids lies the key to a liberating truth for all those who seek it the GIZA LEGACY In this groundbreaking book Rico Paganini provides a fascinating overview of developments and discoveries involving the pyramids and the Sphinx Modern technology combined with spiritual sensing abilities enabled him to penetrate spheres that have been blocked until now In the course of two excursions to Egypt over a period of seven years a world shattering realization came to him The real secret of the pyramids has never yet even been recognized It has little to do with how they were built and their incomprehensible size and geometry but instead it has to do with their metaphysical significance and their function as a guidepost to the subterranean world beneath them In this book the author takes us along on some of his expeditions He meticulously documented all that he experienced in photographs and

sketches The book features hundreds of photographs as well as maps and 3D graphics which give us an impression of the structures found both aboveground and belowground in Giza and of newly discovered chambers and even the legendary Hall of Records Giza Legacy paints a picture of a fascinating world in which the meaning of Giza is placed in a greater context that goes far beyond the borders of Egypt It is nothing less than a new or rediscovered human history traced far back to the lost continents of Atlantis and Lemuria The clues are there for all to see wherever the ancient megalithic structures remain And the clues extend far beyond the distant past into the cosmos and the far off constellations of Orion Sirius and the Pleiades Rico Paganini reveals the correlations that have until now been taboo In a fascinating and methodical manner he opens our eyes to the spiritual world behind the mundane material one showing us how through archeological discoveries we can gain access to an entirely new worldview However a shadow has been cast upon the historical remains of the three ancient cultures For years and with increasing tempo a far reaching wall is being built around the pyramids and Sphinx The impressively documents the dimensions and significance of this dramatic development For if they are here both inside and beneath the structures the answers to great questions of humanity lying hidden then should scientific and spiritual researchers remain excluded from their discovery Who or what lies behind the ridiculously extensive Giza Wall Where do we come from Where are we going This book will affect those who ask themselves such questions It is not just an extremely thorough report on the world wonders in Egypt but a report about the spiritual hope of humankind

**Edgar Cayce in Context** K. Paul Johnson, 2016-03-22 Edgar Cayce widely acclaimed clairvoyant and forerunner of the holistic health movement is revealed here as a pivotal figure in the transition from the esoteric and metaphysical movements of the late nineteenth century to the New Age movement This book describes and evaluates his psychic readings more than 14 000 trance discourses that address medical theological historical and psychological concerns raised by thousands of inquirers The author evaluates evidence for and against Cayce s reliability in the subject areas emphasized by the readings Cayce s medical and psychological advice is shown to be well ahead of his time in many respects and his spiritual teachings are appraised as a reconciliation of Protestant mysticism with New Thought and Theosophy Although the medical readings provide intriguing evidence for Cayce s ESP his clairvoyant time travel illustrates the fallibility of information derived through hypnotic trance The author contends that the contents of the readings reflect the knowledge and interests of their recipients as much as Cayce s personal opinions and beliefs This is the first book to focus solely on appraising the entire body of the Cayce readings from a scholarly perspective

**Earth's Catastrophic Past and Future** William Hutton, Jonathan Eagle, 2004-08 Edgar Cayce America s best documented psychic gave upwards of 44 readings that dealt with lost continents geophysical changes to Earth beginning 1958 1998 and a pole shift due to begin about now In this book geologist William Hutton and researcher Jonathan Eagle look for correspondences between results of geophysical research studies and psychic descriptions of prehistoric catastrophes They also seek scientifically to test readings predictions of catastrophic Earth

Wicherink,2006-02-17 This book reunites science and spirituality after her roads separated 300 years ago More and more scientists are discovering that both disciplines are only two sides of the same coin We are on the verge of a major paradigm change in science where the immaterial subjective world of the mind can no longer be separated from the objective material world This leap in human consciousness was already foreseen by the ancients and American indigenous people like the Maya Hopi and Aztecs who prophesized that this transformation of consciousness would take place in our time This book takes you on a journey from the ancient wisdom to the most modern scientific insights and demonstrates how both can be united     *Apocalypse Pretty Soon* Alex Heard,2000-01-04 The inspired madness of America s apocalyptic and pre millennial organizations may have reached a fever pitch with the turn of the twenty first century but intrepid cultural traveler Alex Heard spent a ten year period witnessing the crescendo firsthand Heard s enthusiasm led him on errands as diverse as being a voyeur at a Republic of Texas militia standoff accompanying an expectant UFO greeting

party to a remote field in Minnesota and enacting the grief of the California quail at an ad hoc therapy group for fierce environmentalists who believe the earth is an actual living entity that s preparing to kill off its human population and soon or at least pretty soon Amazing as it may seem however throughout this trenchant subcultural travelogue Heard never stoops to ridicule his subjects As one reviewer puts it Heard s real achievement may be that he makes us care in a way that is more than voyeuristic about the colorful characters he meets on the road to the new millennium He takes these people seriously allows his assumptions to be challenged and lets himself find that some of their beliefs and fears reflect his own San Jose Mercury News Apocalypse Pretty Soon will appeal to science fiction fans and students of subcultures as well as anybody interested in way out alternatives to the brave new world Amazing as it may seem however throughout this trenchant subcultural travelogue Heard never stoops to ridicule his subjects As one reviewer put it Heard s real achievement may be that he makes us care in a way that is more than voyeuristic about the colorful characters he meets on the road to the new millennium He takes these people seriously allows his assumptions to be challenged and lets himself find that some of their beliefs and fears reflect his own San Jose Mercury News Now in paperback this book will have an audience well beyond millenniamania from science fiction fans to students of subculture and anybody interested in way out alternatives to the brave new world
