God Makes The Difference:

The Reality of God and the Problem of Evil Brian Davies, 2006-10-11 An important new book on how we can still believe in a God of love and confront the problem of evil in the world Probably the most important book on the subject since John Hick's book *Evil and the God of Love* Professor Davies says we should tackle this problem by attending to the basics by asking whether there is a God and then What is God he starts by summarizing the arguments so far from Seneca to the present day He then moves to what he describes as the basics see above and demonstrates that much of what has been written about on the topic of evil is in fact irrelevant or just plain wrong This is a lively book on a tricky subject written at all times with humour and much practical example

God and Necessity Brian Leftow, 2012-09-06 Brian Leftow offers a theist theory of necessity and possibility and a new sort of argument for God's existence He argues that necessities of logic and mathematics are determined by God's nature but that it is events in God's mind His imagination and choice that account for necessary truths about concrete creatures
