Aunt Epp was not afraid to voice her views and give her advice on topics ranging from adultery to wrinkles God to genitals In a time when mentioning such things would have been deemed unladylike and improper Aunt Epp left nothing unsaid Full of wit and erudition not to mention homespun herbal remedies and witty verse now Aunt Epp s timeless wisdom can be shared and enjoyed by everyone Aches and Pains Make a marinade out of half a dozen big heads of garlic and a pint of brandy and keep it to hand Drink a teaspoon of this as soon as you wake and immediately after your quick cold bath This is a good way to oil yourself into the day and is a great remedy for ancient or aching bones Once you have gone the way of all the earth your brandied and be garlicked bones will do the earth a power of good and you will be at peace together Diaries Maintain a diary all your days A diary is a doorway to a second life running parallel to the one you live and produces even a third life for by recording the day s events you preserve the days like berries Golfers Never marry one The golfer is extinct from his waist downwards and from his neck upwards the main portion of him being concerned with placing his shot in the hole as fast as possible Precision not passion characterises the golfer A most uninteresting specimen with a colossal lack of soul Respect This is what you owe to the living to the dead you owe only truth Confessions of a Cafeteria Catholic Peter Kreeft,2022-04-01 One day philosopher Peter Kreeft reads an open letter published by a friend Nat Whilk He s Catholic but he sees the Church as unsteady outdated obsessive As a challenge to the True Believers Nat pens a twenty point manifesto for cafeteria Catholics who pass up certain Church teachings and scoop up others like a diner in a buffet line I find in Catholicism both much to accept and even love and also much to refuse and even despise he asserts If you insist on tying God to the Church you will make me an atheist Kreeft has an answer for Nat one that spans over a hundred pages The result is this book a sharp friendly and funny debate between two honest thinkers trying to understand the Christian life Nat is the cafeteria Catholic writes Kreeft and I am the eat all the food Mommy puts on your plate Catholic Taking on Nat s manifesto point by point the Boston College philosopher builds his case for a full package Catholicism addressing the themes of authority love freedom conscience sex abortion social justice science and more Our hopes differ he points out to his friend Your hope is in man mine is in God If like Nat Whilk you find yourself wondering why the Church asks for so much commitment Confessions of a Cafeteria Catholic could be the book for you This debate serves as a fun and accessible introduction to some of the knottiest aspects of Catholic doctrine Readers of Peter Kreeft s apologetic works and his Socrates Meets dialogues will enjoy the latest venture by one of the most celebrated contemporary Catholic writers *God's Great Invention* Linda R. Joiner,1995-06 God made comets and colors and kangaroos But his greatest invention is people people like you The Bible shows how God made you different from anyone else with gifts and talents to make your own special mark on His world **The Greatest Inventions Ever** Jaideep Gupte,2025-07-30 Everyday billions of people wake up on planet Earth pick up their toothbrush use a kettle run through their smartphone sit in a train bus car and head for work college school They may use a desktop laptop tablet and return home at the end of the day Some may watch some television others

just grab dinner and crash out only to repeat this cycle over and over day after day The routine gets so mechanical that only a tiny fraction ever wonder how the things they used during the day were conceived in the first place Very few of these billions realize that all the little conveniences they took for granted during the day are a result of eons of deep cognitive processes and scores of trial and error methods The masterminds behind these stunningly creative works have long remained as some far flung and unsung heroes but it is they who have made our lives as smooth as butter and as soft as velvet This book dives into the origin of all these little conveniences called Inventions the stories and minds behind them Starting with the Stone Age and spanning numerous civilizations and countries the book looks into all the defining things that have been invented so far how they work and what could be invented in the future It also takes a peek into how Inventions have shaped the relationship between countries and civilizations how they rose and fell across various civilizations and why some countries have been consistently better at inventing than other countries The book aims to ignite the spark of curiosity among the readers at the same time helping the reader appreciate the ingenuity of these unsung heroes who lie forgotten on some dusty and nondescript shelves across various libraries Without them we would still be cavemen today living out our lives like hunter gatherers
