Edge Town On Trail 36:

Towns, Ecology, and the Land Richard T. T. Forman, 2019-02-07 Towns and villages are sometimes viewed as minor even quaint spots whereas this book boldly reconceptualizes these places as important dynamic environmental hotspots. Multitudes of towns and villages with nearly half the world's population characterize perhaps half the global land surface. The book's pages feature ecological patterns, processes, and change as well as human dimensions both within towns and in strong connections and effects on surrounding agricultural land, forest land, and arid land. Towns, small to large, and villages are examined with spatial and cultural lenses. Ecological dimensions: water, soil, and air systems together with habitats, plants, wildlife, and biodiversity are highlighted. A concluding section presents concepts for making better towns and better land. From a pioneer in both landscape ecology and urban ecology, this highly international town ecology book opens an important frontier for researchers, students, professors, and professionals, including environmental, town, and conservation planners.

As you move north towards the Yukon border, the human population becomes sparser and nature rules the land. In between, places like Spatsizi Wilderness Provincial Park contain some of the most breathtaking landscapes in the country. Whether you are looking to fish, camp, ATV, snowmobile, view wildlife, or just take in the sights along the region's many roads, Northern BC offers an abundance of adventure. Features: Map, Key, Legend, Topographic Maps, Detailed Adventure Section, Backroad Attractions, Fishing Locations, Hunting Areas, Paddling Routes, Parks, Campsites, Trail Systems, ATV Routes, Snowmobile Areas, Wildlife Viewing, Winter Recreation, Service Directory.
