God Honor Fatherland:

The Devil's General Raymond Bagdonas, 2014-01-19 A detailed military biography of the most highly decorated Nazi regimental commander in WWII The most highly decorated German regimental commander of World War II Hyazinth Graf Strachwitz first won the Iron Cross in the Great War He was serving with the 1st Panzer Division when the Polish campaign inaugurated World War II Strachwitz's exploits as commander of a panzer battalion during the French campaign earned him further decorations before he transferred to the newly formed 16th Panzer Division There he participated in the invasion of Yugoslavia and then Operation Barbarossa where he earned the Knight's Cross At Stalingrad he reached the Volga and fought on the northern rim of Sixth Army's perimeter Severely wounded during battle he was flown out of the Stalingrad pocket and was thus spared the fate of the rest of Sixth Army Upon recuperation he was named commander of the Grossdeutschland Division's panzer regiment and won the Swords to the Knight's Cross during Manstein's counteroffensive at Kharkov Wounded twelve times during the war and barely surviving a lethal car crash Strachwitz finally surrendered to the Americans in May 1945 Historian Raymond Bagdonas though impaired by the disappearance of 16th Panzer Division's official records at Stalingrad and the fact that many of the Panzer Graf's later battlegroups never kept them has written a vividly detailed account of this combat leader's life as well as ferocious armored warfare in World War II **The Holocaust**

Bystander in Polish Culture, 1942-2015 Maryla Hopfinger, Tomasz Żukowski, 2021-03-16 This book concerns building an idealized image of the society in which the Holocaust occurred It inspects the category of the bystander in Polish culture closely related to the witness since the war recognized as the axis of self presentation and majority politics of memory The category is of performative character since it defines the roles of event participants assumes passivity of the non Jewish environment and alienates the exterminated thus making it impossible to speak about the bystanders violence at the border between the ghetto and the Aryan side Bystanders were neither passive nor distanced rather they participated and played important roles in Nazi plans Starting with the war the authors analyze the functions of this category in the Polish discourse of memory through following its changing forms and showing links with social practices organizing the collective memory Despite being often critiqued this point of dispute about Polish memory rarely belongs to mainstream culture It also blocks the memory of Polish violence against Jews The book is intended for students and researchers interested in memory studies the history of the Holocaust the memory of genocide and the war and postwar cultures of Poland and Eastern Europe

Tank Warfare on the Eastern Front, 1943-1945 Robert Forczyk, 2016-03-30 The author of Case White offers an extensive history of German and Soviet armored warfare toward the end of World War II By 1943 after the catastrophic German defeat at Stalingrad the Wehrmacht's panzer armies gradually lost the initiative on the Eastern Front The tide of the war had turned Their combined arms technique which had swept Soviet forces before it during 1941 and 1942 had lost its edge Thereafter the war on the Eastern Front was dominated by tank led offensives and as Robert Forczyk shows the Red

Army's mechanized forces gained the upper hand delivering a sequence of powerful blows that shattered one German defensive line after another His incisive study offers fresh insight into how the two most powerful mechanized armies of the Second World War developed their tank tactics and weaponry during this period of growing Soviet dominance He uses German Russian and English sources to provide the first comprehensive overview and analysis of armored warfare from the German and Soviet perspectives This major study of the greatest tank war in history is compelling reading *Transnational Punk Communities in Poland* Marta Marciniak, 2015-07-16 A Transnational History of Punk Communities in Poland is a multi regional study of the history and contemporary condition of two Polish punk communities the one in Warsaw and surrounding areas and the Upper Silesian region both rich in varied and sometimes conflicting punk traditions The author a self identified member of the punk subculture formerly living and active in Warsaw explores the various political economic and social dimensions of the development of these unique communities and the meaning of the punk ethos for people across different age groups genders and life experiences in relation to other subcultures especially skinheads and the broader society An additional dimension previously unexplored in scholarship are the ties between these Polish punk communities and their counterparts in the United States and Canada The personal connections between early bands and the long lasting transnational aspects of punk practices are shown to be an important factor in the shaping of punk attitudes across time and space The economics of everyday punk life are discussed referring to contemporary scholarship on the subject punk lyrics and ethnographies which throughout the book illustrate selected themes and problems This study includes insight about obscure yet foundational Silesian bands and their defiant sardonic humor about punk and anarchy punk versus communism and the political opposition in the 1980s punks attitudes toward the transformation of 1989 about being a punk girl on the streets of Warsaw or Wodzislaw Slaski Discover punk as an old subculture that cherishes its own past and remains an important alternative to mainstream cultural practices in a rapidly Westernizing and corporatizing country *The Letter to the Romans* Stanley E. Porter, Francis G. H. Pang, 2018-05-24 Written at a time when his ideas and practices were provoking opposition even from fellow Christians the Apostle Paul articulates in his Letter to the Romans his understanding of God's plan for humanity and discusses the implications of this plan for different groups of people Romans is considered by many as the most theologically significant and sophisticated book of the Bible This volume is designed to bridge the gap between studying Romans as an academic enterprise and experiencing how Romans can speak today in the life of the church All of the chapters in this volume especially those devoted to the content of Romans were written with both exegesis and application in mind All of the contributors to this volume believe that Romans has a crucial voice within the church today and that those who preach teach and study the book need to be attentive to its witness and to its timeliness **My Father's Land** Josie Sturgeon, 2007-08 Set during the Civil War this novel is the story of a couple who move from Pennsylvania to a plantation in North Carolina Belle a very self righteous Christian woman loves to be waited on and her faults go on and on At the lowest

