Education In A Divided World:

Education in a Divided World James Bryant Conant, 1948 *Scholarly Leadership in Higher Education* Wayne J. Urban, 2020-04-02 Urban provides an intellectual history of Harvard presidency of James Bryant Conant 1933-1953 situating it within the broader international landscape and drawing out the implication for the current state of higher education with reference to specific leadership policy issues in the sector Throughout this volume Urban explores the ways in which Conant achieved largely successful attempts to modernize Harvard by upgrading both its student body and its faculty He explores the intellectual excellence agenda that Conant pursued both with students and academics and the ramifications of this He also considers the nature of Conant's part time handling of the role of president the way he delegated campus control to his Provost Paul Buck and the ways the two operated together and separately Urban also looks at Conant's own intellectual breadth as scientist and humanist which showed itself prominently in his activities in pursuit of general education reform Conant's combination of intellect and agenda was unusual for a president in his own time and is exceedingly rare if not completely missing in contemporary university presidencies In exploring this innovative president's time in office at Harvard Urban offers pertinent ideas to today's leaders of higher education *Learning to Divide the World* John Willinsky, 1998 The barbarian rules by force the cultivated conqueror teaches This maxim from the age of empire hints at the usually hidden connections between education and conquest In *Learning to Divide the World* John Willinsky brings these correlations to light offering a balanced humane and beautifully written account of the ways that imperialism's educational legacy continues to separate us into black and white east and west primitive and civilized **Education in a Divided World the Function of the Public Schools in Our Unique Society, by James Bryant Conant** James Bryant Conant, 1948 **World Yearbook of Education 2001** Jo Cairns, Roy Gardner, Denis Lawton, 2012-11-12 This yearbook on education for 2001 brings together leading international voices on values in education and presents a window on current debates These include such fundamental issues as who should decide upon the values we adopt **Education, Poverty and the World Bank** Philip W. Jones, 2006 This book explains why the World Bank's commitment to education is important It considers how the nature of the Bank as a financial institution has shaped its view of economic growth development and poverty reduction In shaping its education policies and programs from a banking point of view a particular World Bank approach to educational development has emerged with major implications for the future of education worldwide The book examines the reasons why the Bank is involved in education the evolution of its education policy stances and how the Bank uses education as part of its program of economic globalisation The author provides a framework for assessing the Bank's impact and effectiveness in its education lending especially in terms of poverty reduction Bank work in education is hugely controversial All around the world in industrial countries in transition economies and in the poorest countries the Bank continues to be under fire for its policy prescriptions and its modes of operation From both left and right the Bank is a major target of discontent At the same time

the Bank is frequently misunderstood and misrepresented The book is based on thousands of classified Bank documents examined over the past twenty years and on wide ranging interviews with past and present Bank officials Although critical of many aspects of Bank work in education the book will be recognised as a uniquely authoritative guide to Bank policy formation in education Back cover

The Education of Radical Democracy Sarah S. Amsler, 2015-04-10 The Education of Radical Democracy explores why radical democracy is so necessary difficult and possible and why it is important to understand it as an educative activity The book draws on critical social theory and critical pedagogy to explain what enables and sustains work for radical democratization and considers how we can begin such work in neoliberal societies today Exploring examples of projects from the nineteenth century to the present day the book sheds light on a wealth of critical tools research studies theoretical concepts and practical methods It offers a critical reading of the crisis of hope in neoliberal capitalist societies focusing on the problem of the contraction of possibilities for democratic agency resistance to domination and practices of freedom It argues that radically democratic thinking practice and forms of social organization are vital for countering and overcoming systemic hegemonies and that these can be learned and cultivated This book will be of interest to academics practitioners researchers and students in education and critical theory and to those interested in the sociology philosophy and politics of hope It also invites new dialogues between theorists of neoliberal power and political possibility those engaged in projects for radical democratization and teachers in formal and informal educational settings

