Education As A Force For Social Change:

Education as a Force for Social Change Rudolf Steiner, 1997-07 These dazzling radical lectures were given one month before the opening of the first Waldorf School following two years of intense preoccupation with the social situation in Germany as World War I ended and society sought to rebuild itself Well aware of the dangerous tendencies present in modern culture that undermine a true social life such as psychic torpor and boredom universal mechanization and a growing cynicism Steiner recognized that any solution must address not only economic and legal issues but also that of a free spiritual life Steiner also saw the need to properly nurture in children the virtues of imitation reverence and love at the appropriate stages of development in order to create mature adults who are inwardly prepared to fulfill the demands of a truly healthy society adults who are able to assume the responsibilities of freedom equality and brotherhood Relating these themes to an understanding of the human as a threefold being of thought feeling and volition and against the background of historical forces at work in human consciousness Steiner lays the ground for a profound revolution in the ways we think about education Also included here are three lectures on the social basis of education a lecture to public school teachers and a lecture to the workers of the Waldorf Astoria Cigarette Company after which they asked him to form a school for their children German sources Die Erziehungsfrage als soziale Frage GA 296 lectures 4 5 and 6 the Volkspädagogik lectures in Geisteswissenschaftliche Behandlung sozialer und pädagogischer Fragen GA 192 lectures 2 and 11 Neugestaltung des sozialen Organismus GA 330 331 **Social Change with Respect to Culture and Original Nature** William F.

disconnection from the changing society learning cannot truly happen in school and the reform will fail Zhang suggests a philosophy of education that highlights the cultivation of students unique but inclusive individuality so that students learn how to nurture their own mind in this profoundly changing society rather than becoming empty and lost The discussion of this proposed question is inspired by the thoughts of the American pragmatist John Dewey and Chinese Confucian scholar Liang Shuming It is not the author s intention to have a pure philosophical discussion but rather to refer to their philosophies to help answer the practical question of cultivating individuality in an educational setting during this period of China s modern transition **Education as the Driving Force of Equity for the Marginalized** Boivin, Jacquelynne

Anne,Pacheco-Guffrey, Heather,2022-01-14 In the USA racism is the most widespread root of oppression Black people in America specifically have suffered from centuries of discrimination and still struggle to receive the same privileges as their white peers In other countries however there are other groups that face similar struggles Discrimination and oppression based on religion ethnicity socio economic status political affiliation and caste are just a few categories However education is a root for widespread societal change making it essential that educators and systems of education enact the changes that need to occur to achieve equity for the groups being oppressed Education as the Driving Force of Equity for the Marginalized highlights international research from the past decade about the role education is playing in the disruption and dismantling of perpetuated systems of oppression This research presents the context ideas and mechanics behind impactful efforts to dismantle systems of oppression Covering topics such as teacher preparation gender inequality and social justice this work is essential for teachers policymakers college students education faculty researchers administrators professors and academicians **Female Entrepreneurship as a Driving Force of Economic Growth and Social Change** Daniel, Ana

management education political science technology and innovation To legitimize female entrepreneurship as a distinct field of research it is important to deepen the scientific reasoning regarding women entrepreneurs while promoting the theoretical consolidation of this area of knowledge *Female Entrepreneurship as a Driving Force of Economic Growth and Social Change* presents what researchers have learned so far about female entrepreneurship namely the main motivations that lead women to undertake it and the characteristics of this type of business as well as the impact of context and technology on the promotion and management of companies by women In doing so it contributes to a better understanding of this phenomenon and how it is different from male entrepreneurship allowing a better delimitation of this field of research Covering topics such as diversity innovation social entrepreneurship and gender this premier reference source is ideal for business owners entrepreneurs managers researchers scholars academicians practitioners instructors and students *An Introduction To Educational Sociology* Tawseef Ahmad Parray, 2020-03-25 This book is a dedicated effort to bring in most lucid form the basic concepts of educational sociology to the undergrad students of education and sociology The subject matter is organized in such a way that each topic is thematically connected to the subsequent topics in order to address the needs of the students The content of the book conform to the specified syllabi of several institutions and colleges The content of the book is carefully edited and structured as such that the presentation of the subject the order of topics and the treatment is well suited to the targeted audience and it will serve more than ever an indispensable tool for students and teachers *Resources in Education* ,1998 *International Education, Hearings Before the Task Force on International Education of The...89-2, on H.R. 12451 and H.R. 12452, March 30 to April 7, 1966* United States. Congress. House. Education and Labor, 1966 *Research in Education* ,1974 *Resources in Women's Educational Equity* ,1979 *Public Spaces, Private Lives* Henry A. Giroux, 2003 While many of the essays in this book were written before 9 11 they point to a number of important issues such as the commercialization of public life the stepped up militarization racial profiling and the threat to basic civil liberties that have been resurrected since the terrorist attacks *Public Spaces Private Lives* serves to legitimate the claim that there is much in America that has not changed since 9 11 Rather than a dramatic change what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9 11 Hence *Public Spaces Private Lives* offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th **Phi Delta Kappan** ,1912 *The Curriculum* Landon E. Beyer, Michael W.