point in her life she drops to her knees crying out to God to change her

Deathride John Mosier, 2010-06-15 Originally published as *Deathride* this is the true story of the Eastern Front in World War II emphasizing how close Germany came to winning and the USSR to losing the severity of the Soviet losses which have been minimized due to Soviet propaganda and the importance of the Allied invasions of North Africa and Sicily among other factors in forcing Hitler to re deploy troops saving the Soviets from disaster The German invasion of the Soviet Union on June 22 1941 began a war that lasted nearly four years and created by far the bloodiest theater in World War II In the conventional narrative of this war Hitler was defeated by Stalin because like Napoleon he underestimated the size and resources of his enemy In fact says historian John Mosier Hitler came very close to winning and lost only because of the intervention of the western Allies Stalin's great triumph was not winning the war but establishing the prevailing interpretation of the war The Great Patriotic War as it is known in Russia would eventually prove fatal setting in motion events that would culminate in the collapse of the Soviet Union Mosier argues that the Soviet losses in World War II were unsustainable and would eventually have led to defeat The Soviet Union had only twice the population of Germany at the time but it was suffering a casualty rate more than two and a half times the German rate Because Stalin had a notorious habit of imprisoning or killing anyone who brought him bad news and often their families as well Soviet battlefield reports were fantasies and the battle plans Soviet generals developed seldom responded to actual circumstances In this respect the Soviets waged war as they did everything else through propaganda rather than actual achievement What saved Stalin was the Allied decision to open the Mediterranean theater Once the Allies threatened Italy Hitler was forced to withdraw his best troops from the eastern front and redeploy them In addition the Allies provided heavy vehicles that the Soviets desperately needed and were unable to manufacture themselves It was not the resources of the Soviet Union that defeated Hitler but the resources of the West In this provocative revisionist analysis of the war between Hitler and Stalin Mosier provides a dramatic vigorous narrative of events as he shows how most previous histories accepted Stalin's lies and distortions to produce a false sense of Soviet triumph This is the real story of the Eastern Front fresh and different from what we thought we knew

The Death of Merit Conrad Riker, Are you tired of watching academia and social institutions being overrun by radical indoctrination and political correctness Are you concerned about the erosion of traditional values and the war on meritocracy Do you want to understand the origins and impact of cultural Marxism and how it's shaping our world today If your answer is yes to any of these questions then this book is for you *The Death of Merit How Cultural Marxism Hijacked Education and Society* is a must read for those seeking to understand How education has become a platform for radical indoctrination replacing objective truths with politically correct narratives Why students are being transformed from seekers of knowledge to agents of social change often at the expense of their education The role of identity politics in the propagation of cultural Marxism and its effects on social cohesion and intellectual discourse How scientific research is being distorted to fit progressive ideologies such as in the fields of gender

and race studies The assault on traditional masculinity and its role in the advancement of cultural Marxism The destruction of the traditional family structure in favor of a more fluid and less stable societal structure Written from a redpilled rational and patriarchal perspective this book offers a provocative debunking of left wing progressive ideologies and their impact on our society If you want to understand the true nature of cultural Marxism and its subversion of education then buy this book today

Letters from Readers in the Polish American Press, 1902-1969 Anna D. Jaroszynska-Kirchmann, 2013-12-11 A Corner for Everybody is a unique collection of close to five hundred letters from Polish American readers which were published in the Polish language weekly Ameryka Echo between 1902 and 1969 In these letters Polish immigrants speak in their own words about their American experience and vigorously debate religion organization of their community ethnic identity American politics and society and ties to the homeland The translated letters are annotated and divided into thematic chapters with informative introductions Polish Americans formed one of the largest European immigrant groups in the United States and their community Polonia developed a vibrant Polish language press which tied together networks of readers in the entire Polish immigrant Diaspora Newspaper editors encouraged their readers to write to the press and provided them with public space to exchange their views and opinions and share thoughts and reflections Ameryka Echo a weekly published from Toledo Ohio was one of the most popular and long lasting newspapers with international circulation For seven decades Ameryka Echo sustained a number of sections based on readers correspondence but the most popular of them was a Corner for Everybody which featured thousands of letters on a variety of topics The readers eagerly discussed everything from occurrences in local communities to issues paramount to the formation of their ethnic identity and assimilation church religion gender politics relations with new immigrant waves and other ethnic groups The letter writers debated the American labor movement and strikes described hardships of the Great Depression and World War II and argued about American domestic politics and foreign policy They also keenly followed changes in their homeland and called for work on behalf of the Polish nation The Ameryka Echo letters are a rich source of information on the history of Polish Americans which can serve as primary sources for students and scholars They also provide a new fascinating and lively look into the passions and experiences of individuals who created the larger American historical experience

