

Some claim that they are avenging a history of oppression, torture ... the kinds of crimes every conquering country carries out as a matter of course in the race for power. But I can tell you as a history teacher, that most people don't care about history unless they can relate what happened in the past to what is happening now. If people suffered in the past, but their descendants are content with their lives now, the descendants aren't likely to go out and kill in the name of history. But if people are suffering the same harsh treatment now that their parents and grandparents and great-grandparents went through, then you have generations of discontentment coming to the boil.

'Yes, I think what it comes down to in the end is a lack of contentment.'

The students looked at one another with expressions of puzzlement and scorn. 'Lack of contentment' didn't make someone into a terrorist. Chamus remembered the day at the hangar, when his class died, and when he returned later to see the bodies being pulled out. Hate coursed through him every time he thought about it and he wanted to hurt the people who had carried it out, except the only one he knew about was dead. He would wake up in the morning and the whispering would come to him in the last quiet moments of sleep, reminding him of what had happened, and he would find his hands clawing the sheets and his teeth grinding with the hate. That was the kind of thing that made a person into a killer. Lack of contentment was going around with a bad haircut.

'I think you're wrong, Miss,' he pronounced, in a flat tone. Mrs Archaw regarded him for a moment, and then gazed

around her as if admiring the architecture.

'Has anybody heard of a man named ...'
Nobody answered; the name meant which was a sure sign they were in for a

'I think you'll recognise him when I tell you ...'
Olam Waymath was born in Bartokhrin, in a region called Gefinkan,' the teacher began, and the class listened resignedly in expectation of another list of dates and places. But Mrs Archaw did not start reciting historical data. 'Olam was the son of a fisherman, and grew up in a relatively peaceful village. He was much the same as any of you, without the benefits of your exceptional education, of course.

That was until he turned thirteen. On his thirteenth birthday, the local councillor came to the village and told the people there that their river was to be blessed with the protection of a hydroelectric dam, which was to be built upstream. Olam and all the other boys watched over the months that followed as the rich men of Bartokhrin brought in Altiman engineers and construction teams to put up this huge dam that formed a new horizon above their village. The rich men were buying up plots of land along the valley, and Olam's father sold some land near his house for an excellent price and got ready to welcome some wealthy neighbours.

But the dam did not turn out to be the blessing the councillors had claimed. Pylons were erected on the newly bought plots of land, making the area look like a massive power station. The construction ruined a large section of the valley and when the dam became operational, the river flowing through the village dried up. Fish eggs didn't hatch

Gods And Their Machines:

The Gods' Machines Wun Chok Bong, 2008-05-27 Based on the author's decipherment of prehistoric carvings and the application of mathematical measurements *The Gods Machines* shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth's energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today's crop circles *The Gods Machines* is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence

The Gods and Their Machines Oisín McGann, 2004-11 Marking the debut of a compelling new voice in science fiction and fantasy this novel is set in a world that bears a disturbing resemblance to the Middle East and the conflict between Israel and Palestine *The Gods and their Machines* Oisín McGann, 2013-09-15 Two worlds Two different lives Divided by hate and violence Thrown together by chance Chamus's nightmare begins when he survives a massacre Suicide bombers from neighbouring Bartokhrin are terrorising his country Altima How do you fight someone who isn't afraid of death Across the border Riadni is no ordinary Bartokhrin girl she dresses like a boy fights like a boy spits and rides her horse like a boy When the Hadram Cassal set up camp on her father's land she is drawn to these rebels who are prepared to fight and to die for their homeland A crash landing in Bartokhrin territory forces Chamus and Riadni together and they find themselves on the run hunted by killers Danger and death are closing in on them from all sides The God

The God Machine Thomas E. Sniegowski,2006-12-01 Hellboy a bloodred cloven hoofed demon raised by the United States government is a top field agent for the Bureau for Paranormal Research and Defense He questions the unknown then beats it into submission Religious artifacts from every faith are disappearing without a trace The identity of the perpetrator is a complete mystery until Hellboy and Liz Sherman acting on an unlikely tip from a ghost foil a museum heist attempted by crude robotic constructs inhabited by human spirits One of these freed human spirits offers to help Hellboy track down those who imprisoned him a fanatical order of psychics obsessed with creating a new messiah one that will bring about a new stage of evolution for mankind whether mankind is willing or not Now only Hellboy and his colleagues stand between a vulnerable humanity and an evil vengeful god **Metropolis** Thea von Harbou,2023-11-29T17:17:47Z Set in a futuristic dystopian city Metropolis revolves around the stark divide between the affluent ruling class who reside in luxurious skyscrapers above ground and the oppressed working class laboring in dismal conditions below The city is run by the powerful Joh Fredersen who oversees the vast industrial complex that sustains the city The plot takes a dramatic turn when Joh Fredersen s son Freder discovers the harsh reality of the workers plight and becomes determined to bridge the gap between the two classes

