Gods Of This Age Or The God Of The Ages:

Hermeneutics as Epistemology William C. Roach, 2015-07-24 Historic Protestantism and evangelicalism has always been committed to the authority of Scripture and interested in the proper interpretation of the Bible They uphold the motto As Scripture says God says and as God says Scripture says Many today claim this type of reasoning is faulty since individuals can no longer know the true meaning of Scripture because there are no stable metaphysical or epistemological frameworks Moreover they claim that approaches such as the one presented by Carl F H Henry no longer provide adequate grounds to address the pressing hermeneutical issues This study responds to these types of claims showing each of these proposals is based upon faulty first principles or misrepresentations This book surveys hermeneutical innovations and Henry s epistemological hermeneutic to show that Henry s epistemology is foundational to his hermeneutic offering present day evangelicals an epistemologically justified approach to hermeneutics as epistemology and methodology The book will be of importance to those with interest in evangelical hermeneutics or philosophical hermeneutics in general It provides a clear assessment of the impact of Carl F H Henry s epistemology and hermeneutic and strives to respond to criticisms raised against his Augustinian Reformed revelational cognitive propositional hermeneutic Gods of this Age Or-- God of the Ages? Carl Ferdinand Howard Henry, 1994 Over the past fifty years the vacuum created by the retreat from Biblical Christianity has been swiftly filled by naturalism relativism subjectivism and cultic religions Dr Carl Henry s call for evangelistic engagement and cultural participation strikes a note that offers fresh hope in a time of intense spiritual challenge From the founding editor of Christianity Today The International Critical Commentary on the Holy Scriptures of the Old and New Testaments, 1927 *The International Critical Commentary on the Holy Scriptures of the Old and New Testaments* Samuel Rolles Driver, Charles Augustus Briggs, 1927 **The International Critical Commentary on the Holy Scriptures of the Old and New Testaments: Daniel, by J. A. Montgomery**, 1927 The Major Gods of Ancient Yucatan Karl A. Taube, 1992 **The Treasury of Knowledge: Book One** Jamgon Kongtrul, 2003-06-05 In Tibetan religious literature Jamg n Kongtr l s Treasury of Knowledge in ten books stands out as a unique encyclopedic masterpiece embodying the entire range of Buddhist teachings as they were preserved in Tibet In his monumental Treasury of Knowledge Jamg n Kongtr l presents a complete account of the major lines of thought and practice that comprise Tibetan Buddhism This first book of The Treasury which serves as a prelude to Kongtrul s survey describes four major cosmological systems found in the Tibetan tradition those associated with the Hinayana Mahayana Kalachakra and Dzogchen teachings Each of these cosmologies shows how the world arises from mind whether through the accumulated results of past actions or from the constant striving of awareness to know itself Horae Apocalypticae: or, A commentary on the Apocalypse, critical and historical Edward Bishop Elliott, 1851 *If Only God Used His Brain* Snofla Sacul, 2011-08-15 In order to understand this provocative article as my personal analogy that is concerning my outlook on life and religion especially my critical view referring to the creation of our universe and life

including all diseases here on earth I will try my best to present my analogy in a most rational way explaining all the short comings in reference to our life including my belief in the Judeo Catholic religion I will especially scrutinize the Judeo Christian religion to which I was introduced in my childhood Unfortunately history and my passed life are now in a distant passed Yes I soon realized that I had to change my stalemated view on life to which I was introduced in my childhood I had to bring it to a platform of a new concept to view Nature and religion from a different angle to a platform of reality As for myself I sense a negative opinion as to my most open and forward references concerning religion and God Some may call me The Diablo s Incarnates Surely each one of us has the privilege to his own opinion This book has no intention to change anyone s mind Its porpoise is to expose the hidden truth which may never be exposed to you otherwise I also would like to point out that in many instances I have repeated myself only to accentuate and highlight the subject in a given paragraph In anticipated criticism and religious hate I am asking to stay anonymous for various reasons If truth is the reason to hate and cause mental unhappiness then one must have objection to the existence of God as God is the only truth **Horæ**

Apocalypticæ; Or a Commentary on the Apocalypse Critical and Historical; Including Also an Examination of the Chief Prophecies of Daniel Edward Bishop ELLIOTT,1851