When Politicians Talk Ofer Feldman, 2021-09-01 This book details the relationship between culture and the language used by public figures including politicians political candidates and government officials in the broad context of political behavior and communication Employing a variety of perspectives theoretical conceptual methodological and analytical approaches chapters focus specifically on the question of HOW cultural factors such as religion history economy majority minority relations social structure and values shape the content nature and characteristics of the rhetoric that public figures utilize in selected countries in the Americas Europe Asia Oceania and the Middle East The chapters enable comparison of the

cultural effects on the different structures styles and contents of public speaking in societies from West to East That is of WHAT leaders say HOW they say it e g degree of openness directness usage of metaphors and slogans xenophobic and racial expressions under WHICH specific circumstances e g National Days addresses national or local assemblies debates during election campaigns appeals press conferences briefings and in international meetings speeches and for WHAT specific audiences e g supporters and voters media representatives or the global community **Machiavelli's God** Maurizio Viroli, 2012-08-05 How Machiavelli's Christianity shaped his political thought To many readers of *The Prince* Machiavelli appears to be deeply un-Christian or even anti-Christian a cynic who thinks rulers should use religion only to keep their subjects in check But in Machiavelli's God Maurizio Viroli one of the world's leading authorities on Machiavelli argues that Machiavelli far from opposing Christianity thought it was crucial to republican social and political renewal but that first it needed to be renewed itself And without understanding this Viroli contends it is impossible to comprehend Machiavelli's thought Viroli places Machiavelli in the context of Florence's republican Christianity which was founded on the idea that the true Christian is a citizen who serves the common good In this tradition God participates in human affairs supports and rewards those who govern justly and desires men to make the earthly city similar to the divine one Building on this tradition Machiavelli advocated a religion of virtue and he believed that without this faith free republics could not be established defend themselves against corruption or survive Viroli makes a powerful case that Machiavelli far from being a pagan or atheist was a prophet of a true religion of liberty a way of moral and political living that would rediscover and pursue charity and justice The translation of this work has been funded by SEPS Segretariato Europeo per le Pubblicazioni Scientifiche

Letters from the Box in the Attic Barbara Serbinski Sipe, 2018-02-15 Eleven years of events can have a profound effect on an entire lifetime The story of Stanisawa Emilia Emma Krasowska Serbinski is told by her daughter Barbara tracing her mother's courageous and terrifying journey from the Soviet invasion of Poland through Soviet prisons and her eventual release from a Siberian labor camp The perilous journey continues through the deserts of the Middle East Italy and then eventually landing on the shores of Great Britain only to receive tragic information The project *Letters from the Box in the Attic* a Story of Courage Survival and Love is factually based on letters documents and photographs discovered in her mother's attic These letters represented the fabric and soul of a life well lived Historical perspective is preserved when placing her mother's letters and experiences into this narrative Barbara Serbinski Sipe is a first generation Polish American from a refugee resettlement in Great Britain Hearing stories growing up in an immigrant family ignited Barbara's love for history Her personal memories are recounted throughout the book sharing images of love sacrifice conflict and gratitude Understanding why things happen and how they affect life are just as important as the events themselves It is through historical accuracy and personal introspection that enable the stories to be told in this book Survival is the human spirit which came out of some of the most tragic events of World War II What tragedies and suffering life brings profoundly affects

