Edmund Leach Stanley J. Tambiah, 2002-02-14 Intellectual biography of Edmund Leach a leading social anthropologist of his generation with illustrations Pillars in the History of Biblical Interpretation, Volume 2 Stanley E. Porter, Sean A. Adams, 2016-11-03 This two volume set is part of a growing body of literature concerned with the history of biblical interpretation The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed Volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field This is followed by an often new application of the scholar's theory By focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed **Theory in Social and Cultural Anthropology** R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion **Resources in Education** , 1993-06 The British National

Bibliography Arthur James Wells,1992 **Jua Kali Kenya** Kenneth King,1996 Analyzes the three televised debates in 1992 among presidential candidates Bill Clinton George Bush and Ross Perot showing how candidates used persuasive attack and defense strategies to undermine their opponents and preserve vital issues of personal credibility and policy matters Includes complete transcripts of the debates Annotation copyright by Book News Inc Portland OR **Caste and Kinship in Kangra** Jonathan P. Parry,2013-09-13 This study is a major addition to understanding the problems of social inequality and the nature of caste and kinship A full account is given of the social structure of the region emphasizing the continuity of principles which govern relations between castes and relationships within castes The ethnographic data bear in particular on the nature of untouchability models of caste ranking the way in which traditional family structures adapt to a diversification of the economy and the debate about the instability of regimes of generalized exchange Originally published in 1979

Bibliographic Guide to Anthropology and Archaeology ,1991 **Urban Growth and Land Degradation in Developing Cities** Roy Maconachie,2016-02-11 The peri urban interface in poor countries is frequently an area of great dynamism and a focus of competition for basic resources In Nigeria peri urban livelihood strategies have become an increasingly important survival mechanism in the context of rapid urban growth This book uses an innovative combination of methodologies from both the natural and social sciences to examine recent developments in and around the city of Kano in northern Nigeria and in doing so provides insights into the sustainability of these livelihood strategies Identifying some of the most significant forces that are currently shaping the process of peri urban change it argues that despite the adoption of creative and ingenious strategies by many farmers urban growth is having a considerable effect on the livelihood resilience of individuals households and communities The findings presented in this book have much wider relevance and are transferable to other burgeoning Third World cities where increased pressures on urban hinterlands have intensified contests amongst various actors made access to resources much more difficult and made traditional smallholder mechanisms of adaptation and resilience increasingly challenging *The United States Catalog* ,1925 **Border Visions** Carlos G. Vázquez-Ibañez,1996-11 The U S Mexico border region is home to anthropologist Carlos Vázquez-Ibañez Into these pages he pours nearly half a century of searching and finding answers to the Mexican experience in the southwestern United States He describes and analyzes the process as generation upon generation of Mexicans moved north and attempted to create an identity or sense of cultural space and place In today's border fences he also sees barriers to how Mexicans understand themselves and how they are fundamentally understood From prehistory to the present Vázquez-Ibañez traces the intense bumping among Native Americans Spaniards and Mexicans as Mesoamerican populations and ideas moved northward He demonstrates how cultural glue is constantly replenished by strengthening family ties that reach across both sides of the border The author describes ways in which Mexicans have resisted and accommodated the dominant culture by creating communities and by forming labor unions voluntary associations and cultural movements He analyzes the distribution of sadness or overrepresentation of Mexicans in

poverty crime illness and war and shows how that sadness is balanced by creative expressions of literature and art especially mural art in the ongoing search for space and place Here is a book for the nineties and beyond a book that relates to NAFTA to complex questions of immigration and to the expanding population of Mexicans in the U S Mexico border region and other parts of the country An important new volume for social science humanities and Latin American scholars Border Visions will also attract general readers for its robust narrative and autobiographical edge For all readers the book points to new ways of seeing borders whether they are visible walls of brick and stone or less visible infinitely more powerful barriers of the mind

Subject Catalog, 1981 Library of Congress,1981 Himalayan Dialogue Stan Mumford,1989 In the mountain valleys of Nepal Tibetan communities have long been established through migrations from the North Because of these migrations over the last few centuries Tibetan lamaism as one of the world s great ritual traditions can be studied in the Himalayas as a process that emerges through dialogue with the more ancient shamanic tradition which it confronts and criticizes Here for the first time is a thorough anthropological study of Tibetan lamaism combining textual analysis with richly contextualized ethnographic data The rites studied are of the Nyingma Tibetan Buddhist tradition In contrast to the textual analyses that have viewed the culture as a finished entity here we see an unbounded ritual process with unfinished interpretations Mumford s focus is on the dialogue taking place between the lamaist and the shamanic regimes as a historic development occurring between different cultural layers The study powerfully demonstrates that interrelationships between subsystems within a given cultural matrix over time are critical to an understanding of religion as a cultural process **Monographic Series** Library of Congress,1981 North Korea and Myanmar Andray Abrahamian,2018-02-20 North Korea and Myanmar Burma are Asia s most mysterious tragic stories For decades they were infamous as the region s most militarized and repressed societies self isolated and under sanctions by the international community while from Singapore to Japan the rest of Asia saw historic wealth creation and growing middle class security For Burma the threat was internal insurgent factions clashed with the government and each other For North Korea it was external a hostile superpower the United States and a far more successful rival state South Korea occupying half of the Korean peninsula Over time Myanmar defeated its enemies giving it space to explore a form of democratization and openness that has led to reintegration into international society Meanwhile North Korea s regime believes its nuclear arsenal the primary reason for their pariah status is vital to survival

The Modern Anthropology of South-East Asia Victor King,William D. Wilder,2020-09-10 This is a comprehensive introduction to the social and cultural anthropology of South East Asia It provides an overview of the major theoretical issues and themes which have emerged from the engagement of anthropologists with South East Asian communities a succinct historical survey and analysis of the peoples and cultures of the region Most importantly the volume reveals the vitally important role which the study of the area has occupied in the development of the concepts and methods of anthropology from the perspectives of Edmund Leach to Clifford Geertz Maurice Freedman to Claude Levi Strauss Lauriston Sharp to

Melford Spiro **Borneo and Sulawesi** Ooi Keat Gin, 2019-11-28 This book presents a great deal of new research findings on the history of Borneo the history of Sulawesi and the interrelationship between the two islands Some specific chapters focus on empires and colonizers including the activities of James Brooke in Sulawesi of Chinese mining communities in Borneo and of the the quisling issue in immediate post war Sarawak Other chapters consider indigenous peoples and how different regimes have handled them The book is published in honour of Victor T King a leading scholar in the field of Southeast Asian studies and a final chapter discusses his contribution to scholarship in particular his views on how area studies should be approached and the implications of this for future research *Anthropology Newsletter* ,1990 Natural Resource Use and Global Change K. Bruckmeier, 2013-01-21 Building on recent developments in social ecology this book advances a new critical theory of society and nature exploring social metabolism and global resource flows in contemporary society Barriers to global sustainability are identified and conditions for transforming industrial economies towards new sustainable resource use are described **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983