Technology in Higher Education M.H. Siddiqui,

Bridging the Education Divide Using Social Technologies Somprakash Bandyopadhyay, Arina Bardhan, Priyadarshini Dey, Sneha Bhattacharyya, 2021-02-06 This book explains the concept of education divide in rural India and identifies various factors that shape and sustain such a divide In doing so it also discusses a range of attempts undertaken to bridge the education divide Subsequently the book has attempted in providing a socio technical framework towards optimally deploying social technologies for addressing the issue of education divide of marginalized communities The proposed framework offers a transition from traditional content centric teacher centric and centralized education ecosystem

to a connection centric learner centric and decentralized education ecosystem of the socio digital age It demonstrates how Internet enabled digital platforms based on the principles of sharism and mass collaboration using social technologies could help to solve one of the greatest problems facing the world mitigating the extant education divide by delivering quality education to underprivileged sections of society The book also presents empirical validation of the proposed framework to show how a community driven blended learning platform can mobilize the dormant knowledge capital of domain experts to teach underprivileged rural Indian children as well as help form communities of practice to enable lifelong learning for the rural adult population The book closes by pointing out the challenges involved in building an equitable education ecosystem using social technologies and ultimately the possibility of creating a fair and equitable society Given its scope the book offers a valuable resource for researchers policymakers and practitioners in the domain of education who want to transform education ecosystems by using technological and process related innovations to improve educational practices for underprivileged sections of society

James B. Conant: Harvard to Hiroshima and the Making of the Nuclear Age

James Hershberg, 2019-07-31 James B Conant 1893 1978 was one of the titans of mid 20th century American history attaining prominence and power in multiple fields Usually remembered as an educational leader he was president of Harvard University for two tumultuous decades from the Depression to World War II to the Cold War and McCarthyism To take that job he gave up a scientific career as one of the country's top chemists and he left it twenty years later to become Eisenhower's top diplomat in postwar Germany Hershberg's prize winning study however examines a critical aspect of Conant's life that was long obscured by government secrecy his pivotal role in the birth of the nuclear age During World War II as an advisor to Roosevelt and then Truman on the elite Interim Committee that considered how to employ the bomb against Japan Conant was intimately involved in the decisions to build and use the atomic bomb During and after the Manhattan Project he also led efforts to prevent a postwar nuclear arms race between the United States and the Soviet Union that he feared threatened the survival of civilization an apocalyptic prospect he glimpsed in the first instant of the new age when he witnessed the first test of the new weapon at Alamogordo on July 16 1945 a vivid inquiry a model of historiography evocative reading Conant was central to atomic policy and progress the bomb would be as much Conant's as it was anyone's in Government His inner response to that burden responsibility has long been obscured but it is illumined here Philip Morrison The New York Times Book Review In his splendid portrait of Conant James Hershberg has illuminated the life of a pivotal figure in the making of U S nuclear scientific educational and foreign policy for almost a half century But the book is much more It is not only an insightful narration of Conant's life it is also a brilliant and important account of the making of the nuclear age a chronicle that contains much that is new Hershberg's superb study is a chronicle of Conant's moral journey and we are the wiser for his having charted Conant's path S S Schweber Washington Post Book World James G Hershberg ably comes to grips with Conant and his hazardous times His book is vibrantly written and compelling and it breaches Conant's shield of public