As Freder delves deeper into the city's secrets he encounters Maria a compassionate woman advocating for workers rights The plot thickens as the city faces the impending threat of rebellion from the oppressed laborers Joh Fredersen driven by his desire to maintain control enlists the help of the brilliant scientist Rotwang to develop a humanoid robot with Maria's likeness The robot is intended to manipulate and control the workers escalating tensions and leading to a dramatic climax that explores themes of class struggle technology and the consequences of unchecked industrialization Metropolis was first serialized in the German magazine *Das illustrierte Blatt* in 1926 and published as a book by August Scherl Verlag that same year Von Harbau also wrote the screenplay for the groundbreaking film of the same name directed by her husband Fritz Lang Both the novel and the film were developed simultaneously with the screenplay closely following the narrative of the novel This book is part of the Standard Ebooks project which produces free public domain ebooks **Popular Culture and Critical Pedagogy** Toby Daspit, John A. Weaver, 2012-09-10 This collection attempts to incorporate cultural studies into the understanding of schooling not simply addressing how students read themselves as members of a distinct culture but how they along with teachers and administrators read popular texts in general The purpose of this book is to suggest some alternative directions critical pedagogy can take in its critique of popular culture by inviting multiple reading of popular texts into its analysis of schooling and seeing many forms of popular culture as critical pedagogical texts **Metropolis** (□□□) Thea von Harbou, 2011-07-15 This remarkable novel the basis for the world's greatest science fiction movie has long been a rare but ardently sought after collector's item It is an unforgettable vision of the 21st century and the awe inspiring city of the future Metropolis has been compared to such classics as George Orwell's 1984 H G Wells's *The Time Machine* Samuel Butler's *Erewhon* and Karel Capek's *R.U.R.* Science fiction writer and editor Forrest J Ackerman called it a work of genius noting The language of the novel is sometimes as thesauric as Shiel as kaliedoscopic as Merritt as bone spare as Bradbury as poetic as Poe as macabre as Machen You will have an experience in reading that will last you all the rest of your life Self and Substance in Leibniz Marc Elliott Bobro, 2006-01-16 There is a close connection in Gottfried Wilhelm Leibniz's mind between the notions of self and substance R W Meyer in his classic 1948 text *Leibniz and the Seventeenth Century Revolution* writes that the monad is nothing but a 1 repr sentation in both senses of the French word of Leibniz's personality in metaphysical symbols and there was under contemporary circumstances no need 2 to introduce this concept apart from propounding it It is not clear what Meyer means here except that from the consideration of his own self in some way Leibniz comes to his concept of simple substance or monad Herbert Carr in an even earlier work notes that Leibniz held that the only real unities in nature are formal not material and for a long time Leibniz was content to call the formal unities or substantial forms he was speaking about souls This had the advantage that it referred at once to the fact of experience which supplies the very 3 type of a substantial form the self or ego Finally Nicholas Rescher in his usual forthright manner states that in all of Leibniz's expositions of his philosophy 4 the human person is the paradigm of a substance **God's Child** Terrence

Steven Lake,2019-03-29 Terrence Steven Lake grew up black in Hamtramck Michigan with friends of all different colors While he could get along with everyone he also spoke his mind For instance there was a white friend at work from a totally different environment The author told his co worker that the white race as a whole had been the most violent race of people in the history of the world explaining how the pharaohs came to Africa to enslave people to build pyramids pointing at certain planets at a certain time of the year After meeting and marrying Valerie the author found himself increasingly questioning religion Doubts about the nature and purpose of God the universe and man s place in the world began to plague him In sharing his life story the author hopes to show that there is a reason that different races were put on planet Earth and until that purpose is fulfilled those who are not enlightened will be a threat to peace *God's Mechanics* Guy