Horæ Apocalypticæ Vol. 3 E. B. Elliot,2018-05-30 *Horæ Apocalypticæ* is a commentary on the apocalypse critical and historical including also an examination of the chief prophecies of Daniel It is doubtless the most elaborate work ever produced on the Apocalypse Editors Note 2018 Quin Ed E B Elliot finished his great work about the year 1860 The nature of the Historicist method of interpretation is such that the line of fulfilled prophecy is continually moving with the passage of time The interpretation of which necessarily requires a certain amount of speculation which must be verified before accepted as true As well intentioned as many are the passage of time will overthrow the best of expositors on some points of which time would reveal to be mere speculation Though the bulk of Mr Elliot s work still stands the test of time time has unveiled a more likely or true interpretation on some points The editors herein have made some updates commensurate **A Dictionary of Religion and Ethics** Shailer Mathews,Gerald Birney Smith,1921

Fathers of the Christian Church Philip Schaff, Henry Wace, 1899 *A Select Library of the Nicene and Post-Nicene Fathers of the Christian Church, Second Series, Volume 9* Philip Schaff, Henry Wace, 2022-04-29 Philip Schaff's classic work colloquially known as The Early Church Fathers is an invaluable resource filled with the primary documents and early theological building blocks for the Christian church. Comprised of thirty-eight volumes, it is broken into three parts: the Ante-Nicene Fathers and Nicene and Post-Nicene Fathers First and Second Series.

Upon This Rock Robert Lewis Fosssett, 2013-06-19 Nearly thirty years ago George Lindbeck wrote his seminal and highly influential work *The Nature of Doctrine*. Since that time, there has been no serious attempt at moving beyond the problems he lays out, in particular the problem of foundationalism. *Upon This Rock* is not merely a response to George Lindbeck's important work; it is an attempt to show how theology and religious discourse can truly move past the particular problems posed by foundationalism: the assumption of and search for so-called objective and universal standards by looking at just one important discussion within the field: the modern discussion on the nature and function of doctrine. *Upon This Rock* offers an account of doctrine, an account that includes such topics as the authority of Scripture, biblical interpretation, and the role of the Church, and the nature of her doctrine among others that moves the Church past the problems of foundationalism and back to her one true rock, Jesus Christ, her Lord.

Making Sense of "God" Norman Solomon, 2023-05-04 All over the world, people talk about God and argue endlessly about what God said and what, if anything, we should do about it. Do they know what they are talking about? Do they ever seriously consider what it might look like or feel like if God actually spoke to you? How could you tell if someone said God spoke to them, whether they were deluded, bluffing, or high on drugs? The reflections, dialogues, and arguments in this book address such questions, often with humor, sometimes provocatively, as when the author suggests the ancient gods have returned to invade the institutions of our great religions, or when two spirits, William and James, viewing the world from afar, voice their doubt as to whether the human species will ever attain the pinnacles of cooperation, reason, beauty, and love. Ancient texts from the Mayan Popol Vuh through the Bible to the Chinese classics are invoked, and the discoveries of modern science from anthropology to zoology are brought into play as the reader is gently led to an appreciation of the role of religious language in modern society.

A Select Library of Nicene and Post-Nicene Fathers of the Christian Church: St. Hilary of Poitiers, John of Damascus, 1899 Philip Schaff, Henry Wace, 1899 Ancient Western Asia Beyond the Paradigm of Collapse and Regeneration (1200-900 BCE) Maria Grazia Masetti-Rouault, Ilaria Calini, Robert Hawley, Lorenzo d'Alfonso, 2024-05-07 New results and interpretations challenging the notion of a uniform macroregional collapse throughout the Late Bronze Age Eastern Mediterranean. *Ancient Western Asia Beyond the Paradigm of Collapse and Regeneration 1200-900 BCE* presents select essays originating in a two-year research collaboration between New York University and Paris Sciences et Lettres. The contributions here offer new results and interpretations of the processes and outcomes of the transition from the Late Bronze Age to the Iron Age in three broad regions: Anatolia, northern

Mesopotamia and the Levant Together these challenge the notion of a uniform macroregional collapse throughout the Eastern Mediterranean followed by the regeneration of political powers Current research on newly discovered or reinterpreted textual and material evidence from Western Asia instead suggests that this transition was characterized by a diversity of local responses emerging from diverse environmental settings and culture complexes as evident in the case studies collected here in history archaeology and art history The editors avoid particularism by adopting a regional organization with the aim of identifying and tracing similar processes and outcomes emerging locally across the three regions Ultimately this volume reimagines the Late Bronze Iron Age transition as the emergence of a set of recursive processes and outcomes nested firmly in the local cultural interactions of western Asia before the beginning of the new unifying era of Assyrian imperialism