discretion in masterly fashion making extensive use of unpublished interviews diaries reports and correspondence pried from private and governmental repositories It is a huge ambitious work a history of the Cold War as Conant encountered it as well as a study of the man Daniel J Kevles *The New Yorker* a well written comprehensive nonjudgmental but sensitive biography Conant was involved in so many and such critical events that students of almost any aspect of our public life over the past half century will find useful the new material and helpful insights in this book This fine biography of one of the most important and complicated of America's twentieth century leaders immediately establishes James Hershberg as one of America's outstanding young historians Stephen E Ambrose *Foreign Affairs* magnificent Any reader interested in nuclear weapons Cold War history or American politics from FDR to JFK will find this biography riveting Priscilla McMillan *Chicago Tribune* masterful The prose is clear the narrative forceful and the author's judgments are balanced and judicious This is simply splendid biography The highest praise one can give for a book of this sort is that the historian has not shrunk from speaking truth to power This book quietly but insistently does so It should be read by the public at large as one of the definitive texts on the cold war and the nuclear age Hershberg's triumph is that he has prevailed over all the official lies to give us one more layer of the historical truth Kai Bird *The Nation* riveting an impressive achievement honest and comprehensive in its scholarship the author has shown himself to be a historian of notable achievement and promise McGeorge Bundy *Nature* Hershberg's outstanding balanced biography lifts the self imposed secrecy surrounding a key architect of U S Cold War policy and of the nuclear age *Publisher's Weekly* an impressive and substantial achievement Hershberg has used the life of one strategically placed individual to illuminate the most important issues surrounding America's role and conduct in the nuclear age His book will be invaluable to scholars assessing the impact and legacy of the group who acquired the epithet wise men now that the Cold War has receded Carol S Gruber *Science* definitive a far more textured picture than one finds in Conant's own guarded and unrevealing autobiography an important and rewarding book illuminating Conant led a remarkable and eventful life in remarkable and eventful times James Hershberg has explored that life and those times in exhaustive and revealing detail Paul Boyer *The New Republic* James G Hershberg has achieved the impossible He has written a huge biography of a Harvard president that is fascinating informative and as valuable a piece of American history as anything I have read in years Mr Hershberg has brought us back vividly to an age that seems remote so long ago but the questions about nuclear proliferation are the same even while the answers are still ambiguous As we watch men struggling with unanticipated post Cold War problems and civil wars sprouting like Jason's men at arms it is good to read this story about a complex man who deserves an important place in our history because he helped make that history possible Arnold Beichman *The Washington Times* engrossing A magisterial study of an awesome and intriguing public career *Kirkus Reviews* entertaining thought provocative Dick Teresi *The Wall Street Journal* Hershberg's book helps us more clearly understand the postwar Establishment and offers a challenging appraisal of the role of elites of universities and of the state

Gar Alperovitz In These Times Hershberg deserves great credit for cracking a tough New England walnut analyzing this very important public figure demonstrating how he fit into his own time and showing us what we can learn from the man Daniel R Mortensen The Friday Review of Defense Literature a compelling account an engaging examination of one of the central figures of the nuclear age It succeeds in showing one man s intersection with great events and issues and in the process illuminates those issues for us all American Historical Review well written Conant s participation in one of our country s most dynamic periods is thanks to Hershberg now much better understood Library Journal A reader of the book will enter the realm of the greats the shapers of worlds created by the atomic blasts at Hiroshima and Nagasaki Conant was no bit player in Cold War history the book is very successful in weaving Conant s subsurface persona in with his ups and downs as a prominent and committed public figure And it leaves out little detail in describing top level decisions involving the Cold War geopolitics of nuclear weaponry Conant was a participant in most of these decisions with Presidents Roosevelt and Truman themselves their Secretaries of War and State and of course all the major scientific figures of the time Chemical Engineering News A wonderfully rich portrait that emerges from a carefully documented account of Conant s role in the development of the atomic bomb and post war nuclear policy An extraordinarily well written text Hershberg lays bare the person behind the persona warts dimples and all Stanley Goldberg Bulletin of the Atomic Scientists

A Philosophy of Israel Education Barry Chazan,2016-08-20 This book develops a new philosophy of Israel education Person centered Israel education is concerned with developing in individual learners the ability to understand and make rational emotional and ethical decisions about Israel and about the challenges Israel regularly faces whether they be existential spiritual democratic humanitarian national etc Chazan begins by laying out the terms of the conversation then examines the six pronged theory of person centered Israel education to outline the aims content pedagogy and educators needed to implement this program Finally the author meditates on what a transformation from ethnic to ethical education might look like in this context and others This book is Open Access under a CC BY license