a life forever *Swinging The Sledgehammer: The Combat Effectiveness Of German Heavy Tank Battalions In World War II*
Major Christopher W. Wilbeck, 2014-08-15 This thesis is a historical analysis of the combat effectiveness of the German schwere Panzer Abteilung or Heavy Tank Battalions during World War II During the course of World War II the German Army developed heavy tank battalions to fulfill the concept of breaking through enemy defenses so faster lighter mechanized forces could exploit the rupture These heavy tank battalions had several different tables of organization but were always centered around either the Tiger or the Tiger II tank They fought in virtually every theater of Europe against every enemy of Germany Ultimately the German military created eleven Army and three Waffen SS heavy tank battalions Of the Army battalions the German command fielded ten as independent battalions which were allocated to Army Groups as needed The German Army assigned the last heavy tank battalion as an organic unit of the elite Panzer Grenadier Division Grossdeutschland The Waffen SS allocated all of their battalions to a different Waffen SS Corps Because these units were not fielded until late in 1942 they did not participate in Germany's major offensive operations that dominated the early part of World War II Germany's strategic situation after mid 1943 forced their military onto the defensive Consequently there are very few instances when heavy tank battalions attacked as a breakthrough force During the latter part of the war they were used in many different ways to provide defensive assistance along very wide frontages This study assesses the German heavy tank battalions as generally effective primarily because of the high kill ratio they achieved However based upon observations from a wide variety of examples this study also outlines several areas where changes may have increased their effectiveness God on the Western Front Joseph F. Byrnes, 2023-08-31 From 1914 to 1918 religious believers and hopeful skeptics tried to find meaning and purpose behind divinely willed destruction God on the Western Front is a history of lived religion across national boundaries religious affiliations and class during World War I utilizing an expansive record of primary sources Joseph F Byrnes takes readers on a tour of the battlefields of France listening to the words of German French and English soldiers going behind the lines to hear from the men and women who provided pastoral and medical care and reviewing the religious writings of priests bishops ministers and rabbis as they tried to make sense of it all The story begins with citizens at home as they responded to the obligation to make war and then focuses on the God talk and nation talk that soldiers used to express their foundational religious experiences Byrnes's study attends to the words of average men who struggled to articulate their religious sentiments alongside the generals Helmuth von Moltke Ferdinand Foch and Douglas Haig and the soldier theologians Franz Rosenzweig Paul Tillich Pierre Teilhard de Chardin and Geoffrey Studdert Kennedy In doing so he shows how religious and battle experience are intertwined and showcases the wide range of spiritual responses that emerged across boundaries Going beyond the typical constraints of studies focused either on one nation or one confessional affiliation Byrnes's international and interfaith approach breaks new ground It will appeal to scholars and students of modern European history religious history and the history of war **Dolores Harro Harring, 1853 Seventeenth Century German Prose:**

Grimmelshausen, Leibniz, Opitz, Weise, and Others Lynne Tatlock, 1993-04-01 Foreword by Günter Grass This anthology gives a sense of the broad range of prose writing the many interests of the seventeenth century intellectual a rich diversity of genres fictions and non fictions

Ritual and Religion in the Making of Humanity Roy A. Rappaport, 1999-03-25 Roy Rappaport argues that religion is central to the continuing evolution of life although it has been displaced from its original position of intellectual authority by the rise of modern science His book which could be construed as in some degree religious as well as about religion insists that religion can and must be reconciled with science Combining adaptive and cognitive approaches to the study of humankind he mounts a comprehensive analysis of religion s evolutionary significance seeing it as co extensive with the invention of language and hence of culture as we know it At the same time he assembles the fullest study yet of religion s main component ritual which constructs the conceptions which we take to be religious and has been central in the making of humanity s adaptation The text amounts to a manual for effective ritual illustrated by examples drawn from anthropology history philosophy comparative religion and elsewhere

So Far from Home Ann Knope & Krystyna Stachowicz Farley, 2013-10 A first hand account of a Polish family s experience during the deconstruction of Poland by Hitler and Stalin as seen through the eyes of a feisty 14 year old girl Krystyna Stachowicz Krystyna is a living witness to the unraveling of the Second Polish Republic when they were left to face alone the Nazi and Communist threat to the free world while the rest of the world looked the other way

The Personal of the Political Marek Wojtaszek, Elżbieta H. Oleksy, Aleksandra M. Różalska, 2015-10-05 In an era of the radicalization of political ideologies in Europe long lasting societal remnants of the economic breakdown and the neoliberalist consolidation of capitalist values it is ethically relevant to critically reconceptualise the meaning and role of European feminisms and the challenges they have to confront today both locally and transnationally In the face of ubiquitous beliefs about feminism having exhausted itself such a rethinking of the place and priorities of feminist politics within and outside academia is urgently needed The popularization of the so called faux feminisms assuming attained emancipation in the present day neoliberal environment of advanced capitalism calls for close examination and creative counter strategies Bearing in mind that the patterns of oppression still prevail becoming even more and more insidious and complex it is all the more necessary to identify scrutinize and contest the vicissitudes of the dominant apparatus of control and subjugation and to demystify the purportedly gender inclusive operations of the regime As such the book seeks to renew an academic and political interest in the epistemological tradition of context created knowledge Bringing together authors from diverse geopolitical locations this volume constitutes a forum for fruitful encounters across generations and national and cultural differences contributing to a better understanding of the complexities of patriarchal ideologies and to the creation of a more sustainable communal future The book offers a collection of chapters introducing situated perspectives which adopt intersectional optics in order to analyze the transformations of the contemporary socio political realm and reflect research priorities within present day feminist scholarship
