*God's Daughters* R. Marie Griffith, 1997-10-08 In recent decades religious conservatives and secular liberals have battled over the appropriate role of women in society In this absorbing exploration of Women s Aglow Fellowship the largest women s evangelical organization in the world R Marie Griffith challenges the simple generalizations often made about charismatic or spirit filled Christian women and uncovers important connections between Aglow members and the feminists to whom they so often seem opposed Women s Aglow is an international interdenominational group of spirit filled women who meet outside the formal church structure for healing prayer worship and testimony Aglow represents a wider evangelical culture that has gained recent media attention as women inspired by the Christian men s group Promise Keepers have initiated parallel groups such as Praise Keepers and Promise Reapers These groups are generally newcomers to an institutional landscape that Aglow has occupied for thirty years but their beliefs and commitments are very similar to Aglow s While historians have examined earlier women s prayer groups they ve tended to ignore these modern day evangelical groups because of their assumed connection to the religious right *God s Daughters* reveals a devotional world in which oral and written testimonies recount the afflictions of human life and the means for seeking relief and divine assistance A relationship with God envisioned as father husband or lover and friend is a way to come to terms with pain dysfunctional family relationships and a desire for intimacy Griffith s book is also valuable in showing the complex role that women play within Pentecostalism a movement that has become one of the most important in twentieth century world religions Christianity and Public Culture in Africa Harri Englund, 2011-08-15 *Christianity and Public Culture in Africa* takes readers beyond familiar images of religious politicians and populations steeped in spirituality It shows how critical reason and Christian convictions have combined in surprising ways as African Christians confront issues such as national constitutions gender relations and the continuing struggle with HIV AIDS The wide ranging essays included here explore rural Africa and the continent s major cities colonial and missionary legacies and mass media images in the twenty first century They also reveal the diversity of Pentecostalism in Africa and highlight the region s remarkable denominational diversity Scholars and students alike will find these essays timely and impressive The contributors demonstrate how the public significance of Christianity varies across time and place They explore rural Africa and the continent s major cities and colonial and missionary situations as well as mass mediated ideas and images in the twenty first century They also reveal the plurality of Pentecostalism in Africa and keep in view the continent s continuing denominational diversity Students and scholars will find these topical studies to be impressive in scope Contributors Barbara M Cooper Harri Englund Marja Hinfelaar Nicholas Kamau Goro Birgit Meyer Michael Perry Kweku Okyerefo Damaris Parsitau Ruth Prince James A Pritchett Ilana van Wyk **Encyclopedia of American Women and Religion** June Melby Benowitz, 2017-08-18 This two volume set examines women s contributions to religious and moral development in America covering individual women their faith related organizations and women s roles

and experiences in the broader social and cultural contexts of their times This second edition of Encyclopedia of American Women and Religion provides updated and expanded information from historians and other scholars of religion covering new issues in religion to better describe and document women's roles within religious groups For instance the term evangelical feminism is one newly defined aspect of women's involvement in religious activism Changes are constantly occurring within the many religious faiths and denominations in America particularly as women strive to gain positions within religious hierarchies that previously were exclusive to men and rise within their denominations to become theologians church leaders and bishops The entries examine the roles that American women have played in mainstream religious denominations small religious sects and non traditional practices such as witchcraft as well as in groups that question religious beliefs including agnostics and atheists A section containing primary documents gives readers a firsthand look at matters of concern to religious women and their organizations Many of these documents are the writings of women who merit entries within the encyclopedia Readers will gain an awareness of women's contributions to religious culture in America from the colonial era to the present day and better understand the many challenges that women have faced to achieve success in their religion related endeavors

**The Body of Faith** Robert C. Fuller, 2013-06-01 A groundbreaking account of American religious history that highlights the important role played by the physical body The postmodern view that human experience is constructed by language and culture has informed historical narratives for decades Yet newly emerging information about the biological body now makes it possible to supplement traditional scholarly models with insights about the bodily sources of human thought and experience The Body of Faith is the first account of American religious history to highlight the biological body Robert C Fuller brings a crucial new perspective to the study of American religion showing that knowledge about the biological body deeply enriches how we explain dramatic episodes in American religious life Fuller shows that the body's genetically evolved systems pain responses sexual passion and emotions like shame and fear have persistently shaped the ways that Americans forge relationships with nature to society and to God The first new work to appear in the Chicago History of American Religion series in decades The Body of Faith offers a truly interdisciplinary framework for explaining the richness diversity

and endless creativity of American religious life      **God in Captivity** Tanya Erzen, 2017-03-07 An eye opening account of how and why evangelical Christian ministries are flourishing in prisons across the United States It is by now well known that the United States incarceration rate is the highest in the world What is not broadly understood is how cash strapped and overcrowded state and federal prisons are increasingly relying on religious organizations to provide educational and mental health services and to help maintain order And these religious organizations are overwhelmingly run by nondenominational Protestant Christians who see prisoners as captive audiences Some twenty thousand of these Evangelical Christian volunteers now run educational programs in over three hundred US prisons jails and detention centers Prison seminary programs are flourishing in states as diverse as Texas and Tennessee California and Illinois and almost half of the federal prisons operate or are developing faith based residential programs Tanya Erzen gained inside access to many of these programs spending time with prisoners wardens and members of faith based ministries in six states at both male and female penitentiaries to better understand both the nature of these ministries and their effects What she discovered raises questions about how these ministries and the people who live in prison grapple with the meaning of punishment and redemption as well as what legal and ethical issues emerge when conservative Christians are the main and sometimes only outside forces in a prison system that no longer offers even the pretense of rehabilitation Yet Erzen also shows how prison ministries make undeniably positive impacts on the lives of many prisoners men and women who have no hope of ever leaving prison can achieve personal growth a sense of community and a degree of liberation within the confines of their cells With both empathy and a critical eye *God in Captivity* grapples with the questions of how faith based programs serve the punitive regime of the prison becoming a method of control behind bars even as prisoners use them as a lifeline for self transformation and dignity
