God Question Other Faith Issues:

Issues in the Philosophy of Religion Nicholas Rescher, 2013-05-02 Over the years Nicholas Rescher has published various essays on religious issues from a philosophical point of view The chapters of the present volume collect these together joining to them four further pieces which appear here for the first time Chapters 3 7 and 8 While these studies certainly do not constitute a system of religious philosophy they do combine to give a vivid picture of a well defined point of view on the subject the viewpoint of a Roman Catholic philosopher who in the longstanding manner of this tradition seeks to harmonize the commitments of faith with the fruits of inquiry proceeding under the auspices of reason **African Theology** Kodzo Mawusi, 2015-09-16 This book is a theological research done as a comparative study of African Traditional Religion in comparison to Christianity Since Africans in most part are seen around the world as pagans without any concept of the true God until white missionaries got to the continent this study is an effort to change that mentality This book is a result of my research as a theology student to find out what both the Traditional and Christian religions have in common Those who will approach this book with an open mind will realise that Africans when it comes to their spirituality are more spiritual and prayerful than the average Christian in the West Readers will find to their surprise that there are some similarities or commonalities within these religions which most Christians are not even aware of Since the people who brought the notion of this ONE God Christians hold on to so dearly the Hebrews were originally Africans readers should not be surprised when they come across the facts that most of the traditional religious sacrificial traditions are in the Christian book of life we call the Bible Yes this may come as a surprise to most Christians but the truth is we cannot deny their similarities and probably their origin in the Christian tradition because of their African background Hopefully this book will open the door for dialogue between Christians and non Christians about God's presence in every culture Introduction to Philosophy of Religion James Kellenberger, 2017-09-29 Using various and competing religious sensibilities Introduction to the Philosophy of Religion helps students work through the traditional material and their own religious questions **Life: Its Problems and Some of Its Unanswerable Questions** Dr. Nicholas La Bianca, 2008-11-12 L I F E Its Problems and Some of Its Unanswerable Questions Most of the people go through life trying to cope with the immediate physical needs that the everyday life presents and very rarely try to explain to themselves in a rational way the reason for being on this earth Religion for most of them answers all the questions that may come to their mind and each one comes up with a personal explanation for them Since different religions usually have different answers many try to find out in a rational way what are the correct answers and how people should live in order to better fulfill their destiny as human beings This book tries to raise some of these questions and when possible tries to bring forth feasible solutions to bring all people to strive for the common good Most of the people go through life trying to cope with the immediate physical needs that the everyday life presents and very rarely try to explain to themselves in a rational way the reason for being on this earth Religion for most of them answers all the questions that may

come to their mind and each one comes up with a personal explanation for them Since different religions usually have different answers many try to find out in a rational way what are the correct answers and how people should live in order to better fulfill their destiny as human beings This book tries to raise some of these questions and when possible tries to bring forth feasible solutions to bring all people to strive for the common good

Faith, Hope, and Love in the Kingdom of God Robert Hernan Cubillos, 2017-04-27 We live in a world full of challenges The three graces can almost be seen as motors for Christian life in today's world but the words faith hope and love have so many everyday uses that their technical theological meanings are for many difficult to appreciate Modern life also leaves many yearning for authenticity and meaning Many religions have answered that need by calling to mind the image of a path Always profound progressions religious paths tend to be motivated either by practices the act of walking the path or focal points Christianity has a focal point an object and it sees the three graces as distinctively content filled The heart of this book is about helping people find the Christian path and their intellectual emotional and spiritual balance an equilibrium that is sustained by a strong personal faith an enduring hope for the future and genuine love that will withstand the worst of times It

contributes to the category of Christian literature that provides a pattern for Christian living without surrendering the intellect to the more popular side of this genre

The Problem with Interreligious Dialogue Muthuraj

Swamy,2016-03-24 Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation The Problem with Interreligious Dialogue Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography

Problems of Evil and the Power of God Professor James A Keller,2013-05-28

Why do bad things happen even to good people If there is a God why aren t God s existence and God s will for humans more apparent And if God really does miracles for some people why not for others This book examines these three problems of evil suffering divine hiddenness and unfairness if miracles happen as believers claim to explore how different ideas of God s power relate to the problem of evil Keller argues that as long as God is believed to be all powerful there are no adequate answers to these problems nor is it enough for theists simply to claim that human ignorance makes these problems insoluble Arguing that there are no good grounds for the belief that God is all powerful Keller instead defends the understanding of God and God s power found in process theism and shows how it makes possible an adequate solution to the problems of evil while providing a concept of God that is religiously adequate

The Church and the Problem of Divine Hiddenness Derek

King,2022-12-30 This book offers a theological and more specifically ecclesiological response to the philosophical problem of divine hiddenness It engages with philosopher J L Schellenberg s argument on hiddenness and sets out a theologically rich and fresh response drawing on the ecclesiological thought of Gregory of Nyssa With careful attention to Gregory s work the book shows how certain ecclesiological problems and themes are critical to the hiddenness argument It looks to the gathered church the church as the body of Christ and the scattered church the church as the image of God for relevance to the hiddenness problem The volume will be of interest to scholars of theology and philosophy particularly analytic theologians and philosophers of religion
